Program Description

This program is responsible for policing and includes officers, special patrols, highway patrol, the Commissioner, and the Department's leadership team.

Program Objectives

Increase community safety, reduce violent crime and disorder, and build relationships within the Kensington and Allegheny area by focusing on the following:

- -Community engagement and inclusion.
- -Problematic drug corners and streets that are identified by East Division commanders, Narcotics Bureau, and the community. PPD will focus on narcotics enforcement in the problematic areas. After each narcotics operation, the beat officers will focus on protecting the problematic area by enforcing all applicable laws and assist in connecting City services in the cleared areas (L&I, CLIP, Streets, and community services). -Improving the quality of life within the K&A area.
- -Provide an additional mental health/crisis related resource into the field, by deploying teams of CIT Officers and Mental Health Clinicians to serve as first responders to certain crisis calls as identified by Police Radio and the Department of Behavioral Health and Intellectual disAbility Services (DBHIDS).
- -Enhance positive police interaction with youth by maintaining a program for youth to participate in the PPD decision making process and ensure their voices are being heard in the community.

The PPD continues to implement the tenets of the Police Commissioner's Crime Prevention & Violence Reduction Action Plan which is interwoven with the Roadmap to Safer Communities and includes:

• Re-affirming Pinpoint Areas - Through careful planning and data-driven feedback mechanisms, Operation Pinpoint allows us to collaborate with our community and criminal justice partners. By using data, intelligence, and problem solving, as well as frameworks of accountability, we surgically focus on addressing the underlying problems that drive community safety issues and gun violence. The PPD exceeded the goal of increasing the number of Pinpoint Areas to over 45 locations.

Comments:

- Establishing Weekly Shooting Review Meetings This includes PPD internal stakeholders joined by our local, state and federal partners reviewing each shooting in a granular way to identify patterns or those individuals who are most likely to be at risk of becoming a victim or perpetrator of crime.
- District Quarterly Crime Plans Each District Commander is tasked to develop and implement quarterly crime plans that are data and intelligencedriven, focused on hot spots where crime and violence are most prevalent. Commanders will have the flexibility to adjust and tailor crime plans as trends and patterns emerge within their districts, but each commander will be accountable internally through the PPD CompStat process. Furthermore, the entire country is grappling with the increase in gun violence. Most experts offer a cadre of reasons behind the spike. The strategy of the PPD continues to adapt to crime patterns.
- PPD has created the Non-Fatal Shooting Investigations Group to centralize investigations of all non-fatal shootings within the city.

There is an early sign of changing trend; the current calendar year January is showing a reduction (-22%), compared to last year

Number of homicides 457 259 Reduction from FY22 FY23

In an effort to reduce violent gun crimes the PPD Crime Prevention & Violence Reduction Action Plan continues to implement:

- An increase in the number of Pinpoint locations throughout the city
- Weekly Shooting Reviews with all stake holders and Federal, State and Local Law Enforcement partners
- · Bi-Monthly CompStat process which holds each district commander accountable to the Action Plan
- · District Quarterly crime plans which are specifically tailored to district's communities and crimes experienced
- Group Violence Intervention: Call-Ins and Custom Notifications: the PPD identifies individuals for the quarterly 'Call-In' sessions or custom notifications.

These sessions with law enforcement representatives, community leaders, social service providers, and gang- or group-involved individuals (often on probation or parole) will send a fair and balanced message to those violent groups. The message communicates that the violence in the community will not be tolerated; the consequences of continued violence; and offer help from the community and social service providers for those who accept it. There is an early sign of changing trend; the current calendar year-to-date comparison is showing a reduction (-13%) in homicides, compared to last year.

| Comments: | This is the number of personnel trained and equipped with a Body Worn Camera. Goal is to have 800 cameras per year deployed. There have been challenges seen during the deployment process. Police facilities require significant IT and facility modifications in order to adequately deploy the BWC's, given the age of many of our buildings. PPD works in conjunction with OIT and PRA to upfit districts prior to BWC deployment. Delays in deployment occur based on the extent of work needed to get facilities upfitted. | | | | | | | |

| Police 11 Professional Standards 4 | Police | 11 | Professional Standards | 42 |

Program Description

Professional Standards is responsible for ensuring the integrity of the Department through fair, thorough, and proactive investigations of alleged police misconduct, as well as conducting background investigations for potential employees. In addition, this program is responsible for ensuring that the Department complies with the 2011 Bailey Agreement, a federal consent decree that monitors pedestrians stopped, frisked, searched, and/or detained by theDepartment, and for recruiting high quality departmental candidates. This program also is responsible for tracking all court attendance notifications for PPD employees, as well as the Court Attendance Tracking System (CATS) which captures, stores, and displays information regarding officers' attendance at court cases.

Program Objectives

- -Reduce complaints against Police by five percent.
- -Increase the number of minorities hired within the PPD to be reflective of the demographics of the population the PPD serves.
- -Increase the percentage of Complaints Against Police investigations completed within 90 days by 15 percent.
- -Provide training to PPD personnel regarding Fourth Amendment concerns, or rather the legality of stop and frisk, which requires better documentation, review, and scrutiny of pedestrian and vehicle investigations being conducted by the PPD. Manage and track a progressive disciplinary process as mandated by the federal agreement.

| The 90-day requirement is an internal policy. The PPD continues to review processes which includes increased oversight by command personnel while the investigation is being conducted to ensure the assigned investigator is on track to meet the 90 completion deadline. Additionally, an investigation timeline is being developed to track progress and identify investigations whi are not on track to meet the 90 day completion deadline. We have made significant strides in FY22 to meet this goal and are confident that these increases will continue and allow us to meet this goal early in FY23. | | | | | | |

PERFORMANCE MEASURES

| Department | No. | Program | No. | | | | | |
|------------|-----|-----------|-----|--|--|--|--|--|
| Police | 11 | Forensics | 45 | | | | | |

Program Description

This program is responsible for providing high quality and timely forensic services, achieved through accurate, unbiased and reliable collection, preservation, examination, analysis, and interpretation of evidence, to exonerate the innocent, identify true perpetrators of crime, establish crime patterns, and assist in solving and preventing crime.

Program Objectives

Implement new technologies to improve operational capacity and the PPD's ability to use forensic data to produce investigative leads.

- -Expand the Philly Fast Brass program, which screens ballistic evidence for actionable leads to aid investigations through the validation and implementation of 3D microscopic technology and a BulletTrax system for the examination of projectiles.
- -Implement robotic systems for DNA analyses to increase the ability of forensic DNA examiners to process more evidence to address gun violence and other criminal activity.
- -Deploy the newly updated Laboratory Information Management System (LIMS) and Evidence Management System (EMS) to all units within the PPD to increase the

Department's ability to maintain, track, analyze, and produce leads from forensic evidence.

-Improve staffing levels and recruitment by developing more efficient training programs for new hires, developing and continuing education and wellness opportunities for current staff, and mentoring local STEM students.
