COUNCIL OF THE CITY OF PHILADELPHIA COMMITTEE OF THE WHOLE

Room 400, City Hall Philadelphia, Pennsylvania Tuesday, May 26, 2015 10:45 a.m.

PRESENT:

COUNCIL PRESIDENT DARRELL L. CLARKE
COUNCILWOMAN CINDY BASS
COUNCILWOMAN JANNIE BLACKWELL
COUNCILMAN W. WILSON GOODE, JR.
COUNCILMAN WILLIAM K. GREENLEE
COUNCILMAN BOBBY HENON
COUNCILMAN CURTIS JONES, JR.
COUNCILMAN ED NEILSON
COUNCILMAN DENNIS O'BRIEN
COUNCILMAN DAVID OH

COUNCILWOMAN BLONDELL REYNOLDS BROWN
COUNCILWOMAN MARIAN B. TASCO

BILLS 150162, 150163, 150164, 150165, 150166, 150167, and 150438 RESOLUTION 150179

_ _ _

		Page	2
1			
2	COUNCIL PRESIDENT CLARKE: Good		
3	morning. We're going to start now.		
4	Thank you.		
5	This is the public hearing of		
6	the Committee of the Whole regarding		
7	Bills No. 150162, 150163, 150164, 150165,		
8	150166, 150167, 150438, and Resolution		
9	No. 150179.		
10	Co-chairing the hearing today		
11	will be Councilwoman Blackwell, the Chair		
12	of the Education Committee.		
13	Ms. Lewis, please read the		
14	titles of the bills and resolution.		
15	MS. LEWIS: Bill No. 150162, an		
16	ordinance to adopt a Capital Program for		
17	the six Fiscal Years 2016 through 2021		
18	inclusive.		
19	Bill No. 150163, an ordinance		
20	to adopt a Fiscal 2016 Capital Budget.		
21	Bill No. 150164, an ordinance		
22	adopting the Operating Budget for Fiscal		
23	Year 2016.		
24	Bill No. 150165, amending		
25	Section 19-1801 of The Philadelphia Code,		

		Page 3
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	entitled "Authorization of Tax," to	
3	further authorize the Board of Education	
4	of the School District of Philadelphia to	
5	impose a tax on real estate within the	
6	City of Philadelphia, to provide for an	
7	increase in the tax, and making technical	
8	changes, all under certain terms and	
9	conditions.	
10	Bill No. 150166, amending	
11	Section 19-1806 of The Philadelphia Code,	
12	entitled "Authorization of Realty Use and	
13	Occupancy Tax," to further authorize the	
14	Board of Education of the School District	
15	of Philadelphia to impose a tax on the	
16	use or occupancy of real estate within	
17	the School District of Philadelphia,	
18	under certain terms and conditions.	
19	Bill No. 150167, amending	
20	Chapter 19-1500 of The Philadelphia Code,	
21	entitled "Wage and Net Profits Tax," by	
22	revising certain tax rates, under certain	
23	terms and conditions.	
24	Bill No. 150438, amending	
25	Section 19-1806 of The Philadelphia Code,	

	Page 4
5/26/15 - WHOLE - BILL 150162, etc.	
entitled "Authorization of Realty Use and	
Occupancy Tax," to further authorize the	
Board of Education of the School District	
of Philadelphia to impose a tax on the	
use or occupancy of real estate within	
the School District of Philadelphia and	
to set the rate for such tax, and making	
technical changes; all under certain	
terms and conditions.	
And Resolution No. 150179,	
providing for the approval by the Council	
of the City of Philadelphia of a Revised	
Five Year Financial Plan for the City of	
Philadelphia covering Fiscal Years 2016	
through 2020, and incorporating proposed	
changes with respect to Fiscal Year 2015,	
which is to be submitted by the Mayor to	
the Pennsylvania Intergovernmental	
Cooperation Authority (the "Authority")	
pursuant to the Intergovernmental	
Cooperation Agreement, authorized by an	
ordinance of this Council approved by the	
Mayor on January 3rd, 1992 (Bill No.	
1563-A), by and between the City and the	
	entitled "Authorization of Realty Use and Occupancy Tax," to further authorize the Board of Education of the School District of Philadelphia to impose a tax on the use or occupancy of real estate within the School District of Philadelphia and to set the rate for such tax, and making technical changes; all under certain terms and conditions. And Resolution No. 150179, providing for the approval by the Council of the City of Philadelphia of a Revised Five Year Financial Plan for the City of Philadelphia covering Fiscal Years 2016 through 2020, and incorporating proposed changes with respect to Fiscal Year 2015, which is to be submitted by the Mayor to the Pennsylvania Intergovernmental Cooperation Authority (the "Authority") pursuant to the Intergovernmental Cooperation Agreement, authorized by an ordinance of this Council approved by the Mayor on January 3rd, 1992 (Bill No.

		Page 5
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Authority.	
3	COUNCIL PRESIDENT CLARKE:	
4	Thank you, Ms. Lewis.	
5	Today we continue the public	
6	hearing of the Committee of the Whole to	
7	consider various bills read by the Clerk	
8	that constitute proposed operating and	
9	capital spending measures for Fiscal	
10	2016, a Capital Program, and a	
11	forward-looking Capital Plan for Fiscal	
12	2016 through Fiscal 2021.	
13	Today we will hear testimony	
14	from the Philadelphia School District.	
15	We'd ask you to please come forward.	
16	(Witnesses approached witness	
17	table.)	
18	COUNCIL PRESIDENT CLARKE: Good	
19	morning.	
20	(Good morning.)	
21	CHAIRWOMAN NEFF: Good morning,	
22	Council President Clarke and members of	
23	City Council. My name is Marjorie Neff	
24	and I'm Chair of the School Reform	
25	Commission of the School District of	

		Page 6
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Philadelphia. Thank you for the	
3	opportunity to testify before you this	
4	morning.	
5	I am joined today by my fellow	
6	Commissioners - Bill Green, Feather	
7	Houstoun, Farah Jimenez, and Sylvia	
8	Simms - and I'd like to take this	
9	opportunity to acknowledge them and thank	
10	them for their critical service to the	
11	students and families of Philadelphia.	
12	I'd also like to acknowledge	
13	the support from City Council to the	
14	School District over the past several	
15	years. Without your help, our current	
16	situation would certainly have been	
17	worse. Nevertheless, we find ourselves	
18	at a critical juncture, and action by the	
19	Philadelphia City Council is urgently	
20	needed.	
21	I'm honored to speak to you	
22	today in my new role as Chair of the SRC,	
23	and while this is a new position for me,	
24	the School District budget process is a	
25	familiar one. The School District of	

	Page 7
5/26/15 - WHOLE - BILL 150162, etc.	
Philadelphia has been my home for the	
past 38 years. I have served as a	
principal of two schools, taught in many	
of its classes, and raised my children in	
the Philadelphia school communities.	
I've experienced the budget process and	
budget cutbacks as a teacher, school	
leader, and parent. It is with this	
background of deep and varied experience	
that I sit before you today with new	
hope.	
Following the devastating cuts	
and incredible sacrifices of recent	
years, our schools are now finally	
positioned to move out of this dark time.	
Our fiscal house is in order. We will,	
for the first time in four years, end	
this fiscal year with a small surplus.	
Getting to this place has	
required not spending beyond our means	
and, as a result, making heartbreaking	
cuts needed to put our district back on	
solid financial ground. In addition,	
through Dr. Hite's leadership, we're	
	Philadelphia has been my home for the past 38 years. I have served as a principal of two schools, taught in many of its classes, and raised my children in the Philadelphia school communities. I've experienced the budget process and budget cutbacks as a teacher, school leader, and parent. It is with this background of deep and varied experience that I sit before you today with new hope. Following the devastating cuts and incredible sacrifices of recent years, our schools are now finally positioned to move out of this dark time. Our fiscal house is in order. We will, for the first time in four years, end this fiscal year with a small surplus. Getting to this place has required not spending beyond our means and, as a result, making heartbreaking cuts needed to put our district back on solid financial ground. In addition,

		Page 8
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	armed with Action Plan 3.0, a thorough	
3	and full plan to move us forward. New	
4	dollars will be spent boldly and	
5	purposefully.	
6	However, we cannot move forward	
7	without your help. The increased	
8	revenues we request today are urgently	
9	needed to provide our students with the	
10	means to pursue brighter futures.	
11	Additionally, the funding will open the	
12	door to higher education for many of our	
13	students. It will expand high-quality	
14	career and technical education programs,	
15	such as our soon-to-open Advanced	
16	Manufacturing Center at Ben Franklin High	
17	School, and enable more students to	
18	access language immersion programs like	
19	the one at Southwark Elementary School.	
20	It will broaden our supports for students	
21	who are struggling and expand alternative	
22	education through our new opportunity	
23	network.	
24	More funds would allow the	
25	District to increase our preschool	

Page 9 1 5/26/15 - WHOLE - BILL 150162, etc. 2. enrollment and provide more students with after-school enrichment activities. 3 can hire more school-based staff and 4 5 expand small group instruction, positive 6 school climate programs, and teacher professional development. We can provide needed supplies, teaching and learning 8 9 materials, and technology. school-by-school budget books provide a 10 11 thorough overview of school leadership 12 team priorities with additional City and State funding. 13 14 From firsthand experience, I 15 can tell you that the hard work and 16 sacrifices of our teachers, principals, 17 families, and students have held our schools together over these last few 18 years. We cannot and should not ask our 19 20 schools to give up anything more. To put 21 it simply, there is nothing left to cut. I trust that our collective 22 23 aspirations for the Philadelphia schools involve more than just merely treading 2.4 25 water. On behalf of our students,

		Page 10
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	teachers, and families, I join my fellow	
3	Commissioners and the District leadership	
4	team in asking you to help move	
5	Philadelphia public schools to a brighter	
6	future.	
7	Thank you.	
8	DR. HITE: Thank you, and good	
9	morning, Council President Clarke,	
10	members of City Council. I am William	
11	Hite, Superintendent and CEO of the	
12	School District of Philadelphia. Just	
13	for your information, we provided you	
14	with a deck that we shared individually	
15	with many of you, but that presentation	
16	is something that we will use as	
17	background information today. We don't	
18	intend to work through that presentation.	
19	I want to thank City Council as	
20	well, not only for the opportunity to	
21	provide testimony today but also for your	
22	continued willingness to champion	
23	Philadelphia students and schools. Over	
24	the past five years, City Council has	
25	supported more than 300 million in	

Page 11 1 5/26/15 - WHOLE - BILL 150162, etc. 2. additional revenue to Philadelphia public schools. That strong show of support 3 from Council has enabled us to stabilize 4 5 the school system and begin to rebuild. Thanks to Council's efforts, we 6 7 were able to open schools on time this year and, for the first time in the past 8 9 three years, avoid significant further cuts to programs and services. While we 10 11 still must do more to achieve our 12 overarching goal and, that is, to ensure that all children, present and future, 13 14 have great public schools close to where 15 they live, we've seen encouraging signs 16 of progress. Our schools are safer. 17 We've reduced suspensions. We have zero schools now on the state's persistently 18 dangerous list and expanded positive 19 climate initiatives. Student attendance 20 21 is up. Graduation rates are up. Dropout 22 rates are down. A citywide effort is 23 designed to help young students learn to 2.4 read. 25 We opened three new

Page 12 1 5/26/15 - WHOLE - BILL 150162, etc. 2. neighborhood-based innovative high schools this year and expect increased 3 enrollment at several high-performing 4 5 schools next year. We launched an online 6 school application process, which resulted in more students and families actively participating in the school 8 9 selection process. We aligned their curriculum to the rigorous PA Core 10 11 Standards, with more supports for better instruction. 12 13 We revamped our teacher and 14 principal hiring strategies to better 15 compete for the most talented staff. 16 We're also using staffing approaches that 17 allows us to best match educated talents with student and school needs. 18 19 More schools have engaged 20 parents, School Advisory Councils and 2.1 "friends of groups. A comprehensive 22 school progress report featured in your 23 budget books now includes not only all District-run schools but also 75 percent 2.4 25 of eligible charter schools, helping us

		Page	13
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	to better celebrate, learn from, and		
3	support our wide range of schools. There		
4	is momentum in the public schools.		
5	However, it will take a collective effort		
6	to build a system of great schools across		
7	Philadelphia.		
8	Currently, academic		
9	performance, still far too low. Outcomes		
10	are not close to equitable, and most		
11	schools, particularly those in the		
12	neighborhoods most challenged by poverty,		
13	lack anywhere near adequate staffing and		
14	resources. Our first year required		
15	stabilizing the precarious system. Our		
16	second year focused on setting ambitious		
17	student learning goals and aligning		
18	resources accordingly. Our third year		
19	and beyond seeks to ensure that every		
20	child benefits equally from those		
21	resources.		
22	We have a new statement of		
23	goals and values, our strategic plan,		
24	Action Plan 3.0, that details our		
25	approach. Our requested investments from		

Page 14 1 5/26/15 - WHOLE - BILL 150162, etc. 2. the State, 159.4 million, and from the City, 105.2 million, are essential to 3 this work. I may also add that 4 5 irrespective of where the money comes 6 from, the first \$85 million from any of the sources fills a revenue -- will fill a revenue shortfall. 8 9 I've spoken to almost all of you individually about this year's 10 11 approach to planning for the requested investments. Rather than dictate to 12 schools how these resources should be 13 14 used, we asked school leaders and their 15 teams to tell us how they could best use 16 the resources to meet student needs. 17 school-by-school budget books include information on each school's plan for 18 those resources. 19 20 While each plan is unique, 21 common themes include increasing access 22 to advanced placement classes and credit 23 recovery opportunities; staff and support 2.4 so teachers can do small group and individualized instruction; enhanced 25

Page 15 1 5/26/15 - WHOLE - BILL 150162, etc. 2. school climate programs; counseling and social support for students; additional 3 resources to serve English language 4 5 learners and special education students; 6 and technology, books, and supplies to 7 support teaching and learning. These resources also would 8 9 enable us to make a significant investment in expanding alternative 10 11 education opportunities, a significant focus in our Action Plan. 12 I could go on and on about 13 14 these investments and how -- I could go on and on about how these investments 15 16 will help our students reach their full 17 potential, but rather than hear from me, I'd like to introduce the work of two 18 terrific students who share in their 19 20 words why fully funding public education 21 matters and why it's important. students won the school video and essay 22 23 categories in the Mayor's Students Speak! contest just a few weeks ago. First we 2.4 25 will have the winning video from a

_	E /06 /1E	Page 16
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Central High School sophomore, Xue Yao	
3	Zou. He goes by Brian. Brian was unable	
4	to make it here today because he is in	
5	class.	
6	Second we'll hear from Sarah	
7	Santiago, a 10th grade student from	
8	Esperanza Academy Charter School, who won	
9	the high school essay contest.	
10	Afterwards, we will be happy to answer	
11	and entertain questions from all	
12	Councilmembers. As always, we appreciate	
13	your support of the School District of	
14	Philadelphia, our students, staff, and	
15	their families.	
16	Thank you. Now we'll hear from	
17	Brian Zou.	
18	(Video played.)	
19	(Applause.)	
20	(Witness approached witness	
21	table.)	
22	MS. SANTIAGO: Hi. My name is	
23	Sarah. I'm a 10th grader at Esperanza	
24	Academy. I'm going to read my essay now.	
25	Fully fund my education because	
	- 3.227 - 3.222, Caacacter Secase	

Page 17 1 5/26/15 - WHOLE - BILL 150162, etc. 2. it is my right to have one. I have the 3 right to knowledge and I have the right to learn about the world and what is 4 5 happening in it. I have the right to 6 know of all the hate and misery that is 7 in our world, but I also have the right to gain the tools that I need to change 8 9 that. Fully fund my education because 10 11 I am a young Latina and we live in a 12 world where the odds are always against the favor of myself and those just like 13 14 me. 15 Fully fund my education because 16 I want to be a leader, and I want to be a leader without having to be looked down 17 upon because I am a female and a Latina. 18 I feel and see the problems that are 19 20 happening in my community firsthand and I 21 know how to go about fixing them. Fully fund my education because 22 23 I deserve to have a voice, especially when young girls like me seldom have one 2.4 25 in today's society. I have bright eyes

		Page	18
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	and a big mind, and my opinions and		
3	thoughts do matter.		
4	Fully fund my education because		
5	I come from a background of adversity.		
6	My father passed away when I was six		
7	years old, and my single mother has		
8	struggled for a long time to support me		
9	and my brother. No matter what I went		
10	through, my mother always told me that		
11	education was the key to success. I make		
12	sure to study hard every day, and I make		
13	sure that I don't come home to my		
14	hard-working mother with anything other		
15	than a great grade.		
16	Fully fund my education because		
17	I go to a school in a city where violence		
18	is on every block. My classmates and I		
19	risk our lives every day to come to		
20	school on public transportation, but we		
21	still get up in the morning because we		
22	want an education.		
23	Fully fund my education because		
24	I am strong, determined, and persevering.		
25	I know what it's like to be a shy,		

		Page 19
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	insecure girl, but when I want something,	
3	I go and get it.	
4	Fully fund my education because	
5	I am a dreamer and I have only dreamt	
6	when I was in class learning. I want to	
7	see the world and everything it has to	
8	offer, and I can only do that with an	
9	education.	
10	Fully fund my education because	
11	I am not the only one who deserves it and	
12	because I am not the only one who knows	
13	that.	
14	Fully fund my education because	
15	students, especially those who are	
16	dedicated and intelligent but come from	
17	underprivileged backgrounds, deserve an	
18	education.	
19	Fully fund my education because	
20	having an education means having a voice,	
21	and when we have the money to get an	
22	education so that we can become lawyers,	
23	doctors, journalists and teachers, we	
24	will look back to those who gave us that	
25	education and we will forever be grateful	

		Page 20
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	to those who gave us a voice.	
3	(Applause.)	
4	DR. HITE: Thank you to Brian	
5	Zou and to Sarah Santiago, who both	
6	provided excerpts from their winning	
7	video and essays, respectively, in the	
8	Students Speak! contest here recently.	
9	So with that, Mr. Council	
10	President, we will be glad to entertain	
11	and respond to questions of	
12	Councilmembers.	
13	COUNCIL PRESIDENT CLARKE:	
14	Thank you. Thank you, Dr. Hite,	
15	Ms. Neff.	
16	A couple of quick questions and	
17	then I'll turn it over to the Co-Chair.	
18	Dr. Hite, I just want to make	
19	sure my memory is still as sharp as it	
20	used to be. Probably not. The original	
21	request from the School District for the,	
22	as we've referred to around here, the	
23	Cadillac plan, wasn't it \$300 million	
24	total?	
25	DR. HITE: Yes. In the Five	

		Page 21
1	5/26/15 - WHOLE - BILL 150162, etc.	_
2	Year Plan, that's correct.	
3	COUNCIL PRESIDENT CLARKE:	
4	Three hundred million.	
5	DR. HITE: Yes.	
6	COUNCIL PRESIDENT CLARKE: And	
7	this number, the 159, I thought it was	
8	like a one-third/two-third - State	
9	two-thirds, City one-third - which has	
10	been consistent across the last four,	
11	five years, although the City always came	
12	up with its one-third plus. The State	
13	never came up with anything.	
14	DR. HITE: Yes, sir. You're	
15	right. Your memory is serving you	
16	correctly. The original request was 200	
17	and 100. So it's 200 from the State and	
18	100 from the City.	
19	COUNCIL PRESIDENT CLARKE:	
20	Right. So this 159 number, where did	
21	that come from?	
22	DR. HITE: This was the number	
23	that was included in the Governor's	
24	budget.	
25	COUNCIL PRESIDENT CLARKE: So	

		Page	22
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	basically the state says this is what I'm		
3	giving you and you said okay?		
4	DR. HITE: Well, we were using		
5	that number because that's what's		
6	included in his budget, and so that's the		
7	number. Naturally we requested 200, but		
8	because he has 154 in his budget, that's		
9	the number that we are using as a part of		
10	our revenue ask.		
11	COUNCIL PRESIDENT CLARKE: So		
12	if we had put 75, that's the number you		
13	would have used for the City?		
14	DR. HITE: If he had 75		
15	COUNCIL PRESIDENT CLARKE: No.		
16	I'm saying you're using 159 because the		
17	Governor says that's my number. So if		
18	the City says, Well, our number is 75, is		
19	that the number you would have used in		
20	your plan?		
21	DR. HITE: Well, we would have		
22	to take we'd be grateful for any		
23	additional revenue, but the need,		
24	President Clarke, was for the 300.		
25	Because that was included in his budget		
1			

Page 23 1 5/26/15 - WHOLE - BILL 150162, etc. 2. address, that now became a more certain number, so that's why we included that 3 amount. And in addition, we included the 4 amount from the City as well. All or 5 6 some of that would also be grateful, but because we don't know what the number is 7 from the City's budget yet --8 9 COUNCIL PRESIDENT CLARKE: You don't know what the number is going to be 10 11 from the State's budget either. 12 DR. HITE: We do not, no. 13 COUNCIL PRESIDENT CLARKE: All14 right. I'm just trying to -- I mean, 15 Doc, and we all love kids. Some of us 16 have kids. I mean, kids are going in the 17 public school system. A lot of us went to the public school system. And every 18 19 year the City steps to the plate; the 20 State doesn't. That's not your fault. 21 We now have a new Governor and kind of a 22 new sense in terms of acknowledging that 23 there needs to be money on the State's 2.4 behalf to come to the Philadelphia School 25 District and all school districts across

		Page	24
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	the State. So I do believe that there		
3	will be more money forthcoming, but this		
4	split continues to trouble me. I mean,		
5	it's like now there's no longer a		
6	one-third/two-thirds split, after we have		
7	over the years come up with our one-third		
8	plus and the State hasn't done anything,		
9	and the simple reality is that you can		
10	come in here, you can't go to the State		
11	and sit on the floor, you can't bring		
12	children in, you can't have films. I		
13	mean, they just don't allow you to do		
14	that up there, and you go to where you		
15	think the path of least resistance is,		
16	and understanding that we need more money		
17	for schools. It's just a little		
18	troubling the way you all approach		
19	things.		
20	DR. HITE: But we do go to the		
21	State, Mr. Council President. I mean		
22	COUNCIL PRESIDENT CLARKE:		
23	Where do you go?		
24	DR. HITE: we've been up		
25	there together advocating for additional		

		Page 25
1	5/26/15 - WHOLE - BILL 150162, etc.	rage 23
2	resources. And I will add this	
3	COUNCIL PRESIDENT CLARKE: I've	
4	seen you in the hallways.	
5	DR. HITE: We're all	
6	advocating.	
7	COUNCIL PRESIDENT CLARKE: You	
8	don't have the same environment up there.	
9	DR. HITE: But in addition, as	
10	you will recall, over the past three	
11	years, this is the first time at least in	
12	my time here that there's been any	
13	additional money from the State. And so	
14	the fact that it was 154 of the 200	
15	million requested, it's why we're	
16	including the 154, because we know what	
17	that number is.	
18	But this is the first time at	
19	least in my time since my time here in	
20	Philadelphia that there's been any	
21	additional monies that have been coming	
22	from the State. As you've indicated,	
23	most of it was through a mechanism where	
24	the City was given the authority to use	
25	different revenues for the School	
2.5	arrecting revenues for the School	

		Page	26
1	5/26/15 - WHOLE - BILL 150162, etc.	2	-
2	District.		
3	COUNCIL PRESIDENT CLARKE:		
4	Yeah. I'm just wondering why we're not		
5	still at the two-thirds/one-third. If		
6	anything, it should be more weighted		
7	towards State contributions. But it is		
8	what it is.		
9	So to be consistent with the		
10	theme about I have the right to know or I		
11	have the right to be educated, and I		
12	agree with that young lady. So we sent		
13	you a letter on May 20th and I know it		
14	was relatively short timing asking you		
15	to talk about that money that the City		
16	has put forth over the last several		
17	years. I think we asked for like 327		
18	million.		
19	DR. HITE: Right.		
20	COUNCIL PRESIDENT CLARKE: And		
21	if you tell me that your ability to		
22	respond in a very detailed way was		
23	limited because of the timeframe, I can		
24	understand that, but the response we got		
25	back from you, it was like basically		
1			

		Page	27
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	nothing. I mean, in the letter and		
3	I'll read this real quick, not getting		
4	into the pleasantries of the first part		
5	of the letter. "In anticipation of your		
6	budget presentation, City Council is		
7	requesting in writing an itemized		
8	breakdown of how the additional funding		
9	was spent. The information that you		
10	provide should be broken down by year and		
11	spending classification. Within each		
12	spending classification, please note		
13	instruction and non-instruction		
14	spending."		
15	That's pretty detailed. And we		
16	get back a response, it says increased		
17	class size. One through 3 would have		
18	increased from 30 to 37; 4 through 8		
19	would have increased from 33 students		
20	do you think that that's like itemized in		
21	detail, particularly as it relates to the		
22	money? And the list goes on, very		
23	similar responses, just broad		
24	DR. HITE: I think it was		
25	informational, Mr. Council President, and		

		Page	28
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	it is factual that the additional 321		
3	million \$327 million that we've		
4	received over the past several years, it		
5	kept us from having to do or cut more		
6	things like the things that were		
7	described in that letter. And so it		
8	is it goes into a fund. That fund		
9	contains all of the revenue that we		
10	receive, but that fund essentially pays		
11	for all of our fixed expenses, and		
12	without the 327, we would have been,		
13	unfortunately, having to do some of the		
14	things that are detailed in the letter,		
15	like increasing class sizes and		
16	eliminating more services that children		
17	have or not returning certain services.		
18	COUNCIL PRESIDENT CLARKE: But		
19	how much money was spent? I mean, this		
20	is a budget hearing. This is about the		
21	money.		
22	DR. HITE: Sure.		
23	COUNCIL PRESIDENT CLARKE: You		
24	don't have a single dollar figure in your		
25	response. I need to know where that		

		Page 29
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	money I mean, outside of this room,	
3	there are a lot of people that want to	
4	know where does the money go when it goes	
5	to 400 North Broad. We authorize taxes	
6	every year and it goes up to 400 and	
7	that's pretty much it. We don't have the	
8	ability to audit. We don't have the	
9	ability to bring you in as we do other	
10	departments and ask in very detailed	
11	terms about where the money is. So I'm	
12	just asking how much money was spent.	
13	Because now my understanding is that this	
14	newest request goes directly into the	
15	classroom, is the way you referenced it.	
16	DR. HITE: That's correct.	
17	COUNCIL PRESIDENT CLARKE: So	
18	this response suggested all of that other	
19	money went directly into the classroom.	
20	Is that the case?	
21	MR. STANSKI: So Matt Stanski,	
22	Chief Financial Officer, School District	
23	of Philadelphia.	
24	So in Fiscal Year '11, Council	
25	President, the District spent in its	

		Page	30
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	operating budget \$2.45 billion. We're		
3	projected at the end of this fiscal year		
4	to spend 2.59. So increase about \$150,		
5	\$160 million.		
6	Over that timeframe, we have		
7	seen our fixed and mandated costs		
8	increase exponentially. Our charter		
9	payments went up \$300 million. Our		
10	pension costs went up \$75, \$80 million.		
11	Healthcare costs continue to go up.		
12	So in response to your		
13	question, at that same time while Council		
14	is extremely generous in getting us the		
15	327 million, we also lost revenue from		
16	the State, about \$250 to \$300 million.		
17	So the answer we gave you was in		
18	truth, that money was used to just		
19	sustain our current levels of services		
20	that we provide students.		
21	We have tried to be more		
22	transparent over the last couple years.		
23	Every vendor payment, every charter		
24	school payment is up on our website in		
25	Open Data. You can search by vendor,		
1			

		Page 31
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	search by charter school. We have this	
3	new budget document that outlines school	
4	by school where resources are going. And	
5	so obviously hearing that there's the	
6	concern around transparency, but we	
7	believe that we're trying to be more	
8	transparent.	
9	And in response to your	
10	question, that money was simply there to	
11	help us sustain what we're currently	
12	operating at. And even with that massive	
13	increase in funding, as you are well	
14	aware, we've had to make severe cutbacks	
15	because of the growing fixed costs that	
16	the District sees and the lack of revenue	
17	we really received on the State side over	
18	the last four years.	
19	COUNCIL PRESIDENT CLARKE: So	
20	why wouldn't you give me that response in	
21	writing, that the fixed costs associated	
22	with the operation	
23	MR. STANSKI: I think it's in a	
24	bullet in the response, that mandated	
25	costs are continuing to go up in the	

		Page 3	32
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	District, but if that wasn't spelled out		
3	clearly, we should have more.		
4	COUNCIL PRESIDENT CLARKE: It's		
5	not. All right. So I'm going to		
6	resubmit the letter. If you can just		
7	give us a more detailed response, it will		
8	be helpful, because I really need to know		
9	how this money is spent in very direct		
10	terms. I understand mandating costs. We		
11	actually have a similar challenge in the		
12	City of Philadelphia, but we're required		
13	to have a balanced budget every year, so		
14	our ability to kind of roll these		
15	challenges over to the next fiscal year		
16	doesn't work.		
17	All right. I'll come back,		
18	because we have everyone teed up.		
19	The Chair recognizes		
20	Councilwoman Blackwell.		
21	COUNCILWOMAN BLACKWELL: Thank		
22	you, Mr. President, and thank you for		
23	those questions, because we're sure		
24	getting it from the outside. The public		
25	and the press are saying that we have		
ı			

		Page 33
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	less children and more expenses, what's	
3	the deal. So those are very, very	
4	legitimate questions.	
5	Good morning again. Thank you	
6	for your testimony. Certainly, Ms. Neff,	
7	you mentioned programs with regard to Ben	
8	Franklin High School and Southwark	
9	Elementary School. Can you give us more	
10	detail as to what they are and who will	
11	be included and how people apply for	
12	that.	
13	CHAIRWOMAN NEFF: Well, I can	
14	give you an overview. I'd certainly	
15	defer to the Superintendent to give you	
16	detail, but the language immersion	
17	program, which I'm familiar with, is an	
18	opportunity for children at an earlier	
19	age to begin to learn a language, and I	
20	believe at Southwark it's Spanish.	
21	DR. HITE: It is Spanish,	
22	that's correct.	
23	CHAIRWOMAN NEFF: So they are	
24	learning their content material in	
25	Spanish and having their teachers	
l		

		Page	34
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	instruct them in Spanish.		
3	The		
4	COUNCILWOMAN BLACKWELL: Does		
5	that mean it will be for that school only		
6	and those students only?		
7	DR. HITE: That is correct.		
8	That is correct, Councilwoman Blackwell.		
9	It is for the children who live in the		
10	Southwark community, and it was a request		
11	from the principal to begin that program		
12	there, and we supported that request.		
13	CHAIRWOMAN NEFF: And the		
14	program at Ben Franklin was originally		
15	started with a very generous grant and is		
16	focused on moving our children in the CTE		
17	programs, the career and technical		
18	education programs, into learning and		
19	experiencing those skills that will		
20	prepare them for careers that are		
21	presently available in our city.		
22	DR. HITE: And unlike the		
23	Southwark program, any child that's		
24	interested in the advanced manufacturing		
25	can make application to that program.		
1			

		Page 35
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	And so as indicated earlier, that is	
3	going to be at Ben Frank starting in the	
4	fall. We think that it will also provide	
5	a natural pathway to the Community	
6	College that is also offering an advanced	
7	manufacturing program as well. So we	
8	thought that with all of the	
9	manufacturing particularly in the region,	
10	it was important for our children to have	
11	access to that type of CTE programming.	
12	COUNCILWOMAN BLACKWELL: I	
13	think that both sound wonderful, but	
14	certainly you're going to have so many	
15	people applying for them. And so is this	
16	like a pilot or will people even those	
17	who are from other places may be	
18	interested in the Southwark model. Are	
19	you trying those in these schools	
20	narrowly as a pilot that we expect to	
21	expand so that other students citywide	
22	may be able to enjoy them?	
23	DR. HITE: Yeah. I mean, yes.	
24	The answer to the question is yes. We	
25	would love to expand these types of	
1		

Page 36 1 5/26/15 - WHOLE - BILL 150162, etc. 2. programs across all of the schools, but in addition, the principal at Southwark 3 was able to use his current allotment in 4 order to provide this immersion program, 5 6 particularly for the kindergartners who 7 are in the program. So he found a way to do that in his schedule. We would love 8 9 to add language, particularly the world languages, in all of our elementary 10 11 schools. Resources don't provide us the 12 ability to do that yet. And in addition, 13 the advanced manufacturing at Ben 14 Franklin, that was started by a generous 15 grant several years ago, and that program 16 is not a pilot. It is a standing program 17 that will operate here in the City, and we think that it will be attractive and 18 it could influence how we think about 19 20 other programs as we move forward. 21 that was one that was recommended and 22 recommended through a lot of the work 23 that we're doing in our CTE program with 2.4 the manufacturing community and in 25 addition with the Chamber and with the

		Page 37
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	College and Career Council. All of those	
3	entities recommended that we do some sort	
4	of manufacturing type program, hence the	
5	advanced manufacturing at Ben Franklin.	
6	COUNCILWOMAN BLACKWELL: Yes.	
7	I know. We've been talking about it a	
8	lot in Council over the years. So it's	
9	important and it's something that when we	
10	talk about not all children being college	
11	oriented and Community College has been	
12	involved, so that's a big deal to us.	
13	And certainly, as you know, we have the	
14	Echoes of Africa, the Mayor's Commission	
15	on African and Caribbean Immigrant	
16	Affairs, and we have so many the	
17	majority of our people are those who do	
18	not have English as their first language.	
19	So we are a resource that certainly can	
20	be used for many ways, even	
21	extracurricular, even to begin programs,	
22	and we really, really want to be involved	
23	in programs that deal with English as not	
24	their first language and English for	
25	those who speak another language and from	

		Page 38
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	another place. We hope that you'll use	
3	us for that.	
4	Let me ask one question. You	
5	know we introduced a resolution talking	
6	about this whole issue of cursive	
7	writing. It's kind of been big around	
8	the country, and we certainly are hopeful	
9	that the School District may not make it	
10	optional but may make it a requirement	
11	for our students. Do you know where we	
12	are on that issue?	
13	(Witness approached witness	
14	table.)	
15	DR. HITE: I'll ask Dr. Donyall	
16	Dickey, as he's the Chief Academic	
17	Officer, to come up and talk a little bit	
18	about that.	
19	COUNCILWOMAN BLACKWELL: Thank	
20	you.	
21	DR. DICKEY: Good morning.	
22	COUNCILWOMAN BLACKWELL: Good	
23	morning.	
24	DR. DICKEY: Councilwoman, as a	
25	former 3rd grade teacher and a high	

Page 39 1 5/26/15 - WHOLE - BILL 150162, etc. 2. school English teacher of literature, I agree with you that a student's ability 3 to write in cursive is a skill that has 4 5 its place in public education. It is 6 strategically integrated into our early 7 grades' experience as opposed to being 8 taught as a stand-alone course currently 9 in the District. COUNCILWOMAN BLACKWELL: 10 11 does not -- making it optional I think is 12 something that we don't agree with. think that most of my colleagues would 13 14 agree. I mean, there's this joke going 15 on that a teacher passes a note to a 16 child talking about him to hand to 17 somebody behind him. That doesn't matter because the child doesn't even know his 18 name when it's written cursively. 19 20 mean, I don't understand why we can't 21 make it part of the curriculum as it once 22 was. 23 DR. DICKEY: Yes, ma'am. 2.4 wouldn't describe cursive writing in our 25 curriculum as optional. Rather I would

		Page 40
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	describe it as integrated into the early	
3	grades' experience. So it's important	
4	that a student be able to read cursive	
5	writing by the time they leave elementary	
6	grades. For one reason in particular is	
7	a significant number of primary source	
8	documents, like, for example, the U.S.	
9	Constitution, is written in cursive. And	
10	so kids won't be able to access certain	
11	documents if they don't have the ability	
12	to read in cursive.	
13	So I agree with you. We agree	
14	with you wholeheartedly that students	
15	should have that in their early grades'	
16	experience.	
17	COUNCILWOMAN BLACKWELL: Well,	
18	having it and making it mandatory are two	
19	different things. Will it be mandatory?	
20	That's what we're talking about. By the	
21	end of 3rd grade, every child should know	
22	to write cursively.	
23	DR. DICKEY: We're certainly	
24	open to having a discussion. I'm	
25	certainly open to having a discussion	

		Page 41
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	with the folks in Curriculum,	
3	Instruction, and Assessment in the	
4	District about how we might strengthen	
5	our students' exposure to cursive writing	
6	in the early grades.	
7	COUNCILWOMAN BLACKWELL: Well,	
8	let me say that's not acceptable. It	
9	isn't to me. And I believe that if you	
10	polled my colleagues, they would agree	
11	having a discussion just isn't good	
12	enough, and we would expect that by the	
13	time we finish our budget deliberations,	
14	that we may have a specific answer, an	
15	affirmative answer to this issue.	
16	Thank you, Mr. President.	
17	COUNCIL PRESIDENT CLARKE:	
18	Thank you, Councilwoman.	
19	One quick followup. With	
20	respect I'm sorry. You want a point	
21	of order?	
22	COUNCILWOMAN TASCO: Point of	
23	order.	
24	COUNCIL PRESIDENT CLARKE:	
25	Councilwoman Tasco has a	

		Page 42
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILWOMAN TASCO: Thank you	
3	very much, Mr. President.	
4	On Councilwoman Blackwell's	
5	comment, I was very, very pained when I	
6	watched the Trayvon Martin trial and the	
7	young woman was a witness and she	
8	couldn't read what they asked her. They	
9	gave her some materials to read. She	
10	said, I can't read cursive. It was very	
11	painful to me. I mean, those of us who	
12	went to school years ago had cursive	
13	writing.	
14	And so I think the point you	
15	made about some of our documents being in	
16	cursive writing is very important,	
17	because I thought my head went to this	
18	lady, there was something wrong. I was	
19	not aware that they did not teach cursive	
20	writing in schools, and nobody explained	
21	it. So she left that witness stand with	
22	people thinking and believing that she	
23	was not very intelligent.	
24	So thinking about the overall	
25	society we live in, I do think cursive	

Page 43 1 5/26/15 - WHOLE - BILL 150162, etc. 2. writing is very, very important for our children because -- I don't know who came 3 up with the idea that we shouldn't have 4 5 cursive writing. Did somebody get a 6 light bulb in their head to say we shouldn't teach cursive writing? 7 DR. DICKEY: There has been a 8 9 move in public education away from teaching cursive writing, simply because 10 11 most of what students have to write 12 beyond the early grades, they do so using a digital platform. So they do so using 13 14 a keyboard. They write it online. 15 type papers. And so there's been a move 16 away from it. That doesn't necessarily 17 mean that that move away from cursive 18 writing has been timely. 19 And so I agree with you, 20 Councilwoman, that it's important that 21 students are exposed to cursive writing in the early grades for obvious reasons. 22 23 Many of our teachers teach cursive writing in the early grades and it's 2.4 25 just -- I think it may be important for

		Page 44
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	us as a district to go back and take a	
3	look at the focus on cursive writing in	
4	the early grades. But when you use the	
5	word "mandate," it sends a message to	
6	people that it's a top-down approach to	
7	instruction and to what happens in the	
8	classroom. Our teachers value I'm	
9	sure they value cursive writing, and it's	
10	just going to take us a little bit of	
11	time to go into our curriculum, look at	
12	it again, see where we can strengthen the	
13	students' exposure to cursive writing.	
14	COUNCILWOMAN TASCO: Thank you	
15	very much.	
16	COUNCIL PRESIDENT CLARKE:	
17	Thank you, Councilwoman.	
18	Real quick followup. On the	
19	manufacturing course and dual enrollment,	
20	all those courses that you do in	
21	conjunction with other institutions, does	
22	that money flow through the School	
23	District? Does it flow through the	
24	School District or does it go to the	
25	institution?	

		Page 45
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	DR. HITE: It does. It comes	
3	through the School District, and in those	
4	cases with dual enrollment, then we pay	
5	the institution.	
6	COUNCIL PRESIDENT CLARKE: Why	
7	wouldn't the City just pay the	
8	institution directly?	
9	DR. HITE: I don't	
10	COUNCIL PRESIDENT CLARKE: Is	
11	that something that you	
12	DR. HITE: It just comes out of	
13	our we used it out of our operating	
14	budget and then there are agreements that	
15	we have with the universities.	
16	COUNCIL PRESIDENT CLARKE: I	
17	understand, but we have as an example,	
18	the dual enrollment. We have a contract	
19	with Community College and we fund them	
20	similar to this process, although we have	
21	the ability to be a little more engaged	
22	because we do have people on the Board.	
23	Would you be adverse to us funding	
24	Community College to provide that service	
25	to the School District and fund them	

		Page 46
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	directly as opposed to sending the money	
3	to 400 North Broad?	
4	DR. HITE: No. That money is	
5	our operating money	
6	COUNCIL PRESIDENT CLARKE: I	
7	understand that.	
8	DR. HITE: Mr. President.	
9	And so I'd be for additional money to the	
10	Community College to support	
11	COUNCIL PRESIDENT CLARKE:	
12	You're always for additional money.	
13	DR. HITE: Right.	
14	COUNCIL PRESIDENT CLARKE: Why	
15	do we give the money to you for a service	
16	that they're providing when we can just	
17	give the money to CCP and provide that	
18	service to you?	
19	DR. HITE: Well, as long as it	
20	indicates the number of it indicates	
21	number of children that we're serving.	
22	In addition to that, the budgets control	
23	for us how many children we can have that	
24	go through that program and it supports	
25	the instruction on their side, but in	
I		

		Page 47
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	addition, it also supports instruction or	
3	support on our side for those young	
4	people who are in dual enrollment	
5	classes. Some of those are in schools.	
6	Some of those are at the Community	
7	College. So it all depends. I mean, and	
8	the Chairwoman had, I'm sure, some dual	
9	enrollment classes at Masterman.	
10	But was that through your FTE	
11	or your operating budget or was that	
12	through the Community College's?	
13	CHAIRWOMAN NEFF: When	
14	Masterman had dual enrollment, it was	
15	through a federal grant through the	
16	School District that it was funded.	
17	I guess one other point that I	
18	would make in terms of making sure that	
19	students make the best use of resources	
20	is knowing that that was money that	
21	was and once the federal grant ended,	
22	then we did fund it out of our own	
23	operating budget and asked parents to	
24	match. There's a greater accountability	
25	for both students and the schools in	

		Page 48
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	I'm not saying greater than what you	
3	have, but	
4	COUNCIL PRESIDENT CLARKE:	
5	Greater than CCP?	
6	CHAIRWOMAN NEFF: Well, in	
7	terms of making sure that students do	
8	what they're supposed to do on their end.	
9	When the school is paying for a student	
10	to taking money out of their operating	
11	budget to support a child at CCP, then	
12	there's for me a more natural investment	
13	on the part of the school to make sure	
14	that the child attends classes and	
15	performs well and makes good use of that	
16	service. That would be something that at	
17	a school level I always paid very close	
18	attention to, who was in there and	
19	knowing that we were supporting a class	
20	at CCP, it was important.	
21	The other thing it allowed us	
22	to do also as well is to have a	
23	relationship with Community College	
24	around where the class happened, when it	
25	happened. And they were wonderful, I	
i		

		Page '	49
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	have to say. Primarily we did dual		
3	enrollment with Community College of		
4	Philadelphia.		
5	COUNCIL PRESIDENT CLARKE: So		
6	you want all the money all the time		
7	basically?		
8	CHAIRWOMAN NEFF: Well, I just		
9	want to make sure that the money is well		
10	spent.		
11	COUNCIL PRESIDENT CLARKE:		
12	Well, so do we, and I'm not necessarily		
13	sure that that's been the case over the		
14	last several years. I'm just being		
15	honest.		
16	CHAIRWOMAN NEFF: And I hear		
17	what you're saying.		
18	DR. HITE: I think		
19	COUNCIL PRESIDENT CLARKE: If		
20	we had no ability this whole SRC		
21	makeup and state takeover and all of		
22	this, I mean, we have such limitations as		
23	it relates to finding out what's going		
24	on. I mean, maybe the other people are		
25	comfortable with the way it's been, but		

		Page 50
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	I'm personally	
3	CHAIRWOMAN NEFF: And I don't	
4	disagree with you. I don't disagree with	
5	you on that point.	
6	COUNCIL PRESIDENT CLARKE: All	
7	right. I'm sorry. I'm monopolizing the	
8	time.	
9	DR. HITE: Mr. Council	
10	President, can I add one more statement	
11	to this point, and I think the point is	
12	important in terms of making sure the	
13	money is spent for its intended purpose.	
14	The point I'm making is, there's not	
15	enough money. And I want to use a couple	
16	of examples. So we talked about	
17	COUNCIL PRESIDENT CLARKE: But,	
18	Doctor, there's not enough money here	
19	either. There's things we want to do	
20	that we can't do because we don't have	
21	enough money. Nobody has enough money.	
22	DR. HITE: I understand, but	
23	the whole notion of this like who gets	
24	the money, what we're trying to do is I'm	
25	trying to support children who have that	
1		

51

		Page 52
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	is who can better provide that service in	
3	a more transparent way. It's simple.	
4	I'm sorry. I'm sorry. We'll	
5	get to you guys in a minute. I know.	
6	I'm getting some angry stares. I'm	
7	sorry.	
8	COUNCILWOMAN BLACKWELL:	
9	Someone just asked me about the CTE	
10	program in Dobbins, where the school is	
11	half full. Where are we on that issue?	
12	DR. HITE: I'll have I think	
13	I'll have Mr. Kipphut come up and talk	
14	about that. David Kipphut runs the CTE	
15	program. We have, as you know, a lot of	
16	programs that are sitting in Dobbins now.	
17	The school is scheduled for renovation,	
18	so we also have that happening, but	
19	Mr. Kipphut can provide us with specific	
20	information about Dobbins.	
21	COUNCILWOMAN BLACKWELL: Thank	
22	you.	
23	(Witness approached witness	
24	table.)	
25	MR. KIPPHUT: Good morning.	

Page 53 1 5/26/15 - WHOLE - BILL 150162, etc. 2. David Kipphut, Deputy Chief for Career and Technical Education for the School 3 District. 4 5 So the question about Dobbins, 6 the school was re-enrolled through a lot 7 of work by the school. They actually have increased the incoming enrollment 8 9 into the school. One of the things we have to keep in mind with Dobbins is that 10 11 with the number of programs in the school 12 and with the renovation that's planned, which comes in around \$35, \$38 million, I 13 14 believe, we're going to have to close about a third of the school down. 15 16 three-year renovation. So as we close a 17 third of the building down, we have to be able to move students around. 18 So once the renovation is done, then we'll be 19 able to move the total enrollment of the 20 21 school to a much larger amount, and we're 22 really targeting about 1,000 students. 23 Right now I believe the enrollment is around 600 students. But we are 2.4 25 increasing and making sure the school is

Page 54 1 5/26/15 - WHOLE - BILL 150162, etc. 2. fully enrollable, the programs are fully enrolled at this point with our incoming 3 9th grade in September, but also keeping 4 5 in mind we have to be able to keep the size down as we do these movements to 6 classes as we renovate a third of the 8 school over the next three years. 9 DR. HITE: I want to also add, Councilwoman, that for the first time now 10 11 because we have the enrollment system 12 that is electronic, we know where children are enrolling and where children 13 14 are not enrolling, and we're asking 15 questions. So now we have actually 16 created projections for all of the CTE 17 programs, not just for Dobbins but all of them, and then we are requiring them in 18 some cases, if they come in under those 19 20 projections, to go back to the list of children who have still not selected a 2.1 22 program so that those children could also come back to those. And so now we know 23 where children are enrolling and not. 2.4 25 We're able to follow those projections

		Page 55
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	and ensure that the CTE programs enroll	
3	the number of children who they can	
4	enroll.	
5	COUNCILWOMAN BLACKWELL: Thank	
6	you. My last question	
7	COUNCIL PRESIDENT CLARKE:	
8	Councilwoman, can we	
9	COUNCILWOMAN BLACKWELL: Yes.	
10	Fine. I can wait until next cycle is	
11	fine.	
12	COUNCIL PRESIDENT CLARKE: The	
13	Chair recognizes Councilman Jones.	
14	COUNCILMAN JONES: Thank you.	
15	COUNCIL PRESIDENT CLARKE:	
16	Sorry about that.	
17	COUNCILMAN JONES: That's all	
18	right. It's the Chair of Education.	
19	Still good morning.	
20	DR. HITE: Good morning.	
21	COUNCILMAN JONES: And we're in	
22	for a long day. I always start with this	
23	question to you because it is a question	
24	that I asked you in 2013, and it was,	
25	looking forward, how would you give	

Page 56 1 5/26/15 - WHOLE - BILL 150162, etc. 2. yourself -- how would you mark yourself in this year looking forward as to 3 successes? And I'm giving you a copy of 4 the questions that I asked you then and I 5 6 want to kind of get answers for them now 7 in retrospect having been here since then. 8 9 And so the first question is --10 and it's almost in a report card fashion, 11 so you can give yourself the answer and then the grade -- what is the percentage 12 13 of 8th grade students -- you said you 14 would be successful if you knew the number of 8th grade students that passed 15 16 algebra 1 with a B or better. What is 17 that percentage today? DR. HITE: I don't have all of 18 these answers in front of me, Councilman 19 I could get you that information 20 Jones. 21 on the number, and I would also add that 22 seeing the questions from last year, what 23 percentage of 8th grade --2.4 COUNCILMAN JONES: Same ones I 25 ask every year.

Page 57 1 5/26/15 - WHOLE - BILL 150162, etc. 2. DR. HITE: -- what percent of 8th grade students passed algebra 1 with 3 a B or better, I'll also amend that to 4 5 say how many 8th graders are actually 6 enrolled in algebra, and if that number 7 is increasing or decreasing, that also gives us information. But I'll be able 8 9 to get this information for you during 10 the day. 11 COUNCILMAN JONES: So for the 12 record, I'd like to read the questions. Percentage of 9th grade students passing 13 14 geometry with a C or better. What is the 15 number of students who have received 16 scores of 1,550 on SAT or 21 on ACT 17 during the past two years. What is the percentage of students who scored at 18 least 3 on an AP exam or at least 4 in 19 20 the ID exam or scored at least proficient 21 on the National Occupational Competency Test Institute, NOCTI, assessments for 22 23 the last two years. What is the percentage of students graduating from 2.4 25 high school within four years. What is

Page 58 1 5/26/15 - WHOLE - BILL 150162, etc. 2. the percentage of students matriculating to college within one year of high school 3 graduation. And what is the percentage, 4 5 the last question, what is the percentage of students returning to college for a 6 7 consecutive year after enrolling in college within one year of graduating 8 9 high school. And when I asked you that, 10 you said these would be good measures to 11 see where we are. Now, I would say also 12 that we have to give you the tools to be able to do all of those things, but it 13 14 still serves as a benchmark to see based 15 on what you said would be positive 16 outcomes on how that would be. DR. HITE: Councilman Jones, if 17 I may, I have the answer to the last 18 three. So I have those. And I would 19 20 also add that we are in the process of 21 creating a dashboard in the District 22 that's going to have all of these metrics 23 public. And so these will be public for both me and the District. 2.4 25 But I want to come back.

		Page	59
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	percentage of students graduate from our		
3	Philadelphia schools within four years.		
4	That number is 64 percent.		
5	What percentage of students		
6	matriculate to college within one year of		
7	high school graduation. The last time we		
8	were able to look at this number		
9	because and I'll explain why it was		
10	the last time. We looked at the		
11	2003-2004 cohort of 9th graders because		
12	we wanted to follow those children		
13	through the equivalent of two years in		
14	college, if you will. And of that group,		
15	it was 54 percent at that time four years		
16	later graduated within four years. Of		
17	that 54 percent, 24 percent of those		
18	matriculated to college by the next fall.		
19	COUNCILMAN JONES: Okay.		
20	DR. HITE: And then of that		
21	group, 13 percent graduated from college		
22	within six years after graduating from		
23	high school.		
24	COUNCILMAN JONES: So 13		
25	percent of the 54 percent actually		
1			

		Page 60
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	graduated from school. What is the	
3	total what does that 13 percent	
4	represent by way of graduating students?	
5	So what is the gross number of students	
6	at the beginning and what percentage	
7	DR. HITE: Got you, yeah.	
8	Thank you.	
9	COUNCILMAN JONES: I went to	
10	public school, but	
11	DR. HITE: No, no. I got it.	
12	Thank you. I appreciate it.	
13	So of that number, if we look	
14	at 2003-2004, the first-time cohort, 9th	
15	grade, there were 15,428 children who	
16	entered. Of that number, 8,397 graduated	
17	within four years. And then 3,711 of	
18	them matriculated to college by the first	
19	fall after graduation, and then 1,983	
20	graduated from college within six years	
21	of graduating from high school. And I'll	
22	also add that to your question,	
23	Councilman Jones, these numbers increase	
24	dramatically when we find that children	
25	have had access or experience with the	

		Page	61
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	career and technical education.		
3	And, Mr. Kipphut, if you could		
4	walk through some of the figures there.		
5	MR. KIPPHUT: Well, Councilman,		
6	I can just tell you that for this school		
7	year, our data is not complete yet as far		
8	as NOCTI testing, because it just		
9	finished up, but I can tell you that in		
10	2012 NOCTI is the National		
11	Occupational Competency Testing		
12	Institute. It's a national organization,		
13	and the State of Pennsylvania requires		
14	all of our program completers program		
15	completer in our career and technical		
16	education is a student who has been		
17	enrolled in a program for the full		
18	three-year program and is graduating. So		
19	they're required to take the NOCTI exams.		
20	So in the school year 2012-2013, we had		
21	739 students who tested competent and		
22	advanced in NOCTI, which was 66.2 percent		
23	of the students.		
24	COUNCILMAN JONES: So it simply		
25	says that kids that go to CTE tend to do		

		Page	62
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	better, graduate more, go to school more,		
3	have less disciplinary problems this		
4	is what I hear than regular students.		
5	MR. KIPPHUT: We're very proud		
6	of our career and technical education		
7	students. The students in our career and		
8	technical education high schools, the		
9	five of them, the graduation rate is 90		
10	percent.		
11	COUNCILMAN JONES: Versus 56.		
12	DR. HITE: Fifty-four percent.		
13	MR. KIPPHUT: And students in		
14	our career and technical education		
15	programs that are actually housed or		
16	hosted by neighborhood high schools, the		
17	graduation rate is 80 percent for those		
18	students.		
19	COUNCILMAN JONES: Which is		
20	still head and shoulders above.		
21	MR. KIPPHUT: Much higher than		
22	the 64, yes.		
23	COUNCILMAN JONES: If I could		
24	segue and end with this question: Based		
25	on your responses to President Clarke's		

		Page 63
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	letter, can I have Mr. Stanski come up.	
3	DR. HITE: Sure.	
4	COUNCILMAN JONES: Do you have	
5	a copy of this letter?	
6	MR. STANSKI: We do, yes.	
7	COUNCILMAN JONES: Did you	
8	respond to it? Is this your response?	
9	MR. STANSKI: I am part of the	
10	respondent, yes.	
11	COUNCILMAN JONES: Can you	
12	state your name for the record.	
13	MR. STANSKI: Matthew Stanski,	
14	Chief Financial Officer, School District	
15	of Philadelphia.	
16	COUNCILMAN JONES: So help me	
17	out. In Fiscal Year '11 and then compare	
18	the number to Fiscal Year '15, the 328	
19	million represents the increase?	
20	MR. STANSKI: Yes, in City	
21	funding.	
22	COUNCILMAN JONES: So	
23	MR. STANSKI: Over those four	
24	years.	
25	COUNCILMAN JONES: So help me	

		Page 64
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	with my math. But if you take that	
3	number and subtract it from that number,	
4	isn't it 358 million as opposed to 328	
5	million?	
6	MR. STANSKI: You're correct,	
7	yes.	
8	COUNCILMAN JONES: So why is	
9	there a \$30 million difference?	
10	MR. STANSKI: Because there's a	
11	one-time well, there was a one-time	
12	\$45 million grant that we got in Fiscal	
13	'14 that we did not get in Fiscal '15.	
14	So if you're just comparing Fiscal '15	
15	and subtract from Fiscal '11, it's 328	
16	million. If you add up the cumulative	
17	increases, it gets to 358.	
18	COUNCILMAN JONES: Okay. Could	
19	you when you reply back to the	
20	President's number, can you reflect that?	
21	MR. STANSKI: Yes.	
22	COUNCILMAN JONES: I'm	
23	scratching my head thinking that I missed	
24	math class.	
25	MR. STANSKI: No, no, no.	

		Page 65
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILMAN JONES: All right.	
3	Thank you, Madam Chair.	
4	COUNCILWOMAN BLACKWELL: Thank	
5	you very much.	
6	Councilman Goode.	
7	COUNCILMAN GOODE: Thank you,	
8	Madam Chair.	
9	Good morning, Mr. Hite	
10	DR. HITE: Good morning.	
11	COUNCILMAN GOODE: Chairman	
12	Neff, members of the School Reform	
13	Commission, and staff.	
14	Let me first thank the Council	
15	President for sending the letter on May	
16	20th. I think it's important it's time	
17	for us to look back at the amount of	
18	money that this Council has invested in	
19	schools and to see what we got for it,	
20	and at the end of the day, I think we	
21	know that we have paid more and got less.	
22	I think specifically what the Council	
23	President was looking for was some	
24	accounting of what we actually saved	
25	through the money we invested. But	

		Page 66
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	rather than just go backwards, I'd rather	
3	go forward.	
4	The first question I guess is	
5	for Mr. Stanski, and anyone else can	
6	answer if they want. The School District	
7	has a Five Year Financial Plan; is that	
8	correct?	
9	MR. STANSKI: That's correct.	
10	COUNCILMAN GOODE: If the	
11	District receives all the money that it	
12	has requested in Year 1, what will be the	
13	Year 2 request?	
14	MR. STANSKI: If in the Five	
15	Year Plan we receive \$300 million, the	
16	Year 2 request is probably in the 370 to	
17	380 range.	
18	COUNCILMAN GOODE: I'm talking	
19	about in terms of additional request.	
20	MR. STANSKI: Oh, additional	
21	request?	
22	COUNCILMAN GOODE: If you get	
23	all the money	
24	MR. STANSKI: And that money is	
25	recurring? Let's say we got 300 million	

		Page (67
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	this year. I can assume that I'm going		
3	to get the 300 in the next year?		
4	COUNCILMAN GOODE: It's your		
5	Five Year Financial Plan. So I'm		
6	MR. STANSKI: So the request		
7	would have to go up by another \$100		
8	million at least every year and		
9	COUNCILMAN GOODE: I'm going to		
10	walk you through that. So you get all		
11	the money you request in Year 1. You		
12	have a Five Year Financial Plan. How		
13	much more money are you requesting in		
14	Year 2?		
15	MR. STANSKI: At least I		
16	mean, it would be at least \$100 million,		
17	if not more. And I can certainly walk		
18	you through why those costs will grow.		
19	COUNCILMAN GOODE: I don't		
20	understand how you say "at least" and why		
21	it's not a hard number if you have an		
22	actual Five Year Financial Plan.		
23	MR. STANSKI: Yeah. So if we		
24	got 103 from the City, we'd have to get		
25	178 the following year. So that's a \$78		
1			

			- 1
		Page 6	58
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	million increase on the City side.		
3	COUNCILMAN GOODE: You really		
4	have to be better at this. You have a		
5	Five Year Financial Plan. You know what		
6	Year 1 is.		
7	MR. STANSKI: Yes.		
8	COUNCILMAN GOODE: I'm asking		
9	you what is Year 2 in terms of additional		
10	request. It should be a very simple		
11	question.		
12	MR. STANSKI: Got you. 230		
13	million.		
14	COUNCILMAN GOODE: So an		
15	additional 230 million?		
16	MR. STANSKI: Correct.		
17	COUNCILMAN GOODE: Broken down		
18	how?		
19	MR. STANSKI: What's that?		
20	COUNCILMAN GOODE: Broken down		
21	how in terms of local and state funding?		
22	MR. STANSKI: Seventy-six from		
23	the State and 152 from the I'm sorry;		
24	152 from the State, 76 from the City.		
25	COUNCILMAN GOODE: So you want		

		De (0
_	F /06 /1F	Page 69
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	an additional 76 million from the City in	
3	Year 2. What about Year 3?	
4	MR. STANSKI: Year 3 we would	
5	need another 63 million.	
6	COUNCILMAN GOODE: And how much	
7	from the State?	
8	MR. STANSKI: Another 130.	
9	COUNCILMAN GOODE: Year 4?	
10	MR. STANSKI: Year 4, another	
11	60 from the City and 120 from the State.	
12	COUNCILMAN GOODE: Year 5?	
13	MR. STANSKI: This only went	
14	out our plan only went from Fiscal '15	
15	to '19. So this is it would stop I	
16	stopped at Fiscal '19.	
17	COUNCILMAN GOODE: So what's	
18	the total	
19	MR. STANSKI: Total is \$913	
20	million in additional money over the five	
21	years.	
22	COUNCILMAN GOODE: How much	
23	from the City? How much from the State?	
24	MR. STANSKI: It would be 304	
25	from the City and 608 from the state.	
	•	

		Page 70
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILMAN GOODE: So this is	
3	not a question of pay now or pay later.	
4	This is a question of pay now and pay	
5	later.	
б	MR. STANSKI: Yes. I mean, the	
7	way our yeah, it has to be recurring,	
8	and the way our expenses are structured,	
9	we believe that this revenue is necessary	
10	to, one, reinvest in District schools	
11	but, two, and the bigger issue on the	
12	revenue request	
13	COUNCILMAN GOODE: It's a	
14	simple question. It's not a question of	
15	pay now or pay later; it's a question of	
16	pay now and pay later.	
17	MR. STANSKI: Yeah, because the	
18	reminder that whatever new money is	
19	invested in District schools this year	
20	has to go into the charter school payment	
21	for the following year. So in order to	
22	maintain those investments and then our	
23	ability to	
24	COUNCILMAN GOODE: I simply	
25	you're using up my time. I simply wanted	

		Page 71
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	to put on the record that over the Five	
3	Year Plan, you'll be back every year for	
4	a considerable amount of money.	
5	MR. STANSKI: That's correct.	
6	COUNCILMAN GOODE: It doesn't	
7	matter who pays.	
8	MR. STANSKI: That's correct.	
9	COUNCILMAN GOODE: Have you	
10	seen the PCCY toolbox in terms of things	
11	that should be considered?	
12	MR. STANSKI: I have not.	
13	COUNCILMAN GOODE: I'm going to	
14	run down the list: Eliminate the School	
15	District portion of the property tax	
16	abatement, 700,000; parking lot tax, 7.5	
17	million; PILOTs, \$10 million; increase	
18	the use and occupancy tax by 20 percent,	
19	\$27 million; shift property tax revenue	
20	from City to District millage shift back	
21	to 60 percent for \$54 million; and tax on	
22	sugary drink at 1 cents per ounce, \$60	
23	million.	
24	Is there anyone at that table	
25	or anyone who is a member of the School	

		Page 72
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Reform Commission who has a problem with	
3	any of those revenue streams? Put it on	
4	the record now.	
5	CHAIRWOMAN NEFF: I'm here to	
6	say that we are leaving it up to you to	
7	decide where the revenue comes from.	
8	That's not our	
9	COUNCILMAN GOODE: That wasn't	
10	the question. The question is, do you	
11	have a problem with any of those revenue	
12	streams?	
13	CHAIRWOMAN NEFF: I have no	
14	problem with us getting the money that we	
15	need to run schools.	
16	COUNCILMAN GOODE: Anyone else	
17	who has a problem with it should come to	
18	the table and say they have a problem	
19	with it. If not, thank you very much.	
20	Thank you, Madam Chair.	
21	COUNCILWOMAN BLACKWELL: Thank	
22	you.	
23	Councilman Neilson.	
24	COUNCILMAN NEILSON: Thank you,	
25	Madam Chair.	

		Page 73
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	I'm going to continue right	
3	where Councilman Goode left off, because	
4	that's an important point. For every	
5	hundred million we invest in new money to	
6	the School District, 40 million has to be	
7	added next year; is that correct?	
8	MR. STANSKI: Yes.	
9	COUNCILMAN NEILSON: So we give	
10	you 100, next year you're 40, the State	
11	gives you I mean, we're asking for 264	
12	million. So that's roughly another	
13	hundred million I have to come up with	
14	next year. So now we're at Council	
15	President. I mean, basic math here. I	
16	don't need a complicated answer. How	
17	much money do you spend on Community	
18	College, CCP? You told us how you invest	
19	in all the kids. How much money out of	
20	your budget, operating budget, goes to	
21	Community College?	
22	DR. HITE: Councilman, because	
23	that's at the school level, that comes	
24	out of their respective budgets.	
25	COUNCILMAN NEILSON: All right.	

		Page 74
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	How much money does the Philadelphia	
3	School District invest in Community	
4	College? Someone has to pay the bills.	
5	The School District pays them, not the	
6	individual school, correct? Does the	
7	individual school have checkbooks or does	
8	the School District of Philadelphia have	
9	a checkbook?	
10	DR. HITE: Yeah, we have it.	
11	COUNCILMAN NEILSON: Okay.	
12	What's that number? Because creative	
13	thinking says if I pay \$100 million in	
14	additional money to the School District,	
15	basic math, I pick up that Community	
16	College bill, say it's 100 million, it's	
17	100 million you don't have, I pick that	
18	up. That does not cost me \$40 million	
19	next year, does it? Because that has no	
20	reimbursement strings attached to it like	
21	it does the charter schools.	
22	MR. STANSKI: So to answer	
23	COUNCILMAN NEILSON: Basic	
24	math, right?	
25	MR. STANSKI: To answer your	

		Page	75
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	question, out of the operating budget, we		
3	pay the Community College of Philadelphia		
4	\$705,000 in Fiscal '14, and out of		
5	federal money we paid them an additional		
6	\$136,000.		
7	COUNCILMAN NEILSON: So if I		
8	spend that money and I write that check		
9	from City Council instead of you, 40		
10	percent of that doesn't go to charter		
11	school reimbursement, correct?		
12	MR. STANSKI: That is correct.		
13	COUNCILMAN NEILSON: Okay. How		
14	much money does the City of		
15	Philadelphia we've had a lot of		
16	hearings going on. I've had Health and		
17	Human Services say they invest 75		
18	million. I had the judicial system,		
19	they're telling me they invest millions		
20	in kids.		
21	How much resources does the		
22	City of Philadelphia, not dollars and		
23	cents, of other operating budgets, how		
24	much do we invest? Health and Human		
25	Services told us the other day on the		

		Page 76
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	record that they spend almost \$600,000	
3	for 103 schools per school for counseling	
4	services. That's what they said on the	
5	record. How much money does the City of	
6	Philadelphia, this City Council	
7	appropriate to all the departments that	
8	directly input the education of our kids?	
9	You have no idea? That's a	
10	problem. Okay. Let's go back.	
11	Madam Chair, under your	
12	testimony, you told us under your	
13	testimony that for the first time in four	
14	years, you will end this fiscal year with	
15	a surplus. However, your Superintendent	
16	says he needs \$85 million to break even.	
17	Please explain.	
18	CHAIRWOMAN NEFF: That's next	
19	year's budget because our fixed costs are	
20	going up.	
21	COUNCILMAN NEILSON: So	
22	CHAIRWOMAN NEFF: Pension	
23	costs, healthcare costs	
24	COUNCILMAN NEILSON: How much	
25	is your surplus this year going to be?	

		Page 77
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	MR. STANSKI: So we're	
3	projecting the surplus to be \$6 million.	
4	The reason there is	
5	COUNCILMAN NEILSON: Sixty or	
6	6?	
7	MR. STANSKI: Six million.	
8	COUNCILMAN NEILSON: Thank you.	
9	MR. STANSKI: The reason there	
10	is a shortfall for Fiscal '16, it's	
11	twofold. First, on the revenue side, if	
12	we don't get any increased funding from	
13	the State or the City, we're looking at a	
14	decline in revenue of \$22 million because	
15	of one-time revenue sources. The \$30	
16	million grant that we got from the City	
17	and then \$20 million worth of building	
18	sales are now going away on the revenue	
19	side, and then we have \$90 million worth	
20	of increased costs that are all fixed.	
21	Charter payments are going up \$40	
22	million. Pension payments are going up	
23	\$34 million. Healthcare costs are going	
24	up almost \$10 million. And we have debt	
25	costs going up about \$3 million.	

		1
		Page 78
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILMAN NEILSON: In your	
3	MR. STANSKI: Slide 6 through 8	
4	in the deck that we gave you, in the	
5	presentation, outlines why the shortfall	
6	is where it is.	
7	COUNCILMAN NEILSON: In your	
8	budget, have you made any dollars	
9	available to provide for any unsettled	
10	labor contracts and increases to the	
11	School District employees?	
12	MR. STANSKI: We have not. In	
13	the proposed Fiscal '16 budget, there is	
14	no savings from labor from unsettled	
15	for bargaining units that we have not	
16	reached agreement with.	
17	COUNCILMAN NEILSON: How long	
18	has the teachers' contracts been expired?	
19	MR. STANSKI: It's been expired	
20	since August 31st of 2013.	
21	COUNCILMAN NEILSON: You don't	
22	expect to give a raise or anything? No	
23	expectations or nothing, so you don't	
24	even budget for that?	
25	MR. STANSKI: I mean, in our	

		Page	79
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	Five Year Plan, if we got the full \$300		
3	million, we did have money set aside for		
4	compensation improvements, but in the		
5	Fiscal '16 budget, there is no		
6	compensation increases planned at this		
7	time.		
8	COUNCILMAN NEILSON: Is most of		
9	your budget dependent upon how the		
10	Governor passes his budget?		
11	MR. STANSKI: I mean, 54		
12	percent of our revenue comes from the		
13	state. And so whether we get 159 million		
14	from that proposal or zero, right. That		
15	is that's a big gap. And our City		
16	request too. So the 264, the District		
17	looks a lot different with 264 million		
18	than it does without it.		
19	COUNCILMAN NEILSON: Last		
20	question. The SRC has debt service and		
21	has been borrowing money for years. How		
22	much debt service is the School District		
23	carrying? How much debt do we owe since		
24	the State takeover? The State took over		
25	and has borrowed money on what they say		

		Page	80
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	is, I think		ļ
3	MR. STANSKI: I can't tell you		
4	since 2000, but I can tell in principal		ļ
5	and interest we have \$3 billion of		
6	outstanding debt. We have budgeted \$274		ļ
7	million worth of debt payments on		ļ
8	principal and interest this year. We		
9	have not gone to the market for school		
10	construction financing in almost four		ļ
11	years. We did do a deficit financing in		ļ
12	Fiscal '13 and we did a small general		ļ
13	obligation borrowing, 50 million, in		ļ
14	conjunction with a refunding that we did		ļ
15	in April.		ļ
16	COUNCILMAN NEILSON: Thank you,		ļ
17	Mr. President. I'll wait my turn and		ļ
18	come back. Thank you.		ļ
19	COUNCIL PRESIDENT CLARKE:		ļ
20	Thank you, Councilman.		ļ
21	The Chair recognizes		ļ
22	Councilwoman Reynolds Brown.		ļ
23	COUNCILWOMAN BROWN: Thank you,		
24	Mr. President.		
25	Good morning.		
			ļ

		Page 81
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	(Good morning.)	
3	COUNCILWOMAN BROWN: Welcome,	
4	Chairman Neff, to these proceedings.	
5	I want to recircle back to a	
6	number of questions raised, started out	
7	by, kicked off by President Clarke, and	
8	try to get a more specific answer around	
9	the why for the ask in terms of detail.	
10	When was the last time the	
11	School District of Philadelphia was	
12	comprehensively audited?	
13	MR. STANSKI: We're audited	
14	every year by the City Controller Office,	
15	and we are currently going through a	
16	performance audit with the Pennsylvania	
17	Auditor General, which happens every five	
18	years.	
19	COUNCILWOMAN BROWN: Presuming	
20	you do receive recommendations, do you	
21	not, from	
22	MR. STANSKI: From the City	
23	Controller? Absolutely.	
24	COUNCILWOMAN BROWN: So	
25	specifically from the last report, what	

		Page	82
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	one, two or three items did you learn		
3	specifically from the last audit?		
4	MR. STANSKI: I would say, one,		
5	we've improved our accounting of our		
6	student activity funds. It's not where		
7	it needs to be. It's still a comment.		
8	Two		
9	COUNCILWOMAN BROWN: Student		
10	activities fund?		
11	MR. STANSKI: Student activity		
12	funds. This is like the field trip money		
13	that schools collect and spend.		
14	The second is, two years ago we		
15	were we actually had a major finding		
16	around our ability to actually operate.		
17	We haven't had that finding, which is		
18	good. That's a big step in the right		
19	direction for us.		
20	And then I would say the third		
21	one and while we continue to need		
22	improvement on is, we have better		
23	internal controls over vendor payments		
24	and things of that nature. I can		
25	honestly say that the last audit report		

Page 83 1 5/26/15 - WHOLE - BILL 150162, etc. 2. we got from the City Controller, while there are issues that needed to be 3 addressed, it was the first time since 4 2008 we didn't get what is deemed in the 5 audit world a material weakness or a significant deficiency. So it's been -so six years. And so while there were 8 9 comments made around areas of improvement needed, and we obviously recognized those 10 11 and continue to work on those, there was 12 nothing of major concern to the point where they had to identify it as a 13 14 significant weakness -- or a significant 15 deficiency or material weakness. 16 COUNCILWOMAN BROWN: Okay. 17 in this round and maybe not today I have some specific questions around school 18 maintenance-related items, what the 19 20 protocols are for that which triggers the 21 need for that department to deal with school maintenance-related issues. 22 23 I also want to go on the record 2.4 and say in capital letters with 25 exclamation points cursive writing should

		Page	84
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	be mandatory. Children need to sign		
3	their name. We need to be able to read		
4	signatures. And I need to hear		
5	specifically what does integrated into		
6	the curriculum mean. So if we could		
7	invite back the professional that dealt		
8	with that issue, I need specifics. What		
9	does is he here? Could we please		
10	invite the professional back up to the		
11	table.		
12	DR. HITE: He's still here,		
13	Dr. Dickey.		
14	(Witness approached witness		
15	table.)		
16	COUNCILWOMAN BROWN: Please		
17	talk in greater detail about what does		
18	integrated into the curriculum mean.		
19	DR. DICKEY: Yes. So in the		
20	early grades, primarily grades K through		
21	5, students are responsible teachers		
22	are responsible for teaching students the		
23	foundational skills, and the foundational		
24	skills include phonics. So learning that		
25	letter combinations make sounds. And		

Page 85 1 5/26/15 - WHOLE - BILL 150162, etc. 2. then students are also responsible for -teachers are responsible for teaching 3 students phonetic awareness, that single 4 5 letters make sounds. So that eventually 6 kids can recognize small words, type 7 words, they can develop their vocabulary, all for the purpose of being able to read 8 9 fluently and comprehend what they've read. And so the other half of that is 10 11 students being able to demonstrate 12 knowledge of what they read through 13 writing, and that's done two ways. 14 That's done through writing in print 15 and/or speaking. And print would include 16 printing letters versus writing the 17 letters in cursive. And so right now 18 you'd be hard-pressed to find a K-5 classroom wherein students do not have 19 20 the opportunity to write in cursive. 21 Now, is there a curriculum that 22 says as explicit as it is in the Common 23 Core that students in a particular grade have to learn a particular skill at a 2.4 25 particular time of the school year, it's

Page 86 1 5/26/15 - WHOLE - BILL 150162, etc. 2. not that explicit, but we are not opposed to it being that explicit. It currently 3 is not. 4 5 COUNCILWOMAN BROWN: So if 6 you're not opposed -- well, let me ask a 7 different question. Are children graded on their cursive writing like they're 8 9 graded on math and English, et cetera? DR. DICKEY: So some of our 10 11 teachers may give kids a handwriting 12 grade. They may give kids a spelling -much like they might give kids a spelling 13 14 grade, but those courses are typically 15 not -- cursive writing or spelling are 16 not typically taught as a stand-alone 17 course, which is why I used the term 18 "integrated." It's integrated into their early literacy experience. 19 20 COUNCILWOMAN BROWN: So then to 21 underscore Chairwoman Blackwell's ask, by the end of these budget proceedings, we 22 23 want to know affirmatively what the expectations will be of teachers to 2.4 25 require that young people receive a grade

		Page	87
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	so that they know that it matters to us		
3	as students moving on to middle school.		
4	And you'll figure out how you can work		
5	that out within your institution over		
6	there.		
7	DR. DICKEY: Yes, ma'am.		
8	COUNCILWOMAN BROWN: But we		
9	need to know for all of what research		
10	tells us and when we consider the fact		
11	that our students too often end up		
12	shortchanged anyway because they're		
13	coming from environments that may not		
14	foster academics in the way that we would		
15	like, then from where we sit as		
16	members and this has nothing to do		
17	with cost. So it's doable. And so the		
18	ask and the expectation is that you		
19	reassure us by the end of these		
20	proceedings what the new protocols will		
21	be where being graded for writing is an		
22	expectation and in no way because you		
23	used the word "may" be graded. So we		
24	want "will" be graded going forward.		
25	DR. DICKEY: If I could submit		

		De 00
1	F / O C / 1 F	Page 88
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	to you yes, ma'am. We'll do that.	
3	We'll figure that out. And if I could	
4	submit to you that there are costs	
5	associated with teaching cursive. So	
6	when something is, quote, mandated, there	
7	are professional development costs for	
8	teachers. There are consumable costs for	
9	the kids to write in cursive. So there	
10	are costs associated with teaching kids	
11	to write in cursive, if it's mandated.	
12	COUNCILWOMAN BROWN: I went to	
13	Morton McMichael School and then Girls'	
14	High. It was a requirement then. We	
15	need to make it a requirement now.	
16	DR. DICKEY: Point taken.	
17	COUNCILWOMAN BROWN: Thank you.	
18	DR. DICKEY: Yes, ma'am.	
19	COUNCILWOMAN BROWN: Thank you,	
20	Mr. Chairman.	
21	COUNCIL PRESIDENT CLARKE:	
22	Thank you, Councilwoman.	
23	The Chair recognizes	
24	Councilwoman Bass.	
25	COUNCILWOMAN BASS: Thank you,	
	COUNCIL MOPIAN DADD. ITIAIIR YOU,	

		Page 89
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Mr. President.	
3	Good afternoon.	
4	(Good afternoon.)	
5	COUNCILWOMAN BASS: I just want	
6	to follow up on Councilwoman Brown's	
7	questions regarding cursive and also	
8	Councilwoman Blackwell earlier, and I	
9	have to say it's a little bit disturbing,	
10	I would say, that it feels like we can't	
11	get a straight answer on some of these	
12	very important questions. And so as an	
13	example, as we were discussing sort of	
14	the whole cursive and writing and the	
15	gentleman said, Well, it's important, we	
16	recognize that it's important, but would	
17	not make a commitment to it. And so from	
18	our standpoint, if you recognize that	
19	something is important for a child's	
20	growth, then why are we not making a	
21	commitment to it and why are we sort of	
22	dancing around the subject? That's what	
23	it feels like. And it's not just that	
24	particular subject, but others as well.	
25	It feels as if you can't get a straight	

		Page 90
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	answer on some of these questions. And	
3	so when you look back and you think about	
4	we sold a whole bunch of School District	
5	buildings and we expected to have some	
6	revenues as a result of those sales and	
7	then we find out that they're heavy with	
8	debt, so there is no revenue to be	
9	generated from those sales that comes	
10	forward, and we find out all of these	
11	things just sort of along the way. So it	
12	really does feel as if information is	
13	not necessarily purposefully being	
14	withheld, but nonetheless being withheld.	
15	Maybe it's for a lack of having the	
16	information at your fingertips or	
17	whatever it may be. It does feel as if	
18	it's very, very difficult to get the sort	
19	of answers that we're looking for so that	
20	we can make the decisions that we need to	
21	make here.	
22	We want to do everything we can	
23	and be helpful to you. This is the	
24	number one issue in the City of	
25	Philadelphia, and everyone in this room	
İ		

		Page 91
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	is on board with trying to help our	
3	children, but we need to have the	
4	information to be able to make educated	
5	decisions, which I'm sure you all can	
6	appreciate.	
7	Chairwoman Neff, just a couple	
8	of questions. You mentioned in your	
9	testimony about the small surplus.	
10	Actually, can you go back and maybe	
11	this is a question for your financial	
12	person. Can you go back over the	
13	previous budget and tell me was there	
14	was this surplus projected? Was this	
15	expected?	
16	MR. STANSKI: No. When we	
17	adopted the budget, we expected a zero	
18	balance. And so we have a slight surplus	
19	of \$6 million.	
20	COUNCILWOMAN BASS: How did we	
21	arrive at the surplus?	
22	MR. STANSKI: A couple factors.	
23	I would say the biggest is that our	
24	which is a good sign is that our cyber	
25	charter costs are a little bit lower than	

Page 92 1 5/26/15 - WHOLE - BILL 150162, etc. 2. what we thought. The enrollment did not go up as it has been in prior years, and 3 we are seeing some savings in the salary 4 line item as well. So that's pretty much 5 6 where we're getting it. COUNCILWOMAN BASS: Okav. Do 8 you see any projected future surpluses 9 ahead? 10 MR. STANSKI: I do not. 11 COUNCILWOMAN BASS: I mean, 12 we're always hopeful, but I'm just --13 MR. STANSKI: Yeah. Tt. would 14 be nice to run small surpluses every year to actually have a little bit of a fund 15 16 balance. That would be nice. 17 COUNCILWOMAN BASS: Okay. one of the statements that was made was 18 that new dollars will be spent boldly and 19 20 purposefully, which, again, because I think we have a lack of confidence or a 21 situation where we have a crisis in 22 23 confidence, I think, in terms of what's 2.4 being done and how it's being done, 25 because the District is just so

1 5/26/15 - WHOLE - BILL 150162, etc. 2 incredibly large and having systems in	
2 incredibly large and having systems in	
3 place to address some of the issues that	
4 we have.	
5 So, for example, one of the	
6 things that comes to mind is this school	
7 full of books in the basement of, I think	
8 it was what school was it where the	
9 books were found?	
10 DR. HITE: Bok.	
11 COUNCILWOMAN BASS: Was it Bok?	
12 Okay. And there was a basement filled	
13 with usable materials. And I think that	
14 the response that came from the SRC or	
15 from the District was that there was no	
16 inventory system, so the District really	
17 didn't seem to know what it had. And so	
18 when we say we'll spend new dollars	
19 boldly and purposefully, again, there is	
20 a situation where confidence or lack of	
21 confidence that that statement is	
22 accurate. Can you address that?	
DR. HITE: Yeah, I can address	
that, Councilwoman, and I want to come	
25 back to your earlier point, because	

		Page 94
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	that's a fair point on the cursive	
3	writing thing. I mean, number one	
4	COUNCILWOMAN BASS: So that's a	
5	yes then, you're going to mandate it?	
6	DR. HITE: No. I'm not going	
7	to suggest we're going to mandate it	
8	right now. I mean, because I have two	
9	fundamental issues with it. One issue	
10	is, any time you require a grade for	
11	something, it allows just another point	
12	for making decisions about certain	
13	children because they can't do one piece	
14	of a task. Cursive writing could be one	
15	of those. And so I need to see a lot	
16	more information about I know the	
17	benefits of cursive writing, but I need	
18	to see a lot more benefits to whether or	
19	not we require that and make it mandatory	
20	as a part of what children are graded on.	
21	Now, understanding that	
22	handwriting is graded. So that is one	
23	point, but to suggest that not to	
24	suggest that this could happen, but a	
25	child could be held back simply because	

		Page 95
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	their cursive writing is not up to par.	
3	COUNCILWOMAN BASS: As you do	
4	the research on that, we'd like to know	
5	too if there is data that says that.	
6	Then we need to bring that information	
7	forward. But just on the suggestion of	
8	it	
9	DR. HITE: Right.	
10	COUNCILWOMAN BASS: we don't	
11	want to act on that.	
12	DR. HITE: No. I appreciate	
13	that.	
14	And then the other thing is on	
15	the books, so yes is the answer to your	
16	point. There were materials available.	
17	There were materials available both at	
18	the District basement and at Bok, because	
19	the 24 facilities that were closed	
20	actually, it was 31 facilities all of	
21	those materials went to one place. There	
22	was an opportunity for individuals to	
23	come in and get those materials that were	
24	usable, but upon looking at the	
25	materials, they were in such disarray, it	

Page 96 1 5/26/15 - WHOLE - BILL 150162, etc. 2. was, quite frankly, overwhelming to individuals if they would go over and 3 look at it. 4 5 So there were some usable. So 6 now we're going through a process where 7 we actually are doing an inventory of those materials, moving those materials 8 9 from Bok to 440 and discarding materials that are no longer of use or no longer 10 11 current. So some of that stuff was 12 trash, some were usable materials, and we 13 are going through a process now to 14 identify all of those things and 15 inventory that so that we'll have a 16 system in place for educators to come in 17 and see what materials are available. That is -- but when you are -- we've all 18 talked about what we've had to cut over 19 20 the past years, and cutting divisions 21 that were responsible for inventory and 22 thinking that our -- we have two people 23 that were in the book office. There may 2.4 be one now. But we had two people in the 25 book office and they were inventorying

Page 97 1 5/26/15 - WHOLE - BILL 150162, etc. 2. all of the books we had by hand, two people. For a district our size, that's 3 unheard of. So we now have created 4 5 systems to begin looking at how we 6 inventory all of those materials in 7 addition to every other book that's in the District. So that's a part of what 8 9 we've done. 10 With respect to the property 11 sales, one of the things we were 12 attempting to do with our meetings with each of you, for all of you that I've had 13 14 meetings with, was really to explain how we arrived at the structural deficit and 15 16 how the implications of the one-time 17 funds then create a problem for us, because the expenses are fixed. I mean, 18 so -- but the revenues are one time, and 19 so it creates this structural deficit 20 21 that we have moving from year to year. It's just associated with the fixed costs 22 23 of a district our size. COUNCILWOMAN BASS: No. 2.4 Т 25 understand that.

Page 98 1 5/26/15 - WHOLE - BILL 150162, etc. 2. One other thing -- I know I'm out of time. One real quick point just 3 on the inventory of materials and that 4 5 the system is obviously out of whack. 6 we've got one person responsible for all of the materials for the entire School 7 District of Philadelphia, obviously 8 9 that's a big problem, but the other thing I wanted to point out is that I've been 10 11 in schools that have been closed and it looks as if when we close a school, we 12 close the doors and that's it. 13 14 the materials are moved or not, it's 15 optional. Whether the building is 16 secured and cleaned and items moved to 17 440 North Broad or wherever the storage space is, it may happen. It seems to me 18 that in a lot of the cases it doesn't 19 20 happen. So I just wanted to put that on 2.1 the record. DR. HITE: All of the materials 22 23 from the closed facilities -- and if 2.4 there are exceptions, there are reasons 25 for those exceptions in terms of what

		1
		Page 99
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	materials are left in buildings, but the	
3	vast majority of those materials went to	
4	Bok. And so that's and some were	
5	going to the old William Penn High	
6	School, but some materials went to those	
7	two most of the materials from the	
8	closed schools went to those two places.	
9	COUNCILWOMAN BASS: Right. I'm	
10	talking about not just books but	
11	furniture and other items, bookshelf and	
12	the whole nine, trophies, the school's	
13	history. All of that seems to remain in	
14	a lot of these schools to be open to be	
15	vandalized. So, again, I just want to be	
16	on the record on that.	
17	Thank you.	
18	Thank you, Mr. President.	
19	COUNCIL PRESIDENT CLARKE:	
20	Thank you, Councilwoman.	
21	Real quick question. The SRC	
22	has the ability to enact certain waivers.	
23	I believe you have the ability to enact a	
24	waiver on maintenance of effort; am I	
25	correct?	
1		

		Page 100
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	(Chairwoman Neff nods head in	
3	affirmative.)	
4	COUNCIL PRESIDENT CLARKE: Are	
5	there any other waivers that you can	
6	enact or is it just maintenance of	
7	effort?	
8	CHAIRWOMAN NEFF: As you are	
9	aware, we're in court over some of the	
10	waivers of the law that we've requested	
11	around the labor contracts, but	
12	maintenance of effort is the one that I'm	
13	aware of, yes.	
14	COUNCIL PRESIDENT CLARKE:	
15	That's the only one you're aware of?	
16	CHAIRWOMAN NEFF: What other	
17	waivers are you thinking of particularly?	
18	COUNCIL PRESIDENT CLARKE: I'm	
19	not going to tip my hat, but there are	
20	issues. It's clear there are issues with	
21	respect to the structure of the SRC and	
22	its governing powers as it relates to the	
23	City of Philadelphia and our inability to	
24	have any interaction. But from time to	
25	time, the question comes up are there	

		-
		Page 101
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	things that we can do if we had a little	
3	more flexibility to better accommodate	
4	the School District, and we're not able	
5	to do it because we don't have the	
6	flexibility. So the question is, beyond	
7	the waiver of the maintenance of effort,	
8	which you enacted when we did the	
9	borrowing after our sales tax got	
10	hijacked by the State and SRC I had to	
11	throw that in I'm just questioning	
12	what else do you have the ability to do	
13	as an SRC? And if you don't know right	
14	now, that's fine.	
15	CHAIRWOMAN NEFF: Right. And I	
16	don't want to talk about legalities that	
17	I don't have full grasp of.	
18	COUNCIL PRESIDENT CLARKE:	
19	That's fine. If you can just get that,	
20	because I'm just not familiar with it.	
21	That will be very helpful. Thank you.	
22	The Chair recognizes Councilman	
23	Oh.	
24	COUNCILMAN OH: Thank you very	
25	much.	
1		

		T
		Page 102
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCIL PRESIDENT CLARKE: I'm	
3	sorry, Councilman.	
4	Councilwoman Tasco.	
5	COUNCILWOMAN TASCO: Thank you.	
6	I have a couple of questions.	
7	I won't have time. I'll have to come	
8	back. But in your testimony you talked	
9	about the focus on setting ambitious	
10	student learning goals and aligning	
11	resources accordingly. You talk about	
12	oh, that's not the question. You talk	
13	about the question where you mention the	
14	poverty is a great challenge to you and	
15	some of your neighborhood schools and	
16	where you lack the staffing and the	
17	resources. In the plan are you planning	
18	to develop special plans for these	
19	schools to I know you can't address	
20	the issue of poverty, but to keep those	
21	young people on track, what plans do you	
22	have for that?	
23	DR. HITE: Yes, ma'am. And	
24	I'll allow Mr. Stanski to work through	
25	some of the exact strategies that we're	
1		

		Daga 102
1	E / 2 C / 1 E TUTOT D DTT T 1 E 2 1 C 2 C 2 C 2 C 2 C 2 C 2 C 2 C 2 C 2	Page 103
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	taking, but principally we're looking at	
3	providing additional revenue,	
4	particularly where there are large	
5	concentrations of children from poverty	
6	who attend schools, and we can do that	
7	through Title I funding and have done	
8	that now already, but in addition, we	
9	provided more monies to schools that also	
10	had higher concentrations of children in	
11	poverty and some of the lower performing	
12	schools with additional resources that we	
13	put back into those schools last fall.	
14	And so we look at it two ways, one	
15	through grants and then one through	
16	operating to address some of the things	
17	that many of the principals have	
18	requested. In addition, we were	
19	fortunate this year to have 40 additional	
20	reading specialists. Those reading	
21	specialists were then assigned to schools	
22	with higher numbers of children who were	
23	not reading at grade level and based on	
24	concentrations of poverty.	
25	So those are a couple of	

Page 104 1 5/26/15 - WHOLE - BILL 150162, etc. 2. examples. In addition, we're working with some of the -- with DHS or DBH on 3 how their resources will come into those 4 5 communities as a part of either the 6 community umbrella agency or individuals who are working in schools themselves. 7 MR. STANSKI: We get our Title 8 9 I grant, which is a federal grant that 10 specifically addresses students who come 11 from circumstances of poverty. District has taken the stance that we are 12 going to funnel more of those dollars 13 14 into schools that have very high concentrations. It's difficult in 15 16 Philadelphia because all of our schools 17 deal with poverty, but we've made a conscious choice to really in schools 18 that have, I would say, 65 percent of 19 20 their students to 100 percent of their 21 students coming from circumstances of 22 poverty, we have given them from the 23 Title I budget anywhere from \$500 to almost \$700 per student to meet the needs 2.4 25 of those children. And as Dr. Hite

Page 105 1 5/26/15 - WHOLE - BILL 150162, etc. 2. alluded to also, schools that are also struggling academically, we've taken 3 Title I dollars and put additional 4 5 resources into those schools as well. 6 COUNCILWOMAN TASCO: T also 7 notice that one of the questions that I'm going to ask about the charter school 8 9 expansion. So if you have a number of schools in a neighborhood where children 10 11 are really struggling because of the 12 poverty, what consideration would you give to allowing a charter school to come 13 14 into that area? Would you think maybe 15 all those resources that will go to a 16 charter school should go to the school in 17 the neighborhood? I'm not against charter schools. 18 19 CHAIRWOMAN NEFF: Well, I think 20 that that's certainly the issue that we 21 have been struggling with as a district, because it's a zero sum gain. 22 There's 23 no -- it's -- the system of funding, in essence, ends up pitting the regular 2.4 25 public schools against the charter

Page 106 1 5/26/15 - WHOLE - BILL 150162, etc. 2. schools, which is unfortunate because we do have charter schools that are 3 performing well and providing a good 4 5 education for children. I think the way 6 that we've tried to approach it in the 7 past two years is to -- well, in the past 8 year, as we approved charters or 9 identified charters for approval and through the application process, we 10 11 attempted to identify neighborhoods that 12 needed more options for children in those schools. 13 14 But you raise an important 15 point. Always we're concerned about what 16 the increasing charter population is 17 doing because of the funding, and we are hoping that and working towards with the 18 State Legislature changing the funding 19 20 formula so that it doesn't disadvantage either. We don't want charter schools to 21 22 get less, but we don't want our -- as 23 Mr. Stanski pointed out, if we are fortunate enough to get the funds that we 2.4 25 need to really move our District forward

Page 107 1 5/26/15 - WHOLE - BILL 150162, etc. 2. this year, it will have consequences for us next year because of the charter 3 funding formula. 4 5 COUNCILWOMAN TASCO: Thank you. COUNCILWOMAN BLACKWELL: 6 Thank 7 you, Councilwoman. Before I call on Councilman 8 9 O'Brien, I would note, back to this issue of cursive writing, that I've never heard 10 11 of a student left behind because of bad handwriting. In fact, one of our 12 staffers here for the President notes 13 14 that cursive writing has also been linked 15 to improved spelling and understanding of 16 phonics. But nobody gets left down 17 because of it. We are concerned as to I understand -- and 18 what happens now. I'm sure Councilman O'Brien will speak. 19 We understand children who have medical 20 issues or children who have autism or 2.1 22 many issues and conditions that may 23 prevent them from being judged in this 2.4 way, but we believe that it just doesn't 25 make sense to even fight the issue of

		Page 108
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	cursive writing. It just doesn't make	
3	sense.	
4	I want to ask another question	
5	and, that is, when we talk about	
6	COUNCILWOMAN BROWN: Chair	
7	Lady, point of information.	
8	COUNCILWOMAN BLACKWELL: Point	
9	of order?	
10	COUNCILWOMAN BROWN: Yes, on	
11	the cursive writing.	
12	COUNCILWOMAN BLACKWELL: Please	
13	put her mike on.	
14	COUNCILWOMAN BROWN: Just a	
15	point of information and clarification.	
16	In no way do I want to appear	
17	unreasonable, and the notion or	
18	inclination that a young person would be	
19	left back because their cursive writing	
20	is unacceptable makes my heart ache. So	
21	I don't want to suggest that at all, but	
22	what I do know as a former teacher is	
23	that there are different learning styles	
24	for sure and there are different ways to	
25	convey to a student whether a subject	

		Page 109
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	area and/or conduct is acceptable or	
3	unacceptable.	
4	So the notion of leaving back a	
5	student, please take that off the plate	
6	for me. That's not where I'm at. I'm of	
7	the view that there needs to be some	
8	level of expectation conveyed to a	
9	student that cursive writing is an	
10	important academic pursuit, and be it	
11	outstanding, satisfactory, above	
12	satisfactory or unsatisfactory, my hope	
13	is that you develop some level of	
14	expectation that conveys to a student	
15	that we need you to have understandable	
16	cursive writing to operate and function	
17	in tomorrow's world. Am I making my	
18	point?	
19	DR. HITE: Yes.	
20	COUNCILWOMAN BROWN: Okay. All	
21	right, then.	
22	Thank you, Madam Chairwoman.	
23	COUNCILWOMAN BLACKWELL: Thank	
24	you.	
25	We're going to find an article	

Page 110 1 5/26/15 - WHOLE - BILL 150162, etc. 2. that talks about how cursive writing affects development even in the brain, 3 but we'll find that article and make sure 4 you all get it. 5 6 Let me ask one question, and 7 then Oh and O'Brien. For children who -my issue for many, many, many years, I 8 9 guess since the '80s, has been Ritalin and behavior-altering drugs. It's added 10 11 to it by autism and many other 12 conditions. But given our shortage of 13 nurses and, as you know, Penn and Drexel, 14 we've been talking to them about creating a special program, nurses first and 15 16 counselors second. How does one keep up 17 with children who -- Councilman O'Brien was talking about children who have to 18 take pills during the day so that they're 19 20 ready after school even to do homework. 21 How since we have a shortage of nurses 22 and they're spread all over the City and 23 they may cover three, four, five schools, how do you keep up with medication and 2.4 25 for those who have medical issues and

		Page 111
1	5/26/15 - WHOLE - BILL 150162, etc.	-
2	other issues? How do we deal with that	
3	for our students?	
4	DR. HITE: This is how we are	
5	currently dealing with it, Madam	
6	Co-Chair. The large staffing cuts, as	
7	you indicated, over the past several	
8	years, they've reduced our health	
9	services staff from 283 to 183 today. So	
10	it was 283 in 2011. Today it's 183. And	
11	they're spread among 331 schools, and	
12	those are 218 District schools and 113	
13	private and parochial schools, and they	
14	educate roughly 170,000 children, so to	
15	your point. Our nurse-to-student ratio,	
16	although they're not in every school	
17	every day, is about 1 to 929. That is	
18	well below the state limit. And we're	
19	not suggesting that's good, but it's well	
20	below the state limit of 1 to 1,500.	
21	COUNCILWOMAN BLACKWELL: State	
22	that again. One to?	
23	DR. HITE: One to 929. The	
24	state limit is 1 to 1,500. The national	
25	average is 1 to 1,150. But we allocate	
1		

Page 112 1 5/26/15 - WHOLE - BILL 150162, etc. 2. staff to ensure the ratio stays constant and as low as possible in our District 3 schools, and unfortunately we're unable 4 5 to provide a professional school nurse --6 I mean a nurse in every school every day. 7 On that grounds, that means that more than 90 schools have a full-time health 8 9 service provider and more than one in high disability schools. And to your 10 11 point earlier, children that have 12 specific needs have -- in some cases we have more than one nurse in those 13 14 schools. So it could be a full-time 15 nurse plus a half-time or plus someone 16 just for that child. But many other 17 schools, I would add, usually smaller schools, share staff and have some health 18 services staff on site only one day a 19 week. And so that's where we run into 20 21 many of the difficulties. And this means that it is -- that health service 22 23 providers are not around when students need them the most, because if they get 2.4 25 sick on a Tuesday but the nurse is only

Page 113 1 5/26/15 - WHOLE - BILL 150162, etc. 2. there on Wednesday, it presents a problem, and the challenge at those 3 schools is that it becomes either the 4 5 principal's responsibility or some other 6 adult's responsibility in the school or the schools call 911 as a result of that. 7 And so that's how we are 8 9 dealing with that. And so what we -- so 10 you know that we've recently issued an 11 RFP to determine whether high-quality 12 healthcare provided models or services can help us in these situations, and this 13 14 was a speculative request, because we 15 don't know what's actually out there and 16 what could be made available, and the 17 point of the RFP was to find out and inform the decisions about how we could 18 get more healthcare professionals into 19 20 schools to support the work that many of 2.1 our school nurses are doing. 22 And so that's how we're looking 23 at it moving forward. We don't know what models exist out there that would be 2.4 25 helpful. We would love to be able to use

		Page 114
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	more individuals like the two teaching	
3	hospitals that the teaching	
4	universities that you just described.	
5	So that's kind of where we are	
6	and how we're looking at this issue to	
7	provide more cost-effective ways to	
8	expand coverages in schools.	
9	COUNCILWOMAN BLACKWELL: So is	
10	this RFP still out there, you're waiting	
11	to hear back, or are you evaluating?	
12	DR. HITE: No. We're just	
13	waiting to see what's going to come in on	
14	that. There's been no action on it other	
15	than just to see what's out there and	
16	available.	
17	COUNCILWOMAN BLACKWELL: Thank	
18	you. Will you keep us informed?	
19	DR. HITE: Will do, yes.	
20	COUNCILWOMAN BLACKWELL: Thank	
21	you.	
22	Councilman Oh.	
23	COUNCILMAN OH: Thank you very	
24	much, Chairwoman.	
25	Good afternoon. So I myself	

Page 115 1 5/26/15 - WHOLE - BILL 150162, etc. believe that one of the critical problems 2. of the School District is poor 3 management, and poor management because 4 5 of poor organization, and not because of 6 poor people, just poor management. 7 SRC is a temporary organization. It is not a very logical or intelligent 8 9 organization. It was just created by 10 politicians to stop gap something, and 11 it's been around for 14 years. 12 So could I ask, do you have a 13 transition plan in place, anybody, to 14 transition from the current SRC to a more 15 intelligent, best practices governance 16 structure, management model so that 17 you're not bottlenecked or overwhelmed or unable to look at the details? 18 that -- do you have a five-year plan, 19 20 eight-year plan, ten-year plan of some 21 sorts? 22 CHAIRWOMAN NEFF: If you're 23 referring to the SRC, we certainly would 2.4 engage in a transition plan once we know 25 that a decision has been made as to what

Page 116 1 5/26/15 - WHOLE - BILL 150162, etc. 2. we are transitioning to. If we're returning to local control, is that going 3 to be what presently exists, which is a 4 5 school board appointed by the Mayor, or 6 is there -- there's been a lot of conversation out there about different 8 options. 9 But we're ready and willing to 10 develop a plan since we were a temporary creation, but we need to know what we're 11 transitioning to. Certainly our most 12 important priority is making sure that we 13 14 continue to provide the financial 15 oversight and the governance that's 16 required of us until such time as those 17 elected officials who have that decision-making power come forth with 18 what the plan may be. 19 COUNCILMAN OH: So I have done 20 21 a Charter change bill that the former Chairman, Bill Green, and I reviewed 22 23 after doing a couple years of hearings, 2.4 along with Chairwoman Blackwell, around 25 best practices. Now, the reason I did it

		Page 117
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	is because somebody else didn't do it,	
3	and I figure you guys are the smartest	
4	people to do it. But if you don't do it,	
5	then somebody like me will have to do it,	
6	and I just think the School District,	
7	probably the folks in the School District	
8	are probably the best people to do it.	
9	And I don't think it's a good idea to	
10	wait for the politicians to come up with	
11	an alternative. I think it is a better	
12	idea that the people who have the	
13	expertise in operating schools and	
14	educating kids come up with the best	
15	possible plan. I don't think you have to	
16	wait for people in Harrisburg or the City	
17	of Philadelphia. I think you yourselves	
18	can begin a transition to an entity that	
19	you put in place that you oversee that	
20	will have better management and	
21	governance, better expertise in the	
22	classroom, better management of the	
23	administration, things like that. I	
24	think you can do it, because I think the	
25	problem is when you try to get money and	

Page 118 1 5/26/15 - WHOLE - BILL 150162, etc. support but you haven't made a 2. fundamental change in the problems of 3 educating kids, teaching them to get a 4 job, and ensuring that there are 5 6 appropriate resources in the classroom such as this conversation, it becomes difficult to throw good money after bad 8 9 or an unknown amount of money after 10 another unknown amount of money. I don't 11 know that we can continue to come up with 12 \$100 million, \$40 million, \$70 million in 13 addition to the money that we came up the 14 year before if nobody sees that an expert 15 or some entity with expertise has begun 16 the process of transitioning to a better 17 management model, better governance model, more efficient model. 18 So I do think that although you 19 20 can take the attitude -- not you personally, but anybody -- that you don't 21 22 care where the money comes from as long 23 as we come up with the money, I think it's a lot easier if your staff worked 2.4 25 out beforehand where the money might come

Page 119 1 5/26/15 - WHOLE - BILL 150162, etc. 2. Just a suggestion. And one of the problems that I have is that they lack 3 the creativity in figuring out where the 4 5 money is going to come from in these 6 amounts that we're talking about year 7 after year. So it doesn't seem to be a sustainable model the way it's going. 8 9 The bell has rung, but I'm going to make a couple of suggestions 10 11 just to say. For example, I have talked 12 about the fact that apparently I think 13 the Governor and the Mayor and the 14 Administration have already kind of locked in on the continuation of the PICA 15 16 wage tax, which is 1.54 percent of the 17 wage tax that's currently paid that is due to expire in 2023. I don't know why 18 19 that is. It's supposed to expire. 20 don't know what they're talking about 21 when they talk about a budget hole, but I will find out about that. But I would 22 23 like to suggest that we talk about money 2.4 that Philadelphia sends to the State and 25 keeping more of it. So I would be more

Page 120 1 5/26/15 - WHOLE - BILL 150162, etc. 2. than happy if we talked about -- and you have probably more access to the Governor 3 than I have -- about taking a portion of 4 5 the PICA wage tax, say half, which is 6 about \$75 million per year, and 7 dedicating that to the schools and 8 extending out the PICA wage tax portion, 9 transitioning it to a school tax. would be money that is paid for by people 10 11 who work in and outside of Philadelphia. It would not hurt folks in our 12 neighborhood with a property tax increase 13 14 they can't afford. 15 I would talk about red light 16 cameras, what portion of it goes to the 17 State and back to us. Can we legislate that \$50 off of every hundred go to the 18 schools? I mean, we don't -- I don't 19 20 know how much money of that we see, but 21 all I'm saying is, we should start 22 looking at the money we send to 23 Harrisburg that we're not getting back, 2.4 because we are one of the most taxed 25 cities in America. I don't think we

		Page 121
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	could deal with more taxes, but I'd like	
3	to keep more of our money since it's not	
4	coming here anyway. And there are some	
5	new things that we're doing, energy hub,	
6	LNG, Southport. We could negotiate for	
7	more money for Philadelphia schools.	
8	This is not new money. It's new money	
9	coming in. But you may be in a better	
10	position than us to work with us in the	
11	State to get a new funding stream into	
12	the schools.	
13	Thank you.	
14	CHAIRWOMAN NEFF: May I just	
15	COUNCILMAN OH: Please.	
16	CHAIRWOMAN NEFF: I just wanted	
17	to respond to the issue of governance and	
18	management. We have the SRC doesn't	
19	manage the School District. We govern.	
20	We have an excellent team under Dr.	
21	Hite's leadership that manages the School	
22	District, makes the educational	
23	decisions, but I am looking forward to	
24	seeing what suggestions you have about	
25	the governance aspect of it. Right now	

		Page 122
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	what exists is the SRC and legally there	
3	is the school board appointed by the	
4	Mayor. Any other type of organization	
5	would take legislation that we don't	
6	control.	
7	COUNCILMAN OH: I lost my	
8	microphone. Thank you very much. I will	
9	come and see you. I appreciate that, but	
10	I will say that there are other	
11	governance models and I think all of them	
12	are quite successful historically, and I	
13	think any of them are better than what we	
14	have right now, and I would love to see	
15	that we begin a plan of transitioning to	
16	a better model.	
17	Thank you.	
18	COUNCILWOMAN BLACKWELL: Thank	
19	you.	
20	DR. HITE: May I just	
21	COUNCILWOMAN BLACKWELL: Of	
22	course.	
23	DR. HITE: Madam Chair.	
24	Councilman Oh, I just want to	
25	be I know you were talking about	
1		

Page 123 1 5/26/15 - WHOLE - BILL 150162, etc. 2. governance, but I heard poor management in there, so I feel like I need to 3 respond to that point. And I think it's 4 5 really important to understand that over 6 the past three years, this is the first year that we did not cut from the 8 previous year. And so the last two years 9 of the first two years, everyone will remember unfortunately two years ago what 10 11 our schools and our teachers and our 12 principals and our families and the 13 students had to begin school with. 14 was teachers and a principal primarily. 15 In addition to that, we had 16 unfortunate -- we had to unfortunately 17 close schools and we had to relocate children. But I want to add to the point 18 about management, because we do have now 19 20 systems and processes in place that gives us information about how well we are 2.1 22 doing against some of the metrics. And 23 back to Councilman Jones' questions 2.4 earlier, those are all metrics that we 25 have available. And during the time when

Page 124 1 5/26/15 - WHOLE - BILL 150162, etc. 2. we were also cutting, we now have situations where all of our salaries are 3 online for anyone to see. All of our 4 contracts are online for anyone to see. 5 6 We are looking at investing in new IT systems that will provide for the inventory and management of some of the 8 9 resources that we talked about. But I want to add, this is the 10 11 first year that we've been able to talk 12 about investments, and the investments --13 this is the first year I'm not here 14 saying if we don't get this, we're going 15 to have to cut X, Y, and Z. And that's a 16 nice place to be, and it's thanks to the 17 work that Council has been doing over the past several years, but, I mean, but it's 18 still the need. If I go to a 19 20 neighborhood suburb or neighboring school 21 district, I see things in those schools that I want to see in our schools in 22 23 I want all of our children Philadelphia. 2.4 to have access to a computer or language 25 or technology or art or music, and that

Page 125 1 5/26/15 - WHOLE - BILL 150162, etc. 2. should not be based on what principal is able to offer that. We should be 3 providing it for every single student, 4 and that's what these investments are 5 6 for. And we're delighted that we haven't -- we did not go backwards this year because of the work of City Council, 8 9 but by the same token, we're doing 10 everything to manage what we have and 11 what we're spending and how we operate in 12 those systems so that we can make these critical investments to the classroom. 13 14 COUNCILMAN OH: Let me clarify, 15 and I wanted to let you just continue on 16 because whatever I said, I don't want to 17 be misinterpreted. I'm not saying that you have managed poorly. I'm saying that 18 the structure is a structure that does 19 20 not allow for the best management, and I 21 believe that you have gone as fast and as 22 far as you can on your bicycle, but we 23 need to give you a better vehicle, and if 2.4 you had a better vehicle, I think you could do much better. 25

_		
		Page 126
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	So as I said, I don't have a	
3	problem with the people, but the	
4	structure that you're in I think should	
5	be better to allow you to be more	
6	successful. So I hope that clarifies	
7	that.	
8	DR. HITE: Thank you.	
9	COUNCILMAN OH: Thank you.	
10	COUNCILWOMAN BLACKWELL: Thank	
11	you very much.	
12	What percentage of employees	
13	live outside of the City?	
14	DR. HITE: We don't know the	
15	answer to that, Madam Chair. We can get	
16	that for you.	
17	COUNCILWOMAN BLACKWELL: Thank	
18	you very much.	
19	Councilman O'Brien.	
20	COUNCILMAN O'BRIEN: Thank you,	
21	Madam Chair.	
22	I believe that, as my	
23	colleagues do, that cursive should be	
24	mandatory. Everyone should at least know	
25	the basics of how to read it and sign	

Page 127 1 5/26/15 - WHOLE - BILL 150162, etc. 2. their names in cursive, but sometimes cursive is faster and easier than 3 printing because it saves the step from 4 5 lifting the pencil. Although I'd like to emphasize that for some, I don't think 6 they should have to turn in handwritten 7 papers. If technological options exist, 8 9 that becomes punitive, and grading those that are not amenable to cursive would 10 11 be, I think, a big misstep. 12 The second issue is -- and I 13 don't expect an answer here. I will 14 state that over the last several years, 15 we have 11 percent of the kids. I've 16 said this numerous times. We were cut 30 17 percent. It used to be when I was in 18 Harrisburg for every dollar we put up, they'd give us two. This is the first 19 20 time in my long years of service that for 21 every dollar we put up, they take two 22 away. I have a particular interest, as 23 everyone knows, in kids that learn differently, those with ADHD, dyslexia, 2.4 25 language-processing issues, and autism.

Page 128 1 5/26/15 - WHOLE - BILL 150162, etc. 2. Both populations are exploding. They're underserved. It's not been something 3 that has been realistic to expand those 4 5 services, but I would like in writing, as 6 some of the other Councilpeople have 7 requested, specific plans as to how we're going to move this ball forward. 8 9 unacceptable that we're going to leave these kids behind, because in our 10 11 traditional educational system, you're 12 supposed to learn to read and read to learn, and these kids will never have a 13 14 shot and will end up over in Family Court 15 in juvy hall. 16 The other thing that I can't 17 help myself sometimes -- and I rarely do this -- I watch the House debate in 18 Harrisburg, and only once in a while do I 19 20 feel like interjecting myself in that 21 debate, very rarely, but I'd rather use this forum here as a Councilman at-large 22 to articulate the issues that I think 23 2.4 they have to be better at. But I can't 25 help but recognize that we have former

		Page 129
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Councilman Bill Green in the room, and I	
3	can empathize that if my name were	
4	mentioned specific to the governance of	
5	the School District, that he'd be	
6	probably jumping out of his skin. So I'm	
7	anxious to hear if he has any comments on	
8	the school governance issue.	
9	(Witness approached witness	
10	table.)	
11	COUNCILMAN O'BRIEN: Did I do	
12	that under three minutes? I'll wait for	
13	round two.	
14	COMMISSIONER GREEN: Thank you,	
15	Councilman.	
16	COUNCILMAN NEILSON: Will he	
17	please state his name for the record.	
18	COMMISSIONER GREEN: Madam	
19	Co-Chair, I'm Bill Green, Commissioner on	
20	the School Reform Commission.	
21	I think the most important	
22	thing to remember about governance is	
23	that we have a very unusual situation	
24	that no matter who, whether it's a local	
25	school board appointed by the Mayor or	

Page 130 1 5/26/15 - WHOLE - BILL 150162, etc. any other form of local school board or 2. some different combination of state and 3 local school board, et cetera, as long as 4 the District doesn't control its revenue, 5 6 it really has a governance problem. 7 is fundamentally the governance problem in the School District. If the SRC -- if 8 9 a local school board is relying on other parties - the State, the City - to get an 10 11 allowance to allow it to succeed, it 12 can't succeed. We can't do five-year 13 plans with any -- although Bill has 14 written Action Plan 3.0 with the thought and detail that needs to be included --15 16 I'm sorry. That's not true. Action Plan 17 3.0 has all the thought and detail we need. We need to know what we're going 18 19 to get next year and the year after next 20 and the year after next and the year 21 after next, and as long as we don't have 22 the ability to control that revenue, we 23 can't make the investments next year that 2.4 would come into -- that would help 25 students two years from now, and we can't

Page 131 1 5/26/15 - WHOLE - BILL 150162, etc. 2. make the investments two years from now and planning for those investments 3 without knowing we're going to have the 4 revenue that we need three years from 5 6 now. That's the fundamental flaw in the governance of the School District of It's the fact that it has 8 Philadelphia. 9 to rely on other parties for its revenue. 10 We have great governance. 11 have a terrific Superintendent. Our job 12 is to provide oversight of that 13 Superintendent and his team, not to run 14 the schools, as Chair Neff said. 15 So if you can provide a 16 governance system that gives the ability 17 to do medium and long-term planning, Bill Hite and his team can succeed. 18 If every year he doesn't know what's coming next 19 20 year, how can we make investments this 21 year that depend on having additional 22 dollars next year? That's the kind of 23 change in governance that the School District needs. 2.4 25 Thank you. Thank you,

		Page 132
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Councilman.	
3	COUNCILWOMAN BLACKWELL: Thank	
4	you. Thank you very much.	
5	COUNCILMAN O'BRIEN: Can I just	
6	offer one other observation.	
7	COUNCILWOMAN BLACKWELL:	
8	Councilman O'Brien.	
9	COUNCILMAN O'BRIEN: I would	
10	just like to submit for the record that	
11	Eli Levy is sitting behind me and he's	
12	writing up very, very pointed questions	
13	for me to ask you.	
14	CHAIRWOMAN NEFF: And what you	
15	didn't point out is that Eli is a	
16	Masterman graduate, and we're very proud	
17	of him.	
18	COUNCILWOMAN BLACKWELL: Thank	
19	you very much.	
20	We're on our second round.	
21	Councilman Jones.	
22	COUNCILMAN JONES: Thank you	
23	very much, Madam Chair.	
24	On May 20th, the District,	
25	Mayor Nutter presented Project U-Turn: A	

		Page 133
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Promise Worth Keeping, a report on high	
3	school graduation rates and making	
4	marginal but yet, I think, noteworthy	
5	increases in graduation rates. The	
6	question came to my mind was that there	
7	are diplomas and then certificates of	
8	completion. Can you describe the	
9	difference between the two?	
10	DR. HITE: So you said there	
11	were diplomas and then certificates of	
12	completion?	
13	COUNCILMAN JONES: The School	
14	District issues not diplomas but a second	
15	category called certificate of	
16	completion.	
17	DR. HITE: I'll have Dr. Dickey	
18	come up and talk about the certificate	
19	part.	
20	(Witness approached witness	
21	table.)	
22	COUNCILMAN JONES: And I was	
23	wondering what the difference is. Are	
24	you aware of that?	
25	DR. DICKEY: Yes. In the State	

		Page 134
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	of Maryland, probably consistent with the	
3	State of Pennsylvania, certificates of	
4	completion are given to students who are	
5	not on a graduation track to receive a	
6	Pennsylvania state-certified diploma for	
7	high school graduation. So typically	
8	students who are special needs might	
9	qualify for an alternative path to	
10	graduation or high school completion.	
11	COUNCILMAN JONES: And what	
12	percentage of certificates of completion	
13	versus diplomas do we give out annually?	
14	DR. DICKEY: I'm not certain,	
15	Mr. Councilman, that the State of	
16	Pennsylvania or the School District of	
17	Philadelphia gives out those	
18	certificates. I do know other states do.	
19	COUNCILMAN JONES: Other states	
20	do.	
21	DR. DICKEY: I don't believe	
22	Pennsylvania does.	
23	COUNCILMAN JONES: So that's a	
24	question. Do we?	
25	DR. HITE: I'm looking at Kim	
İ		

		Page 135
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Caputo, who is in so before you come	
3	up, the reason I was looking perplexed,	
4	Councilman Jones, is I don't think I,	
5	like Dr. Dickey, understand and know	
6	Maryland's approach and Virginia's	
7	approach. I thought here in Pennsylvania	
8	certificates were done away with some	
9	time ago that are no longer a part of	
10	what children would have as a graduation	
11	requirement. So I may be I may stand	
12	corrected, but I was under the impression	
13	that we were no longer doing that here in	
14	Pennsylvania.	
15	(Witness approached witness	
16	table.)	
17	MS. CAPUTO: That is correct.	
18	COUNCILMAN JONES: Say your	
19	name.	
20	MS. CAPUTO: I'm sorry.	
21	Kimberly Caputo. I'm the Deputy for the	
22	Office of Specialized Services for the	
23	School District.	
24	With respect to special needs	
25	students, all special needs students in	

		Page 136
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	the School District of Philadelphia as	
3	well as in the Commonwealth receive a	
4	high school-issued diploma consistent	
5	with their non-disabled peers. They do,	
6	however, have the right to garner that	
7	diploma through alternative means,	
8	meaning they may accumulate credits.	
9	However, they may also attain the age of	
10	21, in which case their educational	
11	secondary experience legally comes to an	
12	end.	
13	The third way that a student	
14	with special needs in Philadelphia would	
15	garner a high school diploma is because	
16	he or she has attained her IEP goals.	
17	COUNCILMAN JONES: So question	
18	again, what percentage of the students	
19	that find their way completing the public	
20	school experience have certificates	
21	versus full diplomas? Do we still give	
22	them out?	
23	DR. HITE: All will have	
24	diplomas now.	
25	COUNCILMAN JONES: All right.	
Ī		

Page 137 1 5/26/15 - WHOLE - BILL 150162, etc. 2. Okay. DR. HITE: Now, the 3 certificates that Mr. Kipphut was talking 4 5 about earlier, those are certifications 6 in career and technical education fields. 7 COUNCILMAN JONES: I'm familiar with those. 8 9 DR. HITE: Okay. 10 COUNCILMAN JONES: Just a 11 separate category. 12 And so the question becomes -my colleagues, not one but several, fight 13 14 aggressively for special needs students. 15 Define special needs as you relate to --16 I know how they define them. How do you 17 categorize students as special needs within your school system, and what is 18 the range or spectrum of special needs? 19 20 MS. CAPUTO: Thank you for that 21 question. A student with special needs in the Philadelphia School District is a 22 23 student who is eligible as having one of a series of disabilities that are 2.4 25 federally and state defined as well as --

		Page	138
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	and it's a two-prong analysis they		
3	must, as a result of that disability,		
4	require specially designed instruction,		
5	which is instruction through a special		
6	education teacher. The disabilities, as		
7	your colleagues have accurately expressed		
8	to you, range dramatically. Students can		
9	be in need of speech language support,		
10	for example. They may have no cognitive		
11	impairment. They may have no emotional		
12	impairment. However, that continuum is		
13	quite large, and students who are more		
14	involved include students with		
15	intellectual disability, cognitive		
16	impairment, as well as students with		
17	significant behavioral compromises or		
18	challenges in regulating behavior and		
19	autism. In the School District of		
20	Philadelphia, our largest percentage of		
21	students with disabilities are those		
22	students identified as a specific		
23	learning disability.		
24	COUNCILMAN JONES: So what is		
25	the percentage of the population of		

		1
		Page 139
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	students that are classified as special	
3	needs?	
4	MS. CAPUTO: Right now our	
5	official child count hovers close to 14	
6	percent or approximately 19,000 students.	
7	COUNCILMAN JONES: And does	
8	that special needs population vary from	
9	school to school?	
10	MS. CAPUTO: Yes, it does, sir.	
11	Ranges in percentage can be as low as 3	
12	to 4 percent and in certain schools,	
13	generally comprehensive high schools,	
14	because the feeder patterns shrink down	
15	from multiple elementary schools,	
16	multiple middle schools oftentimes into	
17	one comprehensive high school, those	
18	schools may be responsible for	
19	programming upwards of 20 to 25 percent.	
20	COUNCILMAN JONES: So what	
21	would you consider a low end of the	
22	spectrum of population in a school? What	
23	is the medium and then what is high?	
24	MS. CAPUTO: The national	
25	and well, across the Commonwealth, the	
1		

		Page	140
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	average population in the District is		
3	between 12 and 14 percent. So		
4	Philadelphia is definitely in that range.		
5	Schools frankly, it depends. It's not		
6	really a question of the percentage of		
7	students with disabilities. It's more		
8	what are the needs and the programming		
9	requirements for that child. So a		
10	population of students with significant		
11	cognitive delays may be much more in need		
12	of services than a population of students		
13	with only speech language delays. So the		
14	disability breakdown and the programming		
15	needs breakdown is something that we are		
16	looking and we continue to look very		
17	strategically at, because that drives the		
18	support and resources. Percentage is		
19	important, but peeling back the onion,		
20	the programming type is really what you		
21	have to focus on.		
22	COUNCILMAN JONES: So a school		
23	that has a, quote, high percentage of		
24	special needs, are they evaluated		
25	differently based on that particular		

Page 141 1 5/26/15 - WHOLE - BILL 150162, etc. 2. population and them addressing their needs or is it just across the board no 3 matter whether it's a low percentage or 4 5 high percentage, one size fits all? 6 DR. HITE: No. We look at the number of students that are in those 7 categories, Councilman, and all of those 8 9 things are taken into consideration. it's based on -- how we evaluate schools 10 11 are based on several factors. 12 growth, how much have students moved from 13 where they started. Another is climate. 14 That includes attendance and some of the other factors, like satisfaction. 15 16 Another one is equity and really looking 17 at who is the lowest performing and how much they move. And then in some of our 18 high schools, it's actually college. 19 20 College preparedness and college 21 persistence are part of those. So it's the absolute achievement and it's the 22 23 growth and achievement that we look at. And then most of our -- most of the way 2.4 25 we evaluate is based on growth. That's

_		
		Page 142
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	the highest factor.	
3	COUNCILMAN JONES: What is the	
4	range of reimbursement from the	
5	Commonwealth for special needs students?	
6	Is there a range by way of or is it so	
7	if a school applies for money, is the	
8	percentage of the budget based on an	
9	individual student that is classified as	
10	special needs by way of monetary	
11	resources to the schools?	
12	MS. CAPUTO: Yes.	
13	CHAIRWOMAN NEFF: But are you	
14	asking whether the disability factors	
15	into that	
16	COUNCILMAN JONES: Yes.	
17	CHAIRWOMAN NEFF: amount of	
18	money? No, it does not. It's a flat	
19	amount of money, per-pupil allocation	
20	regardless of the disability, and that	
21	has been one of our from the State.	
22	COUNCILMAN JONES: So my	
23	question is, does the State reimburse	
24	differently for non-special needs	
25	students versus special needs students?	

		Page 143
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	That's my question.	
3	MS. CAPUTO: We are required,	
4	as is every district in the Commonwealth,	
5	to undertake what is called an official	
6	child count, and we do that. That count	
7	is, are you disabled, are you eligible	
8	under IDEA only. There is no further	
9	analysis, regrettably in my opinion, as	
10	to the nature of the disability. So	
11	there is only a per student	
12	COUNCILMAN JONES: So if three	
13	students are in a room, one has special	
14	needs, the other does not, do they get	
15	the same amount of appropriation from the	
16	State, is my question.	
17	MS. CAPUTO: That special	
18	education student is counted separately.	
19	COUNCILMAN JONES: So how much	
20	do we receive for special needs students	
21	versus	
22	MR. STANSKI: So we spend	
23	nearly \$300 million a year on special	
24	needs students. We only get from the	
25	State about \$139 million in	

		Page 144
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILMAN JONES: Versus?	
3	MR. STANSKI: Versus yes.	
4	And then to be clear on the basic	
5	education side, one of the issues with	
6	State funding is, they don't fund us per	
7	student. It's a block grant.	
8	COUNCILMAN JONES: It's a	
9	formula.	
10	MR. STANSKI: No. It's not	
11	even a formula. It's a block grant based	
12	on what you got the prior year and either	
13	add it or take it away.	
14	COUNCILMAN JONES: So based on	
15	the percentage up or down, they factor	
16	that in a block grant?	
17	MR. STANSKI: Yeah. Correct.	
18	They don't factor enrollment in the block	
19	grant, period, for general education	
20	students. For special ed, they do, on	
21	the number of students for special ed,	
22	but on the general ed side, it is a block	
23	grant. So for a district, let's say,	
24	like Pittsburgh that has lost enrollment	
25	over the last four or five years, they	

		Page 145
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	have benefited tremendously from how the	
3	state funds schools. A school district	
4	like Philadelphia	
5	COUNCILMAN JONES: So the	
6	formula needs to be tweaked to	
7	acknowledge the special needs population.	
8	MR. STANSKI: And all	
9	different well, one, a formula needs	
10	to exist and, two, yes, it needs to take	
11	into account special needs, poverty, ELL,	
12	all these factors that the Basic Ed	
13	Commission is going through right now.	
14	COUNCILMAN JONES: I'm going to	
15	hold, Madam Chair, and pray that the	
16	State creates a formula for us that makes	
17	sense that adequately reimbursed for the	
18	amount of expenditures that we're doing	
19	for special needs. And not just special	
20	needs, but children that have issues	
21	related to poverty that are particularly	
22	daunting. And so we're hoping that a	
23	fair formula actually comes from Governor	
24	Wolf's administration and the respective	
25	legislatures.	

	Page 146
1	5/26/15 - WHOLE - BILL 150162, etc.
2	Thank you, Madam Chair.
3	COUNCILWOMAN BLACKWELL: Thank
4	you.
5	Councilman Neilson.
6	COUNCILMAN NEILSON: Thank you,
7	Madam Chair.
8	And thank you, Dr. Hite and
9	Madam Chair, for sticking around. I know
10	it's a tough one.
11	Yes or no, are you planning on
12	closing any Philadelphia public schools
13	this year?
14	DR. HITE: No. Closing any
15	Philadelphia public schools this year?
16	COUNCILMAN NEILSON: That's
17	correct.
18	DR. HITE: No.
19	COUNCILMAN NEILSON: And in the
20	next fiscal year?
21	DR. HITE: There is a merger of
22	two schools that are in one building. So
23	it's Kensington Urban and Kensington
24	Business. So those two populations will
25	come together as one school. So that

Page 147 1 5/26/15 - WHOLE - BILL 150162, etc. 2. officially counts as a closure, but those students will still remain in the schools 3 as well as the staff. 4 5 COUNCILMAN NEILSON: No 6 additional closures? 7 DR. HITE: No, sir. 8 COUNCILMAN NEILSON: Can you 9 tell me the difference between a child and the resources spent on that child, 10 the difference between a child going to 11 Masterman, Dobbins or Lincoln High 12 School. 13 14 Here's where I'm coming from, 15 Dr. Hite. Lincoln High School is my alma 16 mater, as you know. We've had plenty of 17 conversations on it. And in your slide show presentation, you talked about 18 resources and enrollment and how much is 19 20 spent on that investment, and you used 21 some examples. You used examples like 22 Saul, who has 502 students in it, and 23 then Dobbins has 604, but yet Saul gets 2.4 more resources, more money than Dobbins 25 does.

		Page 148
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	No child in the City is more	
3	special than another. So if we spend	
4	\$30,000 per child, shouldn't that school	
5	get allotted if that kid goes if it's	
6	\$30,000 I understand you have special	
7	needs and more resources, but I also know	
8	that every child doesn't get to go to	
9	Masterman, Madam Chair, as you know. I'm	
10	going to venture to say since Masterman	
11	has been created, there's been one or two	
12	children accepted to Masterman High	
13	School that didn't go through all through	
14	grade school. That's a pretty fair	
15	statement?	
16	CHAIRWOMAN NEFF: Yes.	
17	COUNCILMAN NEILSON: Whether	
18	they were qualified, more qualified than	
19	those within, they didn't get that	
20	opportunity. So Masterman isn't an	
21	opportunity.	
22	We talk about investment in	
23	more AP courses in here. Masterman kids	
24	aren't more special than my five kids or	
25	anybody else's kids. Budget allocation	
I		

Page 149
WHOLE - BILL 150162, etc.
s there a per child set
nat we can mark inside
cause I'm seeing Saul is not
d or Dobbins isn't getting
ood as Saul is. I mean, the
that you provided to us today
n a fact. I mean, Saul gets
less teachers, more money,
s, less aides, less
I mean, this is what you
Saul gets \$455,000 a year,
s only gets 421, except
102 more students. I don't
ow this happens and I'd like
n to this Council and to the
what makes one kid more
an another kid where you
equal dollars across the
ch child in this Commonwealth
City.
oplause.)
STANSKI: I'll address how
overall, but it does
ing factors depending on the

_		Page 150
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	population that those schools are	
3	serving. So you've mentioned some	
4	special education and, again, depending	
5	on the poverty of the school, they could	
6	receive a lot more Title I dollars than,	
7	let's say, another school. Also, it also	
8	depends on the type of programming that	
9	those schools offer or that the District	
10	funds.	
11	COUNCILMAN NEILSON: I'm going	
12	to stop you right there for a sec,	
13	because when I went to public school I	
14	went to Lincoln High School I could	
15	take auto mechanics, I could take wood	
16	shop, I could take electrical shop, which	
17	I did. I became an electrician and now	
18	the Councilperson. That was all	
19	available. That stuff is not available.	
20	If you cut resources you don't even	
21	have music in our schools available to	
22	everybody. Okay?	
23	So what makes one kid more	
24	important? I understand the special	
25	needs end. This isn't what's reflected	

		Page 151
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	in here. How much per child do we spend	
3	on a regular normal everyday kid and are	
4	those schools allocated those dollars?	
5	Take the Title I money out of it. Take	
6	the Title I money out of it because	
7	that's special needs. That's special,	
8	that's poverty, and that's what they get,	
9	because we talked about the Title I money	
10	in my office the other day. Dr. Hite was	
11	very good on his explanation. I	
12	understand that. Take that Title I money	
13	out of it. If every kid is it 10,000	
14	a kid, is it 20,000 a kid? What's that	
15	number, and do those schools have the	
16	resources by the amount of kids they	
17	have? Because I'm going to venture to	
18	say just by what you presented here today	
19	that's not the case, and it's not fair.	
20	Our kids, no matter what neighborhood	
21	they live in, they deserve an education.	
22	It's their right.	
23	(Applause.)	
24	DR. HITE: Yes. And I couldn't	
25	agree with you more, Councilman. And I	

		Page 152
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	would also add that we'll talk we	
3	spend on average about 8,000 per child.	
4	So that's number one.	
5	So you mentioned two specific	
6	programs, and I think it's really	
7	important here to talk about the program	
8	distinctions at these two schools. So	
9	you know that both our one is an	
10	agriculture school. One is a CTE school.	
11	They're both technically CTE schools, but	
12	the cost of the programs at Saul because	
13	of the type of school it is and they	
14	create dairy products, they milk cows,	
15	they do all types of things	
16	COUNCILMAN NEILSON:	
17	Understood, Dr. Hite. Maybe I used a bad	
18	example. So I'll use a different example	
19	that you gave us. Let's talk about	
20	Swenson Arts and Technology and Dobbins,	
21	which are pretty close, right? Would you	
22	agree with that statement?	
23	DR. HITE: Yes.	
24	COUNCILMAN NEILSON: So there's	
25	still the difference. I don't get it.	

Page 153 1 5/26/15 - WHOLE - BILL 150162, etc. 2. Dobbins has 604 kids and Swenson, they only go 10th, 11th, and 12th, right? We 3 know that. And they have 681, according 4 5 to your numbers. There's still \$100,000 6 difference in spending and the same programming, same everything. It's just showing me -- what I'm seeing here is an 8 9 unbalanced, unfair formula that's placed on our children an unfair burden and each 10 11 kid is not getting treated fairly. 12 DR. HITE: And, Councilman, I'll just add that we would have to break 13 14 this out further by programs so that you would see the distinctions in the 15 16 programs at these two schools. You're 17 right, Swenson and Dobbins are closer in terms of the programs they offer, but 18 once again, there's automotive at Swenson 19 20 that's pretty significant and then the 21 other programs are the same at those two 22 schools, like both have culinary arts. 23 think fashion is at both. But the big distinction with the two that you just 2.4 25 described was, Swenson has a gigantic

Page 154 1 5/26/15 - WHOLE - BILL 150162, etc. 2. automotive program that does auto body, auto mechanics, and the costs associated 3 with those programs are very different in 4 terms of where children -- the costs 5 6 associated with that program and, let's 7 say, a fashion or culinary arts program 8 are pretty extraordinary. 9 COUNCILMAN NEILSON: All right. 10 In your testimony you've asked for 11 additional dollars for AP courses to make 12 them accessible to 100 percent of 13 students. What percentage of students in 14 Philadelphia do not have the 15 accessibility to take AP courses in high school? We're talking about educating 16 17 our kids and you need more money to do How many don't have any access to 18 that. that? 19 20 DR. HITE: Yeah. There's a 21 whole other data set that provides that. 22 It's a couple of things that we will have 23 to do to get up to making sure all children have AP. First is the PSAT. 2.4 So 25 having all children take the PSAT is

		Page 155
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	extremely important. From the PSAT,	
3	college board identifies children with AP	
4	potential. And right now we have	
5	children in 19 schools that have AP	
6	potential, but those schools no longer	
7	offer an AP class because those classes	
8	were much smaller. So we would have at	
9	least at those 19, additional 19 schools	
10	at least, some AP classes. And so I'd	
11	have to get you the exact percentages,	
12	but now it's designed by school. And we	
13	have children who have potential from	
14	taking the PSAT, although every child	
15	didn't take the PSAT, but who are sitting	
16	in comprehensive high schools without	
17	access to an AP class.	
18	COUNCILMAN NEILSON: So as an	
19	administration, what are you doing to	
20	correct that? Instead of throwing more	
21	funding at it, if I had a kid in	
22	Frankford High School that was more	
23	qualified to go to Masterman High School	
24	than some of the kids in there, would you	
25	not replace that kid and put that kid and	
1		

		Page 156
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	give that kid that opportunity?	
3	DR. HITE: Yeah. I mean, what	
4	we want is to provide all children with	
5	opportunities where they are in school.	
6	I mean, and if in fact that's why we	
7	should have AP classes at every high	
8	school, and it is a it does become a	
9	resource, because when we declined in	
10	revenue, it's when many of these schools	
11	cut their AP class simply because there	
12	were smaller numbers. I think Masterman	
13	used to have quite a few and went down to	
14	one or two.	
15	CHAIRWOMAN NEFF: No. What	
16	Masterman did was, the optimum size for	
17	an advanced placement class is 17	
18	students. Many of the Masterman classes,	
19	AP classes, presently are running at 30	
20	students in a class and sometimes 33.	
21	Those teachers willing to take on that	
22	responsibility in order to make sure	
23	and, yes, Masterman did cut any AP class	
24	where there weren't enough students to be	
25	able to warrant the expense. We had to	

		Page	157
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	cut.		
3	DR. HITE: And, Councilman		
4	CHAIRWOMAN NEFF: And there's		
5	no extra money given in school budgets		
6	for advanced placement classes.		
7	DR. HITE: Councilman, I want		
8	to respond to the last part of your		
9	question, what is the administration		
10	doing. One of the things that we did at		
11	the last SRC meeting was approve a		
12	resolution to look for blended learning		
13	opportunities that include AP so that if		
14	children have AP potential from five		
15	different high schools, they have a way		
16	to connect with a professional teacher		
17	and that teacher can walk those children		
18	through that content. So that's one of		
19	the things that we're planning to do next		
20	year.		
21	COUNCILMAN NEILSON: Thank you.		
22	And last question, if I can, Madam Chair,		
23	and then I'll be done for the day, I		
24	think, depending upon how they answer		
25	everybody else's question.		

Page 158 1 5/26/15 - WHOLE - BILL 150162, etc. 2. In your testimony you talked about a positive school climate program, 3 that you need money for that. Can you 4 5 tell us what that is? I've never heard 6 of a positive school climate program. 7 It's in your testimony that you need more money for that, and then I'll end with 8 9 this one. 10 DR. HITE: A couple of things. 11 I'll name three examples, and one is a 12 program that is used in many of the 13 elementary schools. It's called Positive 14 Behavior and Intervention, PBIS. It's a 15 program that does -- it's around conflict 16 resolution. There is also a high school 17 equivalent to that program. It's called 18 Restorative Practices. That is a program where individuals come in, work with 19 staff, work with the students, and the 20 Restorative Practices then create 21 22 different types of climates in the 23 school. 2.4 And so those programs have 25 costs associated with them and putting

		Page 159
1	5/26/15 - WHOLE - BILL 150162, etc.	raye 139
2	them in more schools would require	
3	additional revenue.	
4	In addition, though, I will	
5	add and this goes back to the earlier	
6	question, I think, from Councilman	
7	Jones while we were talking about	
8	children with special needs, there's	
9	another whole category of children who	
10	are dealing with dramatic situations that	
11	also need some support. And so those are	
12	programs that we would like like the	
13	recognition of trauma in classes and	
14	teaching individuals to recognize so they	
15	can match children up to services becomes	
16	really important.	
17	COUNCILMAN NEILSON: Yes. Most	
18	of that comes from the state and federal	
19	government, correct?	
20	DR. HITE: Correct.	
21	COUNCILMAN NEILSON: That's	
22	part of that \$75 million that Behavioral	
23	Health and all invest in the schools? So	
24	those services already should be	
25	provided?	

		Dago 160
-	F/06/1F MIOLE DITT 150160	Page 160
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	MR. STANSKI: In-kind, not	
3	cash.	
4	COUNCILMAN NEILSON: In their	
5	budget, 75 million, which was \$600,000 a	
6	school. I mean, it is what it is.	
7	That's what they say they do for you.	
8	They invest \$75 million for those	
9	services in each school. So just on	
10	average, that's \$600,000, and that's	
11	where that money comes from. So you're	
12	asking for additional services to do	
13	that? Is that from them or from us? I	
14	mean, the positive school climate	
15	program, much of that has to do with	
16	Behavioral Health and stuff like that,	
17	and they spend \$600,000 a year per school	
18	on average, 103 schools. It's about	
19	583,000. Don't they provide that service	
20	to the	
21	DR. HITE: No, sir.	
22	Councilman, the positive behavior	
23	intervention is a stand-alone program	
24	where individuals at the school are	
25	trained on how they do that from the	

		Page	161
1	5/26/15 - WHOLE - BILL 150162, etc.	5	
2	entity called by PBIS. That's not		
3	COUNCILMAN NEILSON: Nothing to		
4	do with that?		
5	DR. HITE: That's not DHS.		
6	DHS, though, do offer services through		
7	some of the social work support that is		
8	in many of our schools. All schools are		
9	assigned to a community umbrella agency.		
10	And so they all and they plan together		
11	actually so that they can get services to		
12	those children and to their families.		
13	That's how those monies come to the		
14	District. We don't that's not a		
15	budget item that we recognize, simply		
16	because it's an in-kind service.		
17	COUNCILMAN NEILSON: In-kind.		
18	Thank you. Thank you, Madam Chairman,		
19	and thank you, Dr. Hite and Madam Chair,		
20	for your testimony today.		
21	COUNCIL PRESIDENT CLARKE:		
22	Thank you, Councilman.		
23	The Chair recognizes Councilman		
24	Goode.		
25	COUNCILMAN GOODE: Thank you,		

		Page 162
1	5/26/15 - WHOLE - BILL 150162, etc.	1430 102
2	Mr. President.	
3	Good afternoon. We talked	
4	about some of the tools in the PCCY	
5	toolbox because we realize that every	
6	year we'll need not just more money but a	
7	whole lot more money. One of the things	
8	that was not discussed within there is	
9	tax increment financing, and we are about	
10	to consider the Gallery TIF project.	
11	Without getting into a debate about TIFs	
12	as an economic development tool or	
13	whether the School District should ever	
14	approve of a TIF, the first question is	
15	simply how much money is going to that	
16	project rather than going to schools?	
17	MR. STANSKI: It's about \$35	
18	million in, I would say, deferred revenue	
19	collections.	
20	COUNCILMAN GOODE: And who	
21	makes the decision of whether to give	
22	that money up and how is that decision	
23	made?	
24	MR. STANSKI: The SRC votes on	
25	it.	

		Page 163
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILMAN GOODE: Is it based	
3	upon a staff recommendation? I mean,	
4	someone drafts a resolution, so who makes	
5	the decision?	
6	MR. STANSKI: The SRC makes the	
7	decision. The resolution is drafted by	
8	the Administration.	
9	COUNCILMAN GOODE: So who made	
10	the decision?	
11	MR. STANSKI: The SRC voted to	
12	make the decision.	
13	COUNCILMAN GOODE: I understand	
14	that. Who made the decision to recommend	
15	it?	
16	MR. STANSKI: Oh,	
17	Administration.	
18	COUNCILMAN GOODE: So how much	
19	money is going to be made off the project	
20	in terms of profit?	
21	MR. STANSKI: Did not discuss	
22	profit margins.	
23	COUNCILMAN GOODE: You did not	
24	discuss how much money is going to be	
25	made by the	

Page 164 1 5/26/15 - WHOLE - BILL 150162, etc. 2. MR. STANSKI: What we discussed is how much increase in use and occupancy 3 tax and liquor tax we would get from the 4 5 project, and balancing that against real estate revenue that would be deferred for 6 7 20 years, we made a decision to recommend approval and the SRC voted to approve it. 8 9 COUNCILMAN GOODE: So, one, you 10 don't know how much profit is coming from 11 the project, which I'm not overly 12 concerned with. Did you ask for any of the profit? 13 14 MR. STANSKI: Did I ask -- I'm 15 sorry. What? 16 COUNCILMAN GOODE: Did you ask 17 for any of the profit? Did you ask for any money? Let's say we forgive the 18 taxes. Did you ask for any money? 19 20 MR. STANSKI: Yeah. Well, the 21 original proposal had us giving up both 22 real estate and use and occupancy taxes. 23 We pushed back on the City, and the City came back with just -- the TIF portion 2.4 25 just being the real estate, and the

		Page 165
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	District could begin collecting the new	
3	use and occupancy taxes once that	
4	development was	
5	COUNCILMAN GOODE: So how much	
б	money did you get from pushing back?	
7	MR. STANSKI: We're looking to	
8	get 126 million over the 20 years in new	
9	revenue.	
10	COUNCILMAN GOODE: Okay. And	
11	so what else was put on the table in	
12	terms of negotiation, or you simply asked	
13	for that and you got it?	
14	MR. STANSKI: That's what we	
15	asked for and yeah. So liquor tax is	
16	going to be new. It's not in the TIF.	
17	The U&O is not in the TIF. Obviously we	
18	asked could it be done without any School	
19	District taxes in it. The City	
20	Administration's recommendation was it	
21	could not.	
22	COUNCILMAN GOODE: That's the	
23	next question, is how can all the sudden	
24	they require that in the form of a TIF to	
25	pay for the project, then you push back	
1		

		Page 166
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	and then they don't need it?	
3	MR. STANSKI: We pushed back.	
4	They came back with an alternate	
5	recommendation, but the recommendation	
6	was they could not move forward with the	
7	project without at least the real estate	
8	portion.	
9	COUNCILMAN GOODE: That's what	
10	they said with the original proposal;	
11	isn't that correct?	
12	MR. STANSKI: No, that's not	
13	what they said in the original proposal.	
14	COUNCILMAN GOODE: So you	
15	didn't push back?	
16	MR. STANSKI: No. The original	
17	proposal had both the U&O and real	
18	estate.	
19	COUNCILMAN GOODE: And they	
20	said they couldn't pay for the project	
21	without	
22	MR. STANSKI: They couldn't pay	
23	for the project without a TIF, period.	
24	What was in the TIF or out of the TIF we	
25	discussed, we pushed back. We were able	

		Page 167
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	to get the U&O out of the TIF.	
3	COUNCILMAN GOODE: Did you get	
4	something extra out of it or not?	
5	Explain to me how you did. Because the	
6	point I'm trying to make is simply	
7	that	
8	MR. STANSKI: We are going to	
9	recognize liquor taxes and use and	
10	occupancy taxes that we would not have	
11	over the next 20 years.	
12	COUNCILMAN GOODE: And is that	
13	the original proposal that was given to	
14	you?	
15	MR. STANSKI: No. The original	
16	proposal that was given to us had	
17	COUNCILMAN GOODE: So they	
18	didn't need that to pay for the project.	
19	MR. STANSKI: They went back	
20	and looked at the financing. You'd have	
21	to talk to the folks at the Redevelopment	
22	Authority specifically. They went back,	
23	talked to the developers. They came back	
24	with an alternate proposal that had real	
25	estate only in the TIF.	

		Page 168
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCILMAN GOODE: I mean, I'll	
3	accept it, but obviously if they didn't	
4	need all of the tax revenue to pay for	
5	the project, I'm not going to say whether	
6	you got a good deal or didn't get a good	
7	deal, but you should have a TIF policy	
8	that's probably better than the one you	
9	have right now.	
10	Thank you, Mr. Chairman.	
11	COUNCIL PRESIDENT CLARKE:	
12	Thank you, Councilman.	
13	The Chair recognizes	
14	Councilwoman Brown.	
15	COUNCILWOMAN BROWN: Back to	
16	the issue of students with disabilities.	
17	I want to know how many times does a	
18	student have to have an IEP before the	
19	District makes the decision that we	
20	cannot service this child and we need to	
21	in fact refer this child or recommend	
22	that this child be moved to sometimes in	
23	City, sometimes in an out-of-City	
24	educational institution that can better	
25	serve that child?	

		Page 169
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	(Witnesses approached witness	
3	table.)	
4	DR. HITE: Yeah. And having	
5	Kim and Donyall come up, but before they	
6	respond, in the child's IEP there are	
7	objectives, learning objectives and	
8	behavior objectives, that the child will	
9	either meet or not meet, and then we	
10	do if they're meeting them, that's	
11	great. If they're not meeting the goals,	
12	then we will adjust the IEP so that we	
13	either get the right staff, the right	
14	support or the right placement for that	
15	young person. But I'll have Kim and	
16	Donyall talk specifically about how many	
17	times before.	
18	COUNCILWOMAN BROWN: Okay.	
19	Hold up. Because I want to get to a	
20	student that I brought to the attention	
21	of the District now for three years	
22	and I'm struggling to put this on the	
23	record because it's clear to me that	
24	there was a shift or a change in	
25	professionals that deal with the office	

		Page 170
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	of children with special needs, and we	
3	know always when that happens, the	
4	child's circumstance gets delayed again.	
5	This is an African American boy who has	
6	been in the system. I was trying to get	
7	a handle on the grade he's in, but he's	
8	had at least a dozen IEPs, and that's a	
9	mild exaggeration, but it's unacceptable	
10	that I have to bring this student to the	
11	attention again. I know that Dr. Hite	
12	looked into it, and there's a cog in the	
13	wheel either at the District level or at	
14	the school level where I myself had	
15	looked at this child's homework to see	
16	what's not happening in the classroom,	
17	and it's wrong. And I need to know today	
18	where the District is on this particular	
19	student, because the parent is at her	
20	wit's end. She does not want her child,	
21	who has autism, to become a candidate for	
22	jail.	
23	MS. CAPUTO: I'm certainly I	
24	will certainly take the specifics from	
25	you with respect to that individual	

		Page 171
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	student.	
3	COUNCILWOMAN BROWN: How long	
4	have you been in your capacity?	
5	MS. CAPUTO: I've been the	
6	Deputy since May of 2013, ma'am.	
7	COUNCILWOMAN BROWN: Then	
8	you're well aware of this kid. So my	
9	staff will speak to you off the record.	
10	MS. CAPUTO: That's fine.	
11	COUNCILWOMAN BROWN: And today	
12	I want to know the status of this kid,	
13	because another school year is over and	
14	we're still grappling with the appearance	
15	that the School District is not willing	
16	to say we can't help this African	
17	American boy who has autism, and we need	
18	to follow the recommendations of others	
19	who have taken a gazillion tests so that	
20	this child can be placed before they go	
21	to grade in September.	
22	MS. CAPUTO: I'm happy to	
23	assist in any way that I can, ma'am.	
24	COUNCILWOMAN BROWN: I've heard	
25	that before too. So I'm a lot unhappy	

Page 172 1 5/26/15 - WHOLE - BILL 150162, etc. 2. about it, because this is the third year I've put it on the record. So my staff 3 will speak to you off the record about 4 5 who that child is so that this parent is 6 not struggling again for another entire academic year for an African American young man who is not handled with, given 8 9 the tools and skill sets that he needs, will end up a candidate for jail. 10 11 wrong. I will say that that child is at Chester A. Arthur School. 12 If we could speak to this issue 13 14 of -- in the last election, voting 15 dropped to 21 percent. In some of our 16 suburban schools, before young people can 17 graduate, they have to be at least registered to vote. And so I was struck 18 on Election Day that a number of 19 20 18-year-olds called my daughter to say, 21 Where do I go to vote. So the question 22 is, what is happening in the schools 23 around civics? Is there some process by 2.4 where children can indeed register by the 25 time they graduate? Because it's clear

Page 173 1 5/26/15 - WHOLE - BILL 150162, etc. 2. that if we don't capture their attention on the value of the civic duty before 3 12th grade, then they're struggling with 4 what to do once they turn 18 years old so 5 6 that they can participate. So what's happening right now in the schools around civics? 8 9 CHAIRWOMAN NEFF: I know that 10 as a part of the government and economics 11 course that all seniors take, that teachers do make an effort in different 12 ways depending on the school to assist 13 14 children with registering to vote. 15 COUNCILWOMAN BROWN: So I need 16 to know what that means, teachers make an 17 effort. When I was at Girls' High, we had to be registered to vote before we 18 graduated. So I need to know what 19 20 tangible specific directives are given to students to help them understand that 21 22 folks died so that we can have the right 23 to vote. 2.4 DR. DICKEY: We're in the 25 process now, Councilwoman, of -- when I

Page 174 1 5/26/15 - WHOLE - BILL 150162, etc. 2. came into this role as Chief of Academic Support about a year ago, I began to 3 work -- my team, we began the work of 4 5 developing the scope and sequence for all content area, including social studies 6 7 where civics lies. And this school year 8 we were very successful -- I'm giving you 9 a bit of context to answer your question. COUNCILWOMAN BROWN: 10 Sure. 11 DR. DICKEY: This school year 12 we were very successful in, one, developing and implementing, rolling out 13 14 to teachers K-12 a brand new scope and 15 sequence that's aligned to the PA Common 16 Core Standards for English -- reading and English grades K-12. We did the same for 17 mathematics grades K through algebra 1, 18 and we have a Google Analytics tool that 19 20 is attached to our curriculum engine that is online. Teachers can access it from 21 22 anywhere to help them plan their lessons 23 for the upcoming day, month, week, year. 2.4 And we're proud to say that between, I 25 believe, the month of January and the end

		Page 175
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	of April that we had 197,000 unique hits	
3	to the curriculum engine.	
4	COUNCILWOMAN BROWN: A hundred	
5	and	
6	DR. DICKEY: A hundred and	
7	ninety-seven thousand unique hits, which	
8	means	
9	COUNCILWOMAN BROWN: Unique	
10	hits?	
11	DR. DICKEY: Yes, ma'am. And	
12	that's technical language for 197,000	
13	different times one of our teachers, one	
14	or more of our teachers went to the	
15	curriculum engine to access the content	
16	necessary to teach the expectation of the	
17	standards. So that's really good news.	
18	COUNCILWOMAN BROWN: Okay.	
19	DR. DICKEY: Now, from that,	
20	because we couldn't do everything first,	
21	from that, we learned, one, that the	
22	product that we were providing to teach	
23	the expectation of the PA Common Core	
24	Standards is useful to the field. So	
25	teachers are telling us that it is useful	

		Page	176
1	5/26/15 _ WUOLE _ DILL 150162 _ 0+0	raye	1/0
	5/26/15 - WHOLE - BILL 150162, etc.		
2	to them in the development of their		
3	instruction.		
4	So let's say the students have		
5	to do something really complicated in 9th		
6	grade, likeand this is civics. This		
7	ties into civics, because the English		
8	standards, they are they embed		
9	opportunities for students to demonstrate		
10	their knowledge of civics and social		
11	studies, because the expectation of the		
12	Common Core is that students are exposed		
13	to historical text, they're exposed to		
14	scientific text, they're exposed to		
15	technical text, no matter the grade		
16	level. So embedded in the English		
17	standards in the Common Core are social		
18	study standards. For example, kids have		
19	to analyze 18th, 19th, and 20th century		
20	U.S. seminal documents of historical and		
21	literary significance with a focus on		
22	themes, purposes, and rhetorical		
23	features.		
24	COUNCILWOMAN BROWN: Where in		
25	the text does it deal with the basic		
1			

		Page 177
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	civic duty of registering to vote?	
3	DR. DICKEY: Got you. Coming	
4	to you. Coming to you. So now, because	
5	we couldn't do everything first, we	
6	developed ELA, we developed reading, we	
7	developed mathematics. So this school	
8	year, this summer in preparation for the	
9	upcoming school year, we'll be doing the	
10	same to build out the science curriculum	
11	and the social studies curriculum, and in	
12	it will live opportunities for kids to	
13	learn about civics, to learn about the	
14	importance of voting and perhaps get	
15	registered to vote. So it will live	
16	there. We're just in the process of	
17	developing it now.	
18	COUNCILWOMAN BROWN: So the	
19	operative word used was "perhaps."	
20	DR. DICKEY: Well	
21	COUNCILWOMAN BROWN: Hold it	
22	right there. So the ask is by next year	
23	at this time Councilman Jones is very	
24	good about reminding us what was posed	
25	the year before, and in an attempt to be	
i		

Page 178 1 5/26/15 - WHOLE - BILL 150162, etc. 2. reasonable, my ask is that next year you be able to tell us where 12th graders --3 9th graders, so that by 12th grade they 4 5 get it, there's some level of 6 expectation -- you define what that 7 should look like -- that young people leaving Philadelphia public schools now 8 9 have the inferred expectation that we want you to exercise your civic duty and 10 11 register to vote. 12 DR. HITE: Councilwoman, I 13 didn't hear the beginning of this, but 14 hearing the end of the question, I think 15 I know enough about it. The other thing 16 is that there's a wonderful program that 17 we have and the program is called ACE. It is a program that is in some of our --18 many of our high schools. We want to 19 20 expand that to many more. It allows for children to participate in the types of 21 civic activities that you talked about. 22 23 They even engage in debate. They talk about voting rights and registering. 2.4 25 want as many students as possible to be

Page 179 1 5/26/15 - WHOLE - BILL 150162, etc. 2. associated with that program, because it does provide our young people with a 3 tremendous experience. I think we have 4 5 11 of the high schools now -- 15. I was 6 close. Oh, that's right. Got the ACE 7 professional over here. Fifteen of the high schools now. 8 9 COUNCILWOMAN BROWN: Very good. Fifteen out of how many high schools? 10 11 DR. HITE: Fifteen out of 54. 12 COUNCILWOMAN BROWN: So that's about one-third of the high schools? 13 14 DR. HITE: Yeah. 15 COUNCILWOMAN BROWN: Dr. Neff? 16 CHAIRWOMAN NEFF: I was just 17 going to say but in every high school children have to have taken a government 18 course before they can graduate, and 19 20 typically our kids tend to take it their 21 senior year. That's not true across the 22 District. But I don't see why it 23 couldn't be an expected part of the course that you take kids through the 2.4 25 process of getting them registered, and

Page 180 1 5/26/15 - WHOLE - BILL 150162, etc. 2. I'm sure that I wouldn't get disagreement from the District. I know that we 3 required that at Masterman. You get a 4 5 little extra credit if you can show your 6 voter's registration card. And I think what Dr. Hite is referring to is that and Donyall has also referred to is that 8 9 throughout the social studies curriculum, at different grade levels civic 10 11 responsibility is an important component 12 that's absolutely critical regardless of what the social studies curriculum is. 13 14 know in our elementary schools a number 15 of the schools are partnering with the 16 Rendell Center for Civic Engagement and 17 really getting to understand, and I know a number of our high schools, Masterman 18 participated as well, do mock elections 19 20 during their senior year and generate 21 that interest in civic engagement. But, 22 I mean, I'm not going to speak for the 23 District staff here, but I don't think 2.4 that there's any reason why we can't make 25 that one of -- we require all of our kids

Page 181 1 5/26/15 - WHOLE - BILL 150162, etc. 2. to take the PSATs. There's no reason why we can't require all our 18-year-old 3 seniors to have a registration drive 4 5 there or whatever we have to do to get 6 them registered. We can't make them go to the polls, but we can get them registered and get them interested. 8 9 DR. DICKEY: And, last, we are planning to publish a document that 10 11 outlines each quarter of each grade level 12 for each discipline the four core areas -ELA/reading, mathematics, science, and 13 14 social studies - so that teachers, 15 parents, and students and community can 16 know what students are learning each 17 quarter of the school year. 18 COUNCILWOMAN BROWN: And that's encouraging to hear and in no way could 19 20 pontificate, but the hope and expectation 2.1 is that that 21 can grow to 54 so that 22 all children across the board get the 23 opportunity to know that civics is 2.4 taught. It has to be a learned behavior, 25 and we need to capture their attention

		Page 182
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	before they leave the schoolhouse door.	
3	So that's my ask over the next year when	
4	you sit down, you give us an update on	
5	where you are with that integrated,	
6	infused expectation so that we can the	
7	democratic process can rise above 21	
8	percent participation. It's just very,	
9	very and we have a responsibility to	
10	do that. Thank you.	
11	Thank you, Mr. Chairman.	
12	COUNCIL PRESIDENT CLARKE:	
13	Thank you, Councilwoman.	
14	The Chair recognizes Councilman	
15	Jones.	
16	COUNCILMAN JONES: Thank you,	
17	Mr. President.	
18	We've been here a long time, so	
19	I'm going to be real brief. First I want	
20	to thank your team, Dr. Hite, and the SRC	
21	for some things that you were listening	
22	on. We had an incident where a young	
23	lady was taken from a school, abducted, a	
24	couple years back, and a whole lot of	
25	hearings happened. It was in	
i		

Page 183 1 5/26/15 - WHOLE - BILL 150162, etc. 2. Councilwoman Blackwell's district. whole lot of hearings since then. 3 about the dismissal policy. I've been in 4 5 every one of my 30-plus schools, and in 6 each one of them there is a dismissal 7 policy clearly placed at the front of the door and in most cases, not all, they 8 9 asked me for photo ID, knowing doggone well who I was, but they still asked me 10 11 anyway, which is an improvement. 12 something that came out of this body as a recommendation. So I want to thank you 13 14 for hearing us and adjusting accordingly. In addition, I want to thank 15 16 your staff who participated in our Safe 17 Corridor program. 7:00 a.m. I have them and the principals in my area on a call 18 and we talk about climate and other 19 issues inside and outside the school to 20 21 try to prevent violence. 22 participate, and I thank them for that. 23 There are some challenges, and 2.4 you're working on it. I won't point --25 out of the 30-plus schools, I got a

Page 184 1 5/26/15 - WHOLE - BILL 150162, etc. 2. couple of them that need intensive care, which brings me to my point. 3 In one of my schools, which is doing fairly well, 4 there is an issue of internal cameras and 5 6 there are blind spots in the schools. will not name the schools because we're 7 in a public hearing, but a couple of them 8 9 need those kinds of repairs so that they can, with fewer staff, with fewer NTAs, 10 11 be able to safeguard corridors inside the So in our camera program that 12 school. 13 Councilman Clarke was the pioneer of 14 cameras in the City of Philadelphia, we 15 have now 4,000 cameras throughout the 16 City of Philadelphia connected to the 17 private sector. So there is a good network outside of the schools, but we 18 have to work on keeping the cameras 19 20 inside the schools repaired. 21 And then, finally, I want to 22 thank you for a couple of other things. 23 The ACE program, which Nycole Watson is a 2.4 participant in, working with young people 25 teaching civics, but also Youth Courts,

Page 185 1 5/26/15 - WHOLE - BILL 150162, etc. 2. which is now at Beeber and is expanding to Overbrook, which is a conflict 3 resolution model, peer mediation model 4 5 that I think works that create a sense of 6 civic responsibility. You guys got 7 behind that, and I want to thank you for that. 8 9 And some of the private-public partnerships are working a bit. 10 11 Harrisburg University has been working 12 with Overbrook High School. The first year we sent a class of students up there 13 14 to visit this technical high school, 15 Mr. President, and 15 of the kids came 16 back from that trip with full free 17 scholarship rides to the University. second year we sent them, that number 18 increased to 30. But without you guys 19 20 thinking outside of the box, allowing 21 that kind of creative kind of linkages, 45 kids from my district would never have 22 23 known where Harrisburg University was or 2.4 how to get plugged in and how to access 25 that kind of program. Now, we got a long

		Page	18	6
1	5/26/15 - WHOLE - BILL 150162, etc.			
2	way to go, but I think as important as			
3	talking about what does not work well and			
4	what needs improvement is things that			
5	you've heard us, listened to, and worked			
6	on. So I want to publicly thank you and			
7	your crew.			
8	DR. HITE: Thank you.			
9	COUNCILMAN JONES: Thank you,			
10	Mr. President.			
11	COUNCIL PRESIDENT CLARKE:			
12	Thank you, Councilman.			
13	The Chair recognizes			
14	Councilwoman Reynolds Brown.			
15	COUNCILWOMAN BROWN: Please			
16	give us an update on the inventory of			
17	partnerships that you enjoy with			
18	universities, because this continues to			
19	be a conversation, debate, inclination			
20	around PILOTs, and until we need to			
21	know what we have and what's in place			
22	before we can explore what more			
23	universities can or should do.			
24	DR. HITE: Yes. So we have			
25	a now we have an office. It started a			

		Dago 107
1	E/06/1E WHOLE DITT 150160 at a	Page 187
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	year or so ago. It's an Office of	
3	Strategic Partnerships. It captures all	
4	of the partnerships that we have with	
5	both colleges, universities and other	
6	entities, so community organizations. So	
7	there's several types of partnerships,	
8	and I could get some of these wrong, but,	
9	I mean, so we have some work with many of	
10	the universities with, the teaching	
11	universities, around attracting more	
12	minorities, particularly in math and	
13	science, training and developing those	
14	individuals, leadership development	
15	program that we're working on with a	
16	couple of the larger universities. We	
17	have a partnership with Drexel that's	
18	looking at a K-12 school.	
19	COUNCILWOMAN BROWN: Is that a	
20	part of the Promise work that's being	
21	done?	
22	DR. HITE: It will be. It will	
23	be part of the it's a part of that	
24	work that's going on.	
25	COUNCILWOMAN BROWN: Is there a	

		Page 188
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	prepared written list so that we can see	
3	visually what universities are engaged?	
4	DR. HITE: Sure.	
5	COUNCILWOMAN BROWN: What the	
6	program renderings are?	
7	DR. HITE: Yes.	
8	COUNCILWOMAN BROWN: Because	
9	then that helps us determine more	
10	accurately what we believe more	
11	universities can do given the needs of	
12	kids in the system.	
13	DR. HITE: We can provide that	
14	for you.	
15	COUNCILWOMAN BROWN: That will	
16	be very helpful.	
17	Almost done, Mr. President.	
18	Is the outsourcing of nurses	
19	DR. HITE: Including the	
20	Community College?	
21	COUNCILWOMAN BROWN: Yes,	
22	please.	
23	DR. HITE: Okay. Thank you.	
24	COUNCILWOMAN BROWN: Is there	
25	any outsourcing of nurses done in the	

		Page	189
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	District?		
3	DR. HITE: Yes. For children		
4	with special needs, yes.		
5	COUNCILWOMAN BROWN: Okay. So		
6	in listening to the number of the City		
7	departments over the last number of		
8	years, there I want to frame this		
9	properly. There's dissatisfaction with		
10	what they're trying to do on behalf of		
11	our children and sometimes the		
12	impediments that they face when trying to		
13	seek support, partnership with the School		
14	District, and of course no examples I		
15	have here right now. In fact, we're now		
16	working together on a human trafficking		
17	task force, of which one of your esteemed		
18	professionals are sitting on that task		
19	force, and we talked about that a little		
20	bit.		
21	So I guess speak to what		
22	measures you've undertaken		
23	administratively to break down what some		
24	view still as some of the silos that		
25	exist between the School District and DHS		

			100
_		Page	T90
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	or the School District and the District		
3	Attorney's Office.		
4	DR. HITE: We have a couple of		
5	things that we started to do. Number one		
6	is the I'll start with the District		
7	Attorney's Office and I'll allow		
8	Ms. Lynch to chime in where I may miss		
9	something.		
10	With the District Attorney's		
11	Office, the District Attorney is helping		
12	us pretty significantly on issues		
13	associated with attendance.		
14	COUNCILWOMAN BROWN: Yes.		
15	DR. HITE: And particularly		
16	with the notification to families. Not		
17	with a view of bringing people in, but		
18	just getting their attention and drawing		
19	the attention to the issue we think is		
20	really important. So we've begun to		
21	coordinate with the District Attorney's		
22	Office around that. They've seen some		
23	success in the charter school community		
24	in terms of what they capture.		
25	COUNCILWOMAN BROWN: So that's		

		Page 191
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	progress compared to a year ago, in my	
3	view, based on what I heard last year and	
4	what I'm hearing now.	
5	DR. HITE: Right. Well, I	
6	mean, that's one example. I mean, and	
7	then there are a couple of examples with	
8	DHS and DBH, and I'll let Karyn talk	
9	about those.	
10	COUNCILWOMAN BROWN: Okay.	
11	Good afternoon, Karyn.	
12	MS. LYNCH: Good afternoon.	
13	Thank you. Karyn Lynch, Chief of Student	
14	Support Services.	
15	So I would say over the last	
16	two or three years, we have developed a	
17	strong working relationship with DHS.	
18	You know that they are co-locating in the	
19	School District. At various levels of	
20	the organization, there's ongoing,	
21	constant communication. If there are	
22	specific issues that we can speak to,	
23	we'd be more than willing to do that. I	
24	think last year when we came before you	
25	we talked about the fact that because we	

Page 192 1 5/26/15 - WHOLE - BILL 150162, etc. were depleted in staffing and DHS was 2. interested, they were eager to assist 3 with truancy work and attendance that 4 5 they let contracts to hire case managers 6 to work in our schools and help identify the issues and concerns that exist with 7 families when truancy is in fact an 8 9 issue. So that service started in February. I think the best way to 10 11 describe it is that it is gaining ground 12 and developing as we are working very, 13 very closely with contractors to look at 14 some of the issues of implementation. 15 We've had ongoing meetings in order to 16 ensure that the service works well. 17 think it will probably be in full speed by the start of the next school year and 18 most helpful to our schools. 19 20 But there are a variety of 21 programs and services and initiatives. I'm more than willing to outline even 22 23 I could probably talk for another 20 minutes about the working relationship 2.4 25 between the School District and the

		Page 193
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Department of Human Services. I could	
3	talk about other City agencies as well.	
4	COUNCILWOMAN BROWN: Well,	
5	progress is good. It's just important to	
6	put on the record that progress is	
7	happening and that some break-throughs	
8	are happening so that we can discontinue	
9	hearing from other departments that we	
10	continue to run into impediments. So	
11	where there is progress, it should be	
12	noted for the record.	
13	MS. LYNCH: Thank you.	
14	DR. HITE: So, Councilwoman,	
15	I'll also add that I have a	
16	representative out of my office working	
17	with the Council President's office on	
18	the School-Based Family Service Centers,	
19	because we want to determine how those	
20	number one, what they are and how they	
21	could be coordinated and how we could get	
22	those into schools as quickly as	
23	possible.	
24	COUNCILWOMAN BROWN: Okay. All	
25	right, then.	

		Page 194
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	Thank you, Mr. President. The	
3	bell rang.	
4	COUNCIL PRESIDENT CLARKE:	
5	You're welcome, Councilwoman.	
6	The Chair recognizes Councilman	
7	Jones.	
8	COUNCILMAN JONES: Last	
9	questions, Mr. President.	
10	COUNCIL PRESIDENT CLARKE:	
11	Absolutely.	
12	COUNCILMAN JONES: Three quick	
13	ones and I'm out.	
14	Number one, earlier you guys	
15	mentioned that well, the SRC. How	
16	much is their budget a year, the SRC, and	
17	what was it last year?	
18	MR. STANSKI: The office	
19	budget?	
20	COUNCILMAN JONES: Yes.	
21	MR. STANSKI: So for context,	
22	the Charter School Office reports through	
23	the SRC. So just the SRC alone, it's	
24	probably 750 to a million dollars.	
25	COUNCILMAN JONES: Did you guys	
Ī		

		Page 195
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	put in for a million dollar increase?	
3	MR. STANSKI: We did not put in	
4	for a million dollar increase. That	
5	increase is a result of the Charter	
6	School Office reporting the reporting	
7	structure used to be in the	
8	Superintendent's office, Charter School	
9	Office, which is about a million dollars.	
10	COUNCILMAN JONES: So it's a	
11	shift?	
12	MR. STANSKI: It's a shift from	
13	the Superintendent's budget to the SRC	
14	budget.	
15	COUNCILMAN JONES: Just	
16	checking. I know those charter school	
17	people. Sophie is formerly with City	
18	Council. I had to keep an eye on her.	
19	The second question is, the	
20	Constitution High School and Science	
21	Leadership Academy, they are paying rents	
22	at this point?	
23	MR. STANSKI: Correct. Yes.	
24	COUNCILMAN JONES: How much are	
25	those rents?	
İ		· ·

		D- ws 100
4	F /0.6 /1.F	Page 196
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	MR. STANSKI: A little over \$2	
3	million annually.	
4	COUNCILMAN JONES: When do	
5	they so we're paying \$2 million a year	
6	for those two schools. And when are	
7	those leases when do they expire?	
8	MR. STANSKI: I'm going to let	
9	Fran Burns, our Chief Operating Officer,	
10	come and address this issue.	
11	(Witness approached witness	
12	table.)	
13	COUNCILMAN JONES: Hi, Fran.	
14	How are you?	
15	MS. BURNS: Hello. Fran Burns,	
16	Chief Operating Officer.	
17	The leases expire June 30th,	
18	2016, and within both lease agreements	
19	there are two ten-year options to renew.	
20	COUNCILMAN JONES: Neither one	
21	of those schools are neighborhood	
22	schools. They are catchment schools	
23	citywide?	
24	MS. BURNS: Citywide, yes.	
25	COUNCILMAN JONES: So is there	

		Page 197
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	a reason why we chose those two	
3	locations? I mean, you don't have to	
4	answer that now.	
5	MS. BURNS: Sure.	
6	COUNCILMAN JONES: I'm just	
7	saying, that's \$2 million in rent when we	
8	could be using that money to own and/or	
9	there are a number of schools that are	
10	under-occupied that for example, what	
11	is it, 27th and Chalmers? Rhodes, for	
12	example, was built as a high school. It	
13	is like half vacant. I mean, those kinds	
14	of synergies in schools that are citywide	
15	as opposed to neighborhood schools might	
16	be something to look at. All right?	
17	DR. HITE: And I will just add,	
18	Councilman, we're actively seeking to get	
19	out of those once those leases are up,	
20	to get those schools into other	
21	properties that the District maintains.	
22	COUNCILMAN JONES: I would	
23	imagine. That's \$2 million. All right.	
24	Thank you, Mr. Chairman.	
25	COUNCIL PRESIDENT CLARKE: The	

Page 198 1 5/26/15 - WHOLE - BILL 150162, etc. Chair recognizes Councilwoman Brown. 2. COUNCILWOMAN BROWN: 3 Two final questions. If Fran 4 5 Burns could remain seated. Tell us what 6 the process or protocols are for schools that are in need of maintenance, 7 maintenance to the point where the safety 8 9 of young people may be at risk. triggers you assigning your staff to deal 10 11 with major maintenance issues? 12 MS. BURNS: Okay. There's a 13 few things. One, the cleaning staff and 14 the building engineer who is in charge of 15 the building have daily responsibilities 16 and assignments in terms of checking for 17 the safety of the building and making sure the building is safe for occupants. 18 In addition to that, our building 19 20 engineers report not only through the 21 maintenance supervisor, but also to the 22 principal. So they get direct requests 23 as well from principals every day. our stronger building engineers are those 2.4 25 that actually have very strong

		Page 199
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	communication with the principal.	
3	We also have a daily I mean,	
4	an annual process for school opening and	
5	school transition where we document all	
6	of the needs for a building and	
7	particularly from a facility perspective	
8	what those needs are. In addition, we	
9	have a work order management system where	
10	we document outstanding needs for the	
11	building, and we are in the process of	
12	upgrading our system to allow for,	
13	frankly, better management and	
14	accountability in our work order	
15	responses.	
16	COUNCILWOMAN BROWN: On the	
17	topic of work orders, where is there a	
18	provision to ensure that is that an	
19	RFP process when it comes to a remedy for	
20	those types of maintenance matters?	
21	MS. BURNS: Well, we have	
22	prioritized we have priorities across	
23	kind of the level of need at a building	
24	and how long and how much time it takes	
25	to respond to different needs. For	

		Page 200
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	instance, if a fire alarm system is out	
3	of order for the day when we check it,	
4	which doesn't happen often, but we would	
5	put in an emergency fire watch at the	
6	school and we would immediately fix that.	
7	COUNCILWOMAN BROWN: Okay.	
8	MS. BURNS: So there are	
9	obviously different levels of response	
10	depending on the situation.	
11	And I do want to add that we	
12	do two times a year we provide a	
13	third-party environmental inspection of	
14	the building that looks for mold, leaks,	
15	water intrusion, and overall air quality	
16	to the students, in addition to asbestos.	
17	COUNCILWOMAN BROWN: What	
18	expectations are placed on ensuring that	
19	those who handle maintenance, all of	
20	which you just spoke of, are Philadelphia	
21	residents and consideration for women and	
22	people of color for those jobs?	
23	MS. BURNS: Sixty-six percent	
24	of the workforce is African American	
25	COUNCILWOMAN BROWN: I'm	
ĺ		

		Page 201
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	talking about those that are outsourced,	
3	when you have to bring in subs to take	
4	care of matters.	
5	MS. BURNS: I'll have to get	
6	back to you on that answer.	
7	COUNCILWOMAN BROWN: How soon?	
8	MS. BURNS: I can provide it	
9	COUNCILWOMAN BROWN: By the end	
10	of the week?	
11	MS. BURNS: Certainly.	
12	COUNCILWOMAN BROWN: All right,	
13	then.	
14	The last question, if Council	
15	appropriates the additional funding	
16	requested, what will the School District	
17	do? Will certified school nurses be	
18	returned, counselors, librarians be	
19	restored?	
20	DR. HITE: I'm sorry. Can you	
21	repeat the question? I was having a	
22	sidebar here.	
23	COUNCILWOMAN BROWN: No	
24	problem. We do that all the time.	
25	DR. HITE: I'm sorry.	

		Page	202
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	COUNCILWOMAN BROWN: No		
3	problem.		
4	If Council is able to		
5	appropriate the funding request that you		
6	put forth, how will those dollars be		
7	used? For example, will certified school		
8	nurses be restored, counselors and/or		
9	librarians for the schools?		
10	DR. HITE: We have detail in		
11	the budget book, Councilwoman, the exact		
12	positions that would go back to schools,		
13	and they've been a result of requests		
14	that schools have made with respect to		
15	these. And so in the front of the budget		
16	book, I think it's a summary of all of		
17	the positions by categories. And so you		
18	said counselors?		
19	COUNCILWOMAN BROWN: Yes.		
20	DR. HITE: So in the book, it's		
21	59 and a half, and 37 nurse/health		
22	technicians, but it's in those types of		
23	categories.		
24	COUNCILWOMAN BROWN: So of the		
25	counselors, will they be primarily for		

Page 203 1 5/26/15 - WHOLE - BILL 150162, etc. 2. the high schools? I'm most interested in juniors and seniors who need what they 3 need so that they can pursue the college 4 5 admissions process without one counselor to 2,500 kids. 6 MR. STANSKI: So a couple things. One, so we left it up to schools 8 9 to determine how to use the potential new 10 money, but on the counselor front, yes, 11 majority of it is high schools and then 12 it was actually small elementary schools who right now only get a halftime 13 14 counselor. A lot of them chose to then 15 purchase that other half to get a full 16 time. 17 But I do want to be clear that 18 these numbers assume both the City money 19 comes and the State money. So, remember, we have a shortfall of \$85 million next 20 21 year. So if it's just the City money and 22 the State doesn't come through, those 23 positions we outlined, we would not be 2.4 able to fund those, so --25 COUNCILWOMAN BROWN: All of

		Page 204
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	that may be adjusted depending upon yield	
3	from	
4	MR. STANSKI: From both the	
5	City and the State.	
6	COUNCILWOMAN BROWN: Okay,	
7	then. That begs my last question	
8	DR. HITE: Chairwoman Brown, if	
9	I could also add on the counselor front,	
10	we also now have a new system in place	
11	that allows children access to resources	
12	about colleges and universities. They	
13	can fill out a financial aid form and	
14	it's uploaded automatically. They can	
15	submit applications to multiple schools	
16	and it has the SAT prep. It's a system	
17	called Naviance that's going to be in all	
18	of our high schools next year and, in	
19	addition, many of our middle schools. So	
20	that it begins to allow children access	
21	to that type of information, and they	
22	have modules on it like how to write a	
23	letter or a college letter to include	
24	with an application. So we will also	
25	have that system in place next year, and	
i		

		Page	205
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	we're training our professional school		
3	counselors on the use of that tool right		
4	now.		
5	COUNCILWOMAN BROWN: Okay. How		
6	old is that?		
7	DR. HITE: That's brand new.		
8	COUNCILWOMAN BROWN: So because		
9	then what I'll be curious to know next		
10	year is X number of students went to		
11	college this year based on the old		
12	system. What is the yield as a result of		
13	this infusion of new dollars for this new		
14	program, what are the numbers now. Has		
15	there been an increase in the number of		
16	children using it, students using it, and		
17	therefore going on to college so we can		
18	really measure the utility but also the		
19	effectiveness of it. Because it's great		
20	to have it, but if counselors are not		
21	doing not a good job but a great job to		
22	make sure students are using it, it's all		
23	for naught.		
24	DR. HITE: And I'll also add		
25	with that, the number of children		

		Page	206
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	completing our FASFA form, all of those		
3	types of things that are indications or		
4	measures for children getting into		
5	college.		
6	COUNCILWOMAN BROWN: So let me		
7	say now to include that in the testimony		
8	next year. If we want to continue to see		
9	graduation rates go up, that's great, but		
10	we also want to see more young people		
11	accessing and going on to college so that		
12	they can come back and be contributing		
13	citizens. Thank you.		
14	Thank you, Mr. President. I'm		
15	done.		
16	COUNCIL PRESIDENT CLARKE:		
17	Thank you, Councilwoman.		
18	A couple of questions. With		
19	respect to outsourcing, to follow up on		
20	Councilwoman Brown's conversation about		
21	outsourcing, we give you the money, the		
22	State gives you the money. Is there		
23	anything that precludes you from		
24	outsourcing the services as it relates to		
25	employees, be it counselors, be it		

		Page 207
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	healthcare professionals? Can you just	
3	do that with the money that we give you,	
4	probably with the belief that it will	
5	hire traditional employees; i.e., PFT	
6	members?	
7	DR. HITE: Yeah. I don't think	
8	there's anything that precludes that in	
9	any of the language now, Council	
10	President. And in addition to that, I	
11	would add that we have some nurses for	
12	special ed children, for children with	
13	special needs who are outsourced at the	
14	moment. We are also looking at the	
15	health services field. But I don't think	
16	there's anything that precludes that. I	
17	would have to look at our general	
18	counsel. But the SRC would have to take	
19	an action to make that so.	
20	COUNCIL PRESIDENT CLARKE:	
21	Well, history has shown that the SRC kind	
22	of goes along with the staff. Just like	
23	me, I kind of go along with my staff	
24	recommendations. So the bottom line is,	
25	because of our limited ability to have	
4		

		Page 208
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	jurisdiction over anything you all do, we	
3	can both give you 100 million, you go do	
4	what you do and you outsource every last	
5	one of these new positions.	
6	DR. HITE: That's not what	
7	we're intending to do.	
8	COUNCIL PRESIDENT CLARKE: I	
9	hear what	
10	DR. HITE: That's not what	
11	we're intending to do.	
12	COUNCIL PRESIDENT CLARKE: I'm	
13	saying you have the authority to do that.	
14	If you don't intend to do that, are you	
15	prepared to	
16	DR. HITE: And we didn't do it	
17	last year when we added back positions.	
18	COUNCIL PRESIDENT CLARKE:	
19	Well, whatever. Are you prepared to have	
20	language to that effect? And I know	
21	we're not supposed to have strings	
22	attached with the money that we provide	
23	to you.	
24	DR. HITE: Language to the	
25	effect of not outsourcing?	
ı		

		Page 209
1	5/26/15 _ WHOTE _ BITT 150162 _ 0+a	raye 209
	5/26/15 - WHOLE - BILL 150162, etc.	
2	COUNCIL PRESIDENT CLARKE:	
3	Correct.	
4	DR. HITE: Yeah. No. I mean,	
5	one of the reasons we have the RFP out is	
6	to determine if there are other models	
7	that we can use in schools and if we have	
8	the ability to expand services.	
9	COUNCIL PRESIDENT CLARKE:	
10	Short answer is, no, you're not prepared	
11	to	
12	DR. HITE: No.	
13	COUNCIL PRESIDENT CLARKE:	
14	give us that language?	
15	DR. HITE: No.	
16	COUNCIL PRESIDENT CLARKE:	
17	Okay. Thank you.	
18	The waiver issue, how soon can	
19	you get that information? Because that	
20	is very important to us.	
21	DR. HITE: We can get that from	
22	our general counsel probably within the	
23	week. Do you need it sooner?	
24	COUNCIL PRESIDENT CLARKE:	
25	Well, you know	

		Page 210
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	DR. HITE: By the end of this	
3	week? Would that be helpful?	
4	COUNCIL PRESIDENT CLARKE: I	
5	mean, it's just a simple matter of, I'm	
6	assuming, reading the document. Can we	
7	get it like tomorrow?	
8	DR. HITE: We'll do our best.	
9	We'll	
10	COUNCIL PRESIDENT CLARKE: I	
11	mean, we're being asked to vote on	
12	another significant expenditure for the	
13	School District and I'd like to be able	
14	to have the information.	
15	CHAIRWOMAN NEFF: Council	
16	President, can we get specific language	
17	from your staff about exactly what kinds	
18	of things	
19	COUNCIL PRESIDENT CLARKE: I	
20	just want to know what you can and cannot	
21	do. I'm assuming that there are waiver	
22	provisions within the language. Like	
23	last year, I'll be honest with you, I	
24	didn't know that you guys can waive the	
25	maintenance of effort in terms of to	

		Page 211
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	accommodate the short-term borrowing. It	
3	probably created a better environment for	
4	us to provide that money because we	
5	weren't going to be locked into that.	
6	CHAIRWOMAN NEFF: Okay.	
7	COUNCIL PRESIDENT CLARKE: I	
8	mean, what else can you do?	
9	I just want to get a little	
10	clarity. On the sales tax, as I	
11	referenced it, the hijacking of the	
12	City's Pension Fund money, I know the SRC	
13	supported the State provision that	
14	allowed the 120 to go to the School	
15	District. Was that also the staff's	
16	recommendation, to support the 120 sales	
17	tax extension go to schools and not	
18	pensions?	
19	DR. HITE: I'd be in support of	
20	anything that brings us additional	
21	revenue, so, yes. Yes, Mr. President.	
22	COUNCIL PRESIDENT CLARKE:	
23	Okay. I just want to get all this stuff	
24	on the record.	
25	I'm going to give you an easy	

		·
		Page 212
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	one, and I'm asking this for Councilman	
3	Squilla and myself. Tried to be	
4	supportive of schools in communities,	
5	wherever possible. From time to time	
6	Councilmembers have offered to put money	
7	on the table to provide capital	
8	improvement to schools, playgrounds, all	
9	the other equipment that makes it a more	
10	comprehensive approach to children's	
11	outcome. Is there like a legal provision	
12	on the School District side that	
13	prohibits us? Because every time we try	
14	to put money on the table	
15	DR. HITE: It's not thank	
16	you for asking this question, Council	
17	President. This is not the School	
18	District's issue. This is a City Law	
19	Department issue.	
20	COUNCIL PRESIDENT CLARKE: Is	
21	this new?	
22	DR. HITE: This is how the	
23	capital monies can be used for properties	
24	that are not, quote/unquote, City	
25	properties. I mean, this is we're all	
Ī		

		Page 213
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	raring to go if we can with this issue,	
3	but this, I understand, is a problem that	
4	is coming out of the City Law Department	
5	with respect to our properties and the	
6	City providing capital improvements for	
7	those properties.	
8	COUNCIL PRESIDENT CLARKE: So	
9	can you give me that in writing? Because	
10	when I ask the City, they tell me that	
11	the fault lies within the School District	
12	and their unwillingness to sign	
13	authorization to build on their property.	
14	DR. HITE: Yeah, we can get	
15	that to you in writing.	
16	COUNCIL PRESIDENT CLARKE:	
17	Because somewhere	
18	DR. HITE: Yeah, we can get	
19	that to you in writing.	
20	COUNCIL PRESIDENT CLARKE:	
21	they said, Oh, we're ready to go, 11th	
22	and Venango, and I know Councilman	
23	Squilla has a number of them. It's	
24	like	
25	DR. HITE: You had a school	

		Page 214
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	too.	
3	COUNCIL PRESIDENT CLARKE: I	
4	have a bunch of them. I had Adaire.	
5	DR. HITE: Right, Adaire is the	
6	one that comes to mind.	
7	COUNCIL PRESIDENT CLARKE: 11th	
8	and Venango. Now Hartranft Playground.	
9	All right. So if you can get	
10	me that in writing so when I go to the	
11	Law Department, I can finally get to the	
12	bottom of this.	
13	A little clarity on the	
14	one-time funding. You referenced it in	
15	your conversation, I believe, with	
16	Councilman Oh, school building sales.	
17	First, how much did we eliminate as a	
18	result of the school building sales?	
19	MR. STANSKI: So for this	
20	fiscal year, it was 20 million and then	
21	the prior fiscal year, it was around 27	
22	million. So overall we netted after	
23	defeasance about 47 million over the two	
24	years.	
25	COUNCIL PRESIDENT CLARKE: In	

		Page 215
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	addition to the elimination of how much	
3	debt?	
4	MR. STANSKI: Annual debt	
5	service, about close to a million dollars	
6	in debt service annually.	
7	COUNCIL PRESIDENT CLARKE: No,	
8	not annually. Total.	
9	MR. STANSKI: Oh, okay. Yeah.	
10	So 20 to 30 million in debt.	
11	COUNCIL PRESIDENT CLARKE: Are	
12	you sure?	
13	MR. STANSKI: I can get you a	
14	firm number, but in that range.	
15	COUNCIL PRESIDENT CLARKE: So	
16	it was basically more than 75 million.	
17	It was \$2 million in carrying costs, I	
18	believe?	
19	MR. STANSKI: Right. The	
20	carrying costs, yes, to operate those	
21	excess buildings.	
22	COUNCIL PRESIDENT CLARKE: All	
23	right. And that request for funding was	
24	one time, the \$50 million, that Dr. Hite	
25	suggested that schools wouldn't open.	

		Page	216
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	Remember when you came in at the last		
3	minute, you said we're going to put the		
4	50 million up, and we came up with the		
5	school building sale proposal. Was that		
6	in the middle of the fiscal year?		
7	Because the suggestion is that we I		
8	mean, that kind of caught us came out		
9	of the blue.		
10	MR. STANSKI: The \$50 million		
11	came from the Mayor in the July, August		
12	2013 timeframe, and then the discussion		
13	was how to pay for the 50 million		
14	happened all throughout the fall.		
15	COUNCIL PRESIDENT CLARKE: When		
16	you say it came from the Mayor, is that		
17	the Mayor? It wasn't initiated at the		
18	School District that there was \$50		
19	million required?		
20	MR. STANSKI: No, no, no.		
21	Well, the District, we definitely needed		
22	the \$50 million.		
23	COUNCIL PRESIDENT CLARKE: So		
24	the request came from the School		
25	District?		

		Page 217
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	DR. HITE: Yes. Yes.	
3	COUNCIL PRESIDENT CLARKE: You	
4	said came from the Mayor.	
5	MR. STANSKI: I would say the	
6	start of go ahead and spend \$50 million	
7	came from the Mayor in that July, August	
8	timeframe.	
9	COUNCIL PRESIDENT CLARKE: But	
10	the request came from the School	
11	District, \$50 million, emergency funding,	
12	or however we want to characterize it,	
13	was that	
14	MR. STANSKI: Our total request	
15	was 105 and then we had 133 from the	
16	State or 160 from the State and then	
17	133 from labor.	
18	COUNCIL PRESIDENT CLARKE: All	
19	right. Was that in the beginning of the	
20	fiscal year?	
21	MR. STANSKI: Yeah. In March	
22	of 2013 when we proposed the budget, we	
23	had a \$300 million shortfall. We had	
24	labor, City and State, and then by the	
25	end of June, we didn't have any really	

	Page	218
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	dollars from anywhere	
3	COUNCIL PRESIDENT CLARKE: So	
4	it wasn't in	
5	MR. STANSKI: And then the	
6	50 yeah.	
7	COUNCIL PRESIDENT CLARKE: It	
8	was in the middle of the fiscal year.	
9	MR. STANSKI: So starting the	
10	fiscal year, we said we needed the money,	
11	at least 50 to open schools. We got the	
12	commitment.	
13	COUNCIL PRESIDENT CLARKE: What	
14	I'm trying to understand is that we	
15	passed the budget. We passed an	
16	increase, a tax increase again, for that	
17	fiscal year, and somehow between we	
18	didn't give you more money?	
19	MR. STANSKI: In Fiscal '14 the	
20	commitment was additional efforts around	
21	collections. There was not a rate	
22	increase.	
23	COUNCIL PRESIDENT CLARKE:	
24	There was a rate increase. There was a	
25	rate increase.	

	Page	219
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	MR. STANSKI: In Fiscal '14?	
3	COUNCIL PRESIDENT CLARKE:	
4	Absolutely.	
5	MR. STANSKI: Real estate?	
6	COUNCIL PRESIDENT CLARKE:	
7	Absolutely.	
8	MR. STANSKI: Okay. I don't	
9	recall that, but	
10	COUNCIL PRESIDENT CLARKE: I	
11	mean, you just get the money. You don't,	
12	like you say, you don't care where it	
13	comes from. So there actually was a rate	
14	increase. Okay. But we accommodated	
15	your request for funding. I'm just	
16	trying to get to this point, you	
17	characterize this one-time funding as if	
18	this was not somehow an emergency	
19	request. It was based on an emergency	
20	request from you guys. It wasn't a part	
21	of our shortfall in terms of providing	
22	what you asked for the prior years. City	
23	Council put on the table, every year	
24	asked, more than the two-thirds/one-third	
25	ratio of funding for the School District.	

		Page 220
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	I'll just take your blank stares to be	
3	DR. HITE: No, no, no. So I'm	
4	trying to think, Council President. So	
5	I'm remembering '13 we unfortunately had	
6	to reduce our workforce. We laid off	
7	thousands of people that summer, if you	
8	recall. Those people were still laid off	
9	in July and in August and we didn't have	
10	sufficient staff to open schools, and	
11	that's where the 50 request. I mean, we	
12	said we need at least this much to get	
13	these resources back into schools.	
14	COUNCIL PRESIDENT CLARKE:	
15	Right. But it was after the passage of	
16	additional revenues by the City Council	
17	of Philadelphia. So it wasn't as if	
18	somehow in '13 there was no increase in	
19	revenue going to the School District.	
20	DR. HITE: Yeah, but we still	
21	had a pretty significant deficit.	
22	COUNCIL PRESIDENT CLARKE: I	
23	understand that. We just gave you what	
24	you asked for. That's all I'm saying.	
25	We gave you what you asked for and then	
i		

		Dago 221
1	E/26/1E WHOLE DITT 150162 at a	Page 221
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	you had a shortfall, which we did	
3	accommodate, both in terms of proceeds	
4	from building sales and a borrowing that	
5	created two years of non-revenue for the	
6	Pension Fund to the City of Philadelphia	
7	based on that, as both the Mayor and	
8	myself said, bad deal that was done up at	
9	the state level. But, you know what, I'm	
10	not going to we can talk about that.	
11	I'm not going to burden everyone in this	
12	room with the levels of that detail.	
13	I think I have there's one	
14	other question. I don't quite	
15	understand, and maybe it's just the	
16	language. On Page 8 of the budget book,	
17	you said, you quote, The District's	
18	budget assumes that it will save 105	
19	million in new funding proposed by the	
20	Mayor of Philadelphia. If this funding	
21	is not approved, significant cuts will	
22	need to be made to bring expenditures in	
23	line with revenues.	
24	Do you mean by that a	
25	combination of funding to accommodate the	

		Page 222
1	5/26/15 - WHOLE - BILL 150162, etc.	
2	\$80 million deficit?	
3	MR. STANSKI: If we don't get	
4	at least 85 million, right.	
5	COUNCIL PRESIDENT CLARKE:	
6	That's for the deficit? Because it	
7	implies, when you talk about additional	
8	cuts, it implies that if you don't get	
9	the 105 and the State money, there will	
10	be cuts. The bottom line is, you need	
11	80	
12	MR. STANSKI: To prevents cuts.	
13	COUNCIL PRESIDENT CLARKE:	
14	to prevent any additional cuts. All	
15	right. I just want to clarify that.	
16	Okay. Thank you. Can we	
17	reserve you, the possibility for	
18	callbacks? Because I anticipate that	
19	there will be.	
20	DR. HITE: Sure.	
21	COUNCIL PRESIDENT CLARKE: Is	
22	that okay?	
23	DR. HITE: Yeah. There was one	
24	question that Councilwoman Blackwell	
25	asked. I do have the response, if I	

			000
_		Page	223
1	5/26/15 - WHOLE - BILL 150162, etc.		
2	could if you want me to put it on the		
3	record.		
4	COUNCIL PRESIDENT CLARKE:		
5	Absolutely.		
6	DR. HITE: The Councilwoman		
7	asked about the current number of active		
8	employees that live in the City and		
9	outside of the City. We have 18,794		
10	current active employees. Of these		
11	employees, 12,660 live in Philadelphia.		
12	That's about 67.3 percent. Six thousand		
13	one hundred and thirty-four live outside		
14	of Philadelphia.		
15	COUNCIL PRESIDENT CLARKE:		
16	Thank you.		
17	DR. HITE: Thank you.		
18	COUNCIL PRESIDENT CLARKE:		
19	Thank you for your testimony today.		
20	We'll be in touch. Thank you.		
21	The Committee will stand in		
22	recess until Wednesday, May 27th, 2015 at		
23	10:00 a.m., at which time we will		
24	reconvene in Room 400.		
25	Thank you.

STREHLOW & ASSOCIATES, INC. (215) 504-4622

City of Philadelphia

Recessed Hearing Notice

May 21, 2015

The Committee of the Whole of the Council of the City of Philadelphia held a Public Hearing on Thursday, May 21, 2015, and recessed the public hearing until Tuesday, May 26, 2015 at 10:00 AM, in Room 400, City Hall, to hear further testimony on the following:

An Ordinance to adopt a Capital Program for the six Fiscal Years 2016-2021

inclusive.

ż

150163 An Ordinance to adopt a Fiscal 2016 Capital Budget.

150164 An Ordinance adopting the Operating Budget for Fiscal Year 2016.

150165 An Ordinance amending Section 19-1801 of The Philadelphia Code, entitled

"Authorization of Tax," to further authorize the Board of Education of the School District of Philadelphia to impose a tax on real estate within the City of Philadelphia, to provide for an increase in the tax, and making technical changes, all under certain

terms and conditions.

150166 An Ordinance amending Section 19-1806 of The Philadelphia Code, entitled

"Authorization of Realty Use and Occupancy Tax," to further authorize the Board of Education of the School District of Philadelphia to impose a tax on the use or occupancy of real estate within the School District of Philadelphia, under certain

terms and conditions.

150167 An Ordinance amending Chapter 19-1500 of The Philadelphia Code, entitled "Wage

and Net Profits Tax," by revising certain tax rates, under certain terms and

conditions.

150438 An Ordinance amending Section 19-1806 of The Philadelphia Code, entitled

"Authorization of Realty Use and Occupancy Tax," to further authorize the Board of Education of the School District of Philadelphia to impose a tax on the use or occupancy of real estate within the School District of Philadelphia and to set the rate

for such tax, and making technical changes; all under certain terms and conditions.

150179 Resolution providing for the approval by the Council of the City of Philadelphia of a

Revised Five Year Financial Plan for the City of Philadelphia covering Fiscal Years 2016 through 2020, and incorporating proposed changes with respect to Fiscal Year 2015, which is to be submitted by the Mayor to the Pennsylvania Intergovernmental Cooperation Authority (the "Authority") pursuant to the Intergovernmental Cooperation Agreement, authorized by an ordinance of this Council approved by the Mayor on January 3, 1992 (Bill No. 1563-A), by and between the City and the

Authority.

City of Philadelphia Recessed Hearing Notice

Committee of the Whole

Tuesday, May 26, 2015 at 10:00 AM

Immediately following the public hearing, a meeting of the Committee of the Whole, open to the public, will be held to consider the action to be taken on the above listed items.

Copies of the foregoing items are available in the Office of the Chief Clerk of the Council, Room 402, City Hall.

Michael Decker Chief Clerk

The School District of Philadelphia

May 26, 2015

Table of contents

- Action Plan 3.0
- Progress over the past year
- Overview of 3.0
- SDP Financial Situation
- FY15 end-of-year projection
- FY16 current projection
- Proposed investments
- Investments by Council District
- Appendix
- Funding reform priorities
- Demographic information
- Per pupil comparison
- Charter cost projections

Steady progress this past year

High-quality instruction

- Alignment with PA Core Standards
- Launch of curriculum engine
- Improved instructional practices
- Creation of School Progress Report
- Design/launch of System of Great Schools
- 100% site selection
- Improved school climate

Early literacy efforts

- Intensive training and support from literacy specialists for K-3 teachers
- 120-min. literacy block for K-3 students
- Early-literacy-focused partnerships, including citywide Read! by 4th campaign

New opportunities for students and families

- Opening of new high schools
- Expansion of high-quality programs
- Launch of School Redesign Initiative
- Debut of online school application process
- Formation of new School Advisory Councils and "Friends of" groups

Resources and fiscal management

- \$200m+ in recurring revenue
- Multi-year contract with UNITE HERE Local 634, including 21st Century Living Wage, benefits savings, and work rule reforms
- Administrative spend <3%
- Clean federal and City Controller audits

Action Plan 3.0 themes

Equity

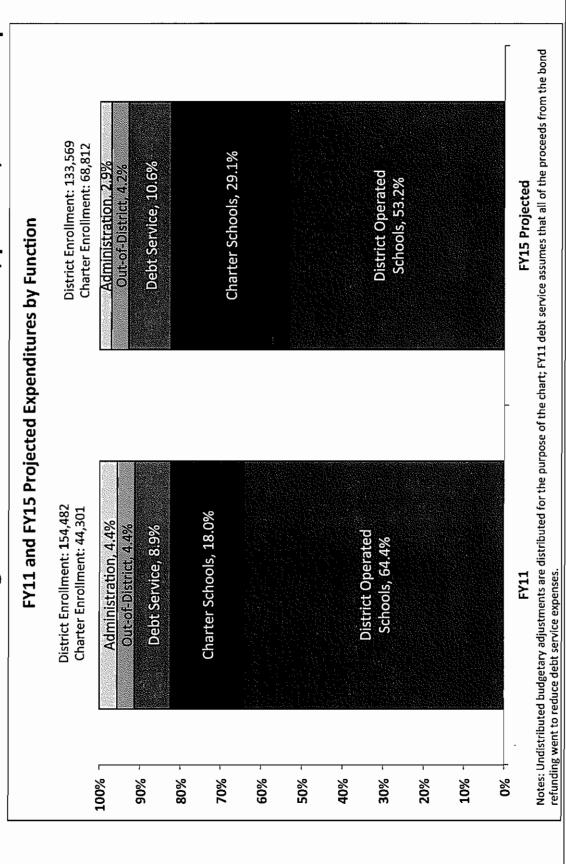

Stability

Evidence

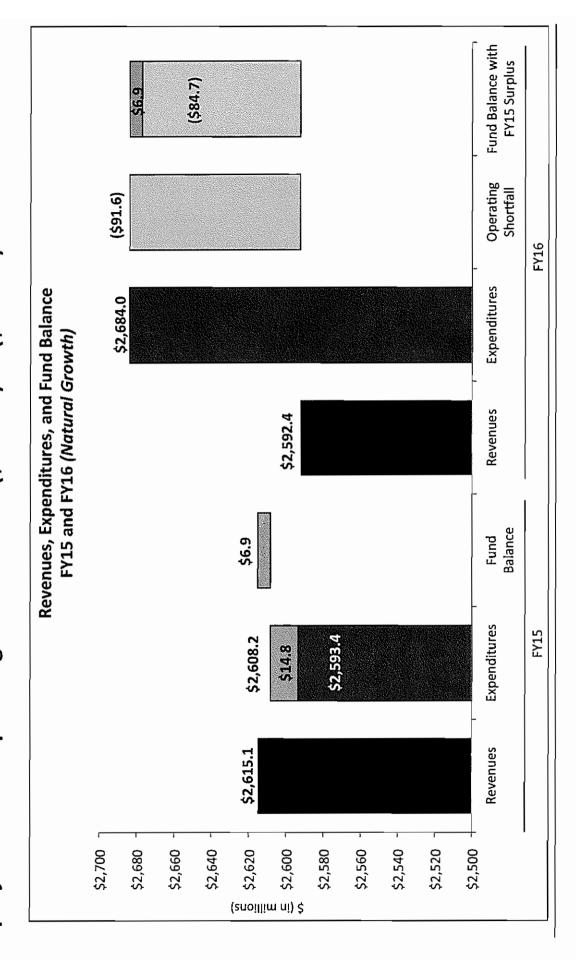

School

Action Plan 3.0 highlights

- An equitable system of schools, including neighborhood, turnaround, opportunity, and innovation networks of schools and charter schools
- A diverse provider approach to school turnaround (in-District, contract, Renaissance charter, etc.)
- 100% autonomy (i.e., per-student budget allocation and charter-like flexibilities) for select schools
- Shared services model for central office support (i.e., provide best-in-class service, including to non-SDP schools, or use third-party providers)
- Selective and purposeful **charter expansion** focused on areas of need (geographic, special student populations, programmatic, etc.)
- student funding formula; revisions to charter per pupil formula; additional state and Multi-pronged approach to achieve structural budget solutions (e.g., weighted local revenue; pension reform; labor savings)

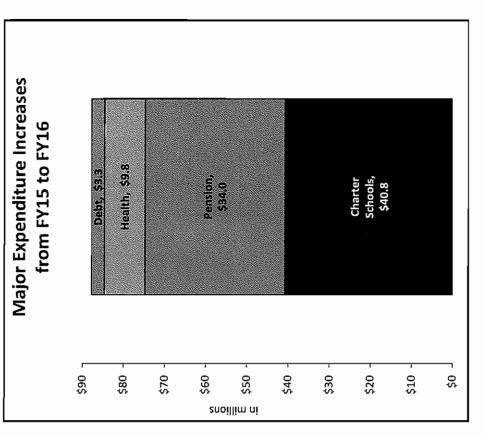

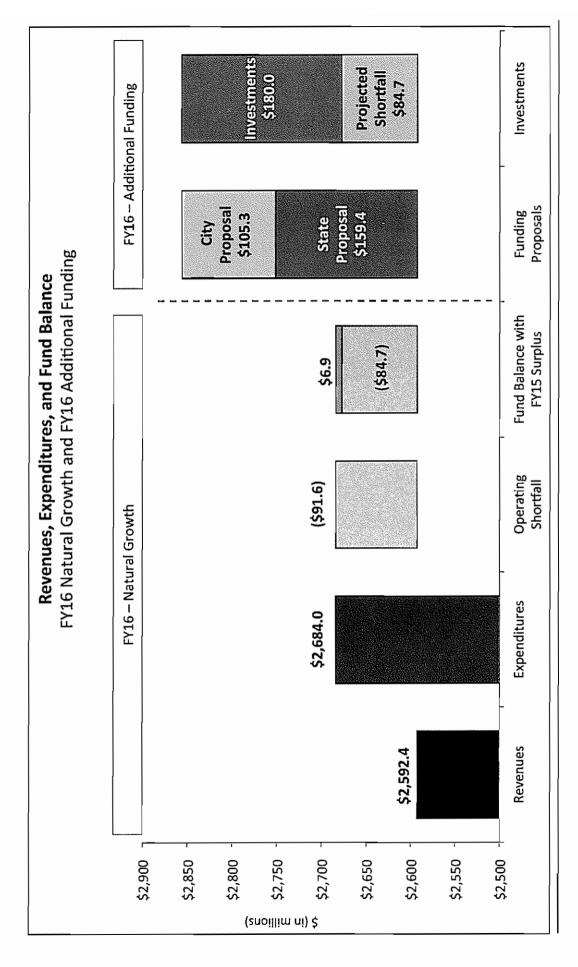

To maintain similar levels of service next year, we anticipate an operating budget shortfall of (\$91.6M) in FY16. The FY15 surplus will be used to reduce the projected FY16 operating shortfall from (\$91.6M) to (\$84.7M).

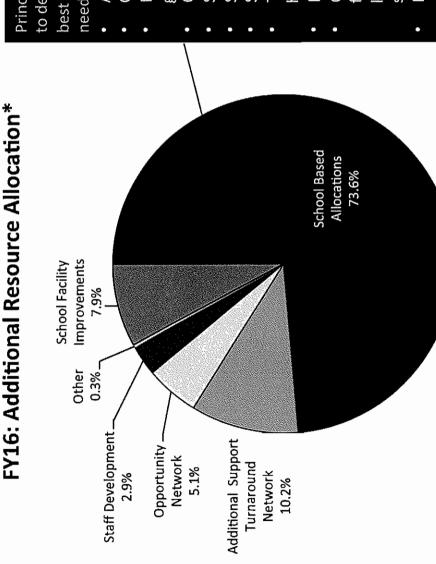

The primary drivers of the projected FY16 "natural growth" shortfall are reduced revenues and growth in healthcare, pensions, charter, and debt service costs.

- Baseline revenues are projected to decrease by \$22.6M between FY15 and FY16 due to:
- Loss of one-time revenues from sale of property (\$20.4M) and one-time City grant (\$29.9M)
- 1.1% net growth in all other State, City, and federal funding
- Approximately \$87.9M or 97% of the District's \$90.7M expenditure growth between FY15 and FY16 can be attributed to four categories:
- Charter schools
- Pension
- Healthcare
- Debt
- The District's mandated PSERS contributions increased from 5.6% of salary in FY11 to over 21% in FY15, and are rising to 26% in FY16.

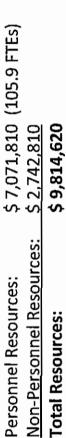

These additional resources will improve the educational opportunities, services, and supports provided to students. Principals and their teams will be able to decide how best to use the vast majority of the resources.

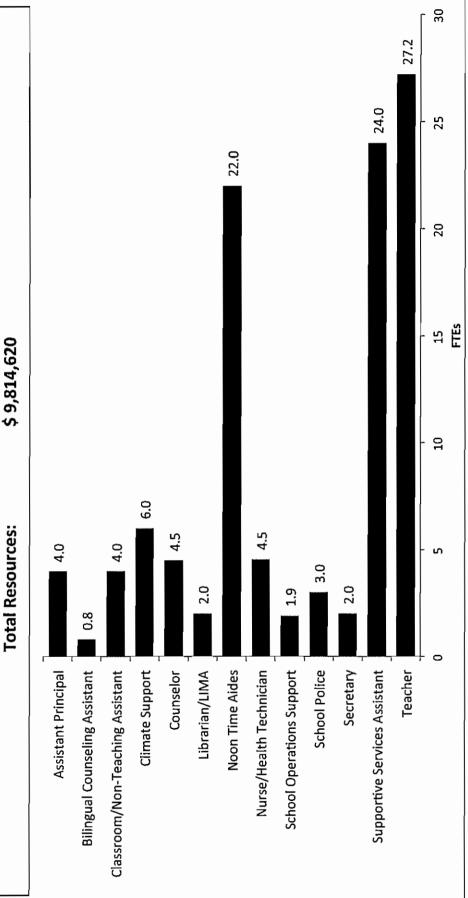

best meet the academic and social emotional Principals and their staffs will be empowered to determine which programs and practices needs of the students they serve, including:

- AP courses
- Credit recovery
- Differentiated instruction (e.g., small group pull out)
 - Counseling support
- Social-emotional support for students
- School climate and safety support
 - Student health services
- help students pass the Keystone Exams Tutoring and/or Saturday programs to
- Coaching in literacy and math instruction language learners and special education ntegrated arts and music programming for teachers to better support English students
- Inclusion opportunities for special education students

^{*}These resources exclude the \$84.7M allocated to support existing programs and expenditures to ensure that schools receive a similar level of service in FY16 to what they received in FY15.

Webster Elementary School

Enrollment: 838

SPR: Intervene

Total Additional Investments:

\$696,900

Teachers (3) will support our new ELA literacy block schedule so that each grade is better supported to implement small-group instruction using recently purchased Chromebooks. Small groups will be	identified based upon needs and remediation will be implemented according to those needs by pullout teachers
--	--

The additional NTA positions will provide more oversight and supervision during a historically chaotic time (lunch/recess) and add to the overall safety of our students.	ety (th

- Students will be in classes with more students.
- More students will be in classes that have combined grades.
- Students will have less access to counseling, student health services, and social-emotional supports.
- Students will have fewer out-of-school time, enrichment, and extracurricular activities.

Appendix

- Funding reform priorities
- Demographic information
- Per pupil comparison
- Charter cost projections

Basic Education Funding Formula Commission, changes to the charter school As the General Assembly considers the upcoming recommendations of the law, and the state budget, the School District's priorities include:

- including based on poverty, special education, English-language learner, and other factors Providing additional funds for students who require additional educational resources,
- Providing an equal amount of school-level funding for students, based on their level of need, who attend School District schools and those attending charter schools; in addition, address stranded and legacy costs borne by the School District
- Addressing the challenges caused by the one-year lag in calculating the charter school per pupil payment based on prior year School District expenditures
- Removing from the charter school per pupil calculation the pass-through of system-level expenditures (e.g., payments to out-of-District placements and alternative educations students) typically not borne by charter schools
- private funding obtained by the School District, as charter schools are themselves able to raise Removing from the charter school per pupil calculation the pass-through of local grants and local and private funds
- Modifying the special education per pupil calculation to tie it to level of student need and cost to meet that need

qualified for free or reduced-price meals, and almost 14% had special education In SY13-14, over 87% of the 131,362 K-12 students served by School District needs.

The School District of Philadelphia

CITY OF PHILADELPHIA CITY COUNCIL

OFFICE OF THE PRESIDENT

DARRELL L. CLARKE PRESIDENT ROOM 494, CITY HALL Philadelphia, PA 19107 (215) 686-2070 Fax No. (215) 563-3162

COUNCILMAN - 5TH DISTRICT

May 20, 2015

Dr. William Hite Superintendent – School District 440 North Broad Street Philadelphia, Pennsylvania 19130

Dear Dr. Hite:

On Tuesday, May 26, 2015 the School District of Philadelphia (SDP) will be presenting its fiscal year 2016 operating budget to City Council. We look forward to hearing about how the SDP plans to provide quality education to Philadelphia children. As you are aware, City Council has, over the past four years, provided approximately \$327 million in new funding.

In anticipation of your budget presentation City Council is requesting, in writing, an itemized break down of how the additional funding was spent. The information you provide should be broken down by year and spending classification. Within each spending classification, please note instruction and non instruction spending.

Sincerely,

DARRELL L. CLARKE

DLC/dmc

Response to May 20, 2015 Information Request from Council President Clarke

Question: Provide an itemized breakdown of how the School District spent the approximately \$327 million in increased City funding.

Response:

The School District's revenue and expenditure picture changed dramatically between FY11 and FY15, including:

- 1. **Declining revenues from the state.** The School District's state revenue in FY15 is approximately \$118M lower than it was in FY11.
- Decreased grant revenues. Schools received support from a variety of competitive grant funds
 that came to an end during this period, resulting in a decrease in services to schools and
 students.
- 3. Increased mandatory costs. Due to increases in pensions, healthcare, and debt service, as well as rising charter costs, the School District is able to purchase less despite increased City revenues. The School District continues to experience a structural deficit, whereby annual increases in fixed/unavoidable costs outpace increases in revenues.

As a result, in order to align School District expenditures with available revenues, a number of reductions have taken place over the last four years including:

- 1. Reduced counseling services;
- 2. Reduced nursing services;
- 3. Reduced funds school have to spend on books, supplies, and extracurricular activities;
- 4. Reduced central office support to schools and principals;
- 5. Reduced labor expenses (three unions have agreed to concessionary contracts to mitigate further reduction in services to schools); and
- 6. Utilization of all of the School District's fund balance.

Therefore, while City revenues are expected to be approximately \$328.6M higher in FY15 than in FY11¹ (see Table 1), increases in City revenues have been needed to prevent the further decline in services to students and schools rather than support new investments.

Table 1

Fiscal Year	FY2011	FY2012	FY2013	FY2014	FY2015	FY15 - FY11
Total Local Tax and Non-Tax Revenues	833,698,544	927,012,019	970,897,086	1,064,526,520	1,192,277,000	328,578,456

The increased City revenues have helped prevent the following from occurring:

- 1. Increased class size. Without the increased City revenues, class sizes would have increased dramatically and our teaching staff would have been reduced by hundreds of positions.
 - a. Class sizes Grades 1 through 3 would have increased from 30 students to 37 students;
 - b. Class sizes Grades 4 through 8 would have increased from 33 students to 40 students;

¹ Based on a revenue information provided by the City Finance Office.

- c. Class sizes Grades 9 through 12 would have increased from 33 students to 41 students; and
- d. Class sizes in CTE programs would have increased from 24 students to 32 students.
- Additional school-based staff reductions. Without the increased City revenues, the School
 District would not have been able to restore Assistant Principal, Guidance Counselor, and
 Secretary positions to schools in the fall of 2013.
- 3. Elimination of itinerant music. Without the increased City revenues, the School District would not have been able to itinerant music positions to schools in the fall of 2013.
- 4. **Elimination of athletics.** Without the increased City revenues, the School District would not have been able restore interscholastic sports to schools in the fall of 2013.
- 5. Increased walking distance. Without the increased City revenues, the School District would have needed to increase the walking distance for high school students from 1.5 to 2 miles in the fall of 2014.
- 6. Further reduced cleaning and maintenance services. Without the increased City revenues, the School District would have needed to further reduce cleaning and maintenance services for schools.
