**Major Objectives**

The mission of the Office of the Inspector General (OIG) is to enhance the public confidence in the integrity of the City Government by rooting out corruption, fraud, misconduct, waste and mismanagement. The OIG is the watchdog for the taxpayers of the City. The OIG has jurisdiction to conduct investigations and audits over all departments, agencies, commissions and boards under the Mayor's jurisdiction, as well as in contracts with individuals or companies receiving City funds and doing business with the City. The OIG also provides investigative expertise to any agency or authority requesting assistance.

As an operationally independent office, shielded from governmental influence, the OIG conducts both criminal and administrative investigations. We work with the Internal Investigations Unit of the Philadelphia Police Department, federal and state law enforcement agencies, as well as federal, state and local inspectors general when conducting criminal investigations, and serious integrity related complaints of fraud, corruption and abuse. We conduct these investigations either in response to a report from a City employee or other citizen or on the Inspector General's own initiative to detect misconduct, inefficiency and waste within the programs and operations of City government.

**Major Objectives**

The mission of the Office of the Inspector General (OIG) is to enhance the public confidence in the integrity of the City Government by rooting out corruption, fraud, misconduct, waste and mismanagement. The OIG is the watchdog for the taxpayers of the City. The OIG has jurisdiction to conduct investigations and audits over all departments, agencies, commissions and boards under the Mayor's jurisdiction, as well as in contracts with individuals or companies receiving City funds and doing business with the City. The OIG also provides investigative expertise to any agency or authority requesting assistance.

As an operationally independent office, shielded from governmental influence, the OIG conducts both criminal and administrative investigations. We work with the Internal Investigations Unit of the Philadelphia Police Department, federal and state law enforcement agencies, as well as federal, state and local inspectors general when conducting criminal investigations, and serious integrity related complaints of fraud, corruption and abuse. We conduct these investigations either in response to a report from a City employee or other citizen or on the Inspector General's own initiative to detect misconduct, inefficiency and waste within the programs and operations of City government.

**Major Objectives**

**Major Objectives FY16**

The Philadelphia History Museum, now in its third full year of public operation since undertaking a three-year building interior renovation, has established the following goals for Fiscal Year 2016:

1. Develop and install a major exhibition in the 1st floor main gallery about Philadelphia neighborhoods, integrating input from visitors and local stakeholders. Continue to change small gallery exhibitions several times throughout the year.
2. Identify and engage highly qualified replacements for the Curator and Registrar positions, along with additional staff support to grow and maintain a robust schedule of education programs, events, and activities for both school children and adult audiences.
3. Focus on working with the School District to develop curriculum-relevant history programming for every 4th-grader.
4. Explore strategic alliances with local historic and educational organizations to bolster educational programming, collection management, and administrative operations.

***Major Objectives***

The Procurement Department purchases, through a competitive bidding process, for the City's operating departments, boards, agencies and commissions, the services, supplies, equipment and goods required to provide municipal services and capital programs. This involves: (1) the formulation of optimum product standards; the consolidation of purchasing transactions for commonly used items and services; the accounting for the City's personal property and inventory; the proper disposal of surplus or unserviceable equipment; the inspection of supplies and equipment, and the bidding and award of all public works contracts for construction, concession and emergency demolition; (2) The compliance with Executive Order 02-05 to prohibit discrimination, on the basis of race, gender or disability status, in the award of City contracts; and (3) Advertising activity of all contracting activity and public notices.

The Procurement Department has automated its operations through ADPICS, a computerized purchasing system; SPEED, a bid development and tracking system; and by making bid documents available to vendors and the public for viewing and downloading on the Internet.

**Major Objectives**

The five-member independent Philadelphia Board of Ethics was established by ordinance, approved by the voters in May 2006, and installed on November 27, 2006. It currently has ten full-time staff members and expects to fill two additional positions during FY2015 & FY2016. The Board is charged with providing ethics training and advice for all City officers and employees on the public integrity laws, and with enforcing City campaign finance, financial disclosure, and conflict of interest laws. The Board provides advice, conducts training, investigates complaints, and conducts enforcement actions. Legislation enacted in June 2010 created the City's first Lobbying Law which requires lobbyists, principals, and lobbying firms to register annually and file quarterly expense reports. This new law requires the Board to provide an electronic filing system for lobbyists, principals, and lobbying firms, and to make lobbying information available to the public in a searchable format on the Board's website. The Board is responsible for implementation and enforcement of all the mandates of the new Lobbying Law and began receiving electronic registrations online in January 2014. Receipt of lobbying expense reports online began in April 2014. The Board will implement regular lobbying training in FY2015. In cooperation with the Records Department, the Board implements financial disclosure requirements applicable to City officials and employees.

<b>FISCAL 2016 OPERATING BUDGET</b>	

Department	No.	Division	No.
City Planning Commission	51	Planning Commission Operations	10

**Major Objectives**

City Planning Commission is mandated to produce a comprehensive plan for the City and has been working on this, Philadelphia2035 for the last several years, which has leveraged over half a million dollars in the last year. The Commission, through Philadelphia2035 provides for access to federal funds, particularly HUD grants (EPA brownfield award) and HUD designations (Promise Zones). HUD has recently focused their allocation of funding to place based initiatives and Philadelphia 2035 provides the framework to attract such funds.

Last year, there was approximately \$30 million invested through development in the City and in the next five to ten years, another \$5.2 billion is expected. City Planning Commission plays a vital role in ensuring that this volume of development moves forward smoothly, effectively and efficiently through administrative requirements. City Planning Commission has multiple responsibilities in the development process; including zoning permit revision, Civic Design Review, over the counter development services and environmental reviews. The Commission also provides technical information and policy guidance to City agencies, community groups, and private sector interests and is charter mandated to prepare the Capital Program and Budget.

The City Planning Commission is focused on an Integrated Planning and Zoning Process; aligning Philadelphia's new zoning code with the goals of Philadelphia2035, the city's Comprehensive Plan through its formalized public education and outreach arm, the Citizens Planning Institute. These three components — the plan, the code, and citizen engagement — make up the Integrated Planning and Zoning Process

One goal of the City Planning Commission is to undertake a remapping of the City to align the existing land-uses with the new zoning Code. This includes the review and preparation of recommendations, fact sheets, correspondence and testimony on legislation referred to the Planning Commission under the City Charter and giving testimony at City Council hearings on all zoning and property legislation.
