COUNCIL OF THE CITY OF PHILADELPHIA

COMMITTEE OF THE WHOLE

Room 400, City Hall Philadelphia, Pennsylvania Tuesday, April 16, 2019 10:45 a.m.

PRESENT:

COUNCIL PRESIDENT DARRELL L. CLARKE COUNCILWOMAN BLONDELL REYNOLDS BROWN COUNCILMAN ALLAN DOMB COUNCILWOMAN CHERELLE PARKER COUNCILWOMAN MARIA QUINONES-SANCHEZ COUNCILMAN AL TAUBENBERGER

BILLS 190152, 190153, and 190154

RESOLUTION 190164

- - -

1	COUNCIL PRESIDENT CLARKE: Good morning.			
2	We're going to get started. It's the public			
3	hearing of the Committee of the Whole regarding			
4	Bills No. 190152, 190153, 190154 and Resolution			
5	No. 190164.			
б	6 Mr. Stitt, please read the titles of the			
7	7 bills and resolution.			
8	8 THE CLERK: Bill No. 190152, an ordinance			
9	9 to adopt a Capital Program for the six Fiscal			
10	Years 2020-2025, inclusive.			
11	Bill No. 190153, an ordinance to adopt a			
12 Fiscal 2020 Capital Budget.				
13	Bill No. 190154, an ordinance adopting the			
14	14 operating budget for Fiscal Year 2020.			
15	Resolution 190164, resolution providing			
16	for the approval by the Council of the City of			
17	Philadelphia of Revised Five Year Financial			
18	Plan for the City of Philadelphia covering			
19	Fiscal Years 2020 through 2024, and			
20	incorporating proposed changes with respect to			
21	Fiscal Year 2019, which is to be submitted by			
22	the Mayor to the Pennsylvania Intergovernmental			
23	Cooperation Authority, the Authority, pursuant			
24	to the Intergovernmental Cooperation Agreement			

1	authorized by an ordinance of this Council			
2	approved by the Mayor on January 3, 1992, Bill			
3	No. 1563-A, by and between the City and the			
4	Authority.			
5	COUNCIL PRESIDENT CLARKE: Thank you,			
6	Mr. Stitt.			
7	Today we continue the public hearing of			
8	the Committee of the Whole to consider bills			
9	read by the clerk that constitute proposed			
10	operating and capital spending measures for			
11	Fiscal 2020, a capital program, and a forward			
12	looking capital plan for Fiscal 2020 through			
13	Fiscal 2025.			
14	Today we will hear testimony from the			
15	following City departments: The Chief			
16	Administrative Office of Innovation and			
17	Technology, Procurement, and Human Resources.			
18	Mr. Stitt, the first person to testify is?			
19	THE CLERK: Christine Derenick-Lopez.			
20	COUNCIL PRESIDENT CLARKE: Thank you very			
21	much. Please come forward. Good morning.			
22	MS. LOPEZ: Good morning. Good morning,			
23	President Clarke and Members of City Council,			
24	I'm Christine Derenick-Lopez, Chief			

Committee of the Whole April 16, 2019

Administrative Officer. Joining me today is 1 2 DeWayne Gordon, First Deputy Chief Administrative Officer, and Stephanie Tipton, 3 4 Chief of Staff. 5 I am pleased to provide testimony from the Office of the Chief Administrative Officer's 6 Fiscal Year 2020 Operating Budget. 7 In Fiscal Year 2020, the Office of the 8 Chief Administrative Office, or CAO for short, 9 is making significant investments in 10 enterprise-wide projects that advance the 11 12 City's goal of ensuring government runs efficiently, effectively, and always with 13 14 integrity. These investments also reflect our 15 office's focus on people, processes, and 16 modernizing City operations. I'd like to take 17 a moment to highlight one such project, the new 18 19 Philly.gov website. 20 In FY20, our Office of Digital 21 Transformation will continue to support the 22 roll-out of the new Phila.gov platform, the 23 City's digital front door where residents can 24 find information about City services, programs

1	and initiatives.	
2	The new Phila.gov platform, which was	
3	launched in the beginning of FY19, is designed	
4	to be user-friendly, accessible from any	
5	device, and written in plain language.	
6	6 The CAO is excited to be at the forefron	
7	of leading enterprise-wide change and	
8	innovation through these and other initiatives.	
9	We will continue to support other City	
10	departments as they engage in projects aimed at	
11 providing City services more efficiently, mor		
12 effectively, and with a customer-service focus		
13	You have my full written testimony. My	
14	team and I are happy to answer any questions	
15	you may have	
16	COUNCIL PRESIDENT CLARKE: Thank you.	
17	MS. LOPEZ: Thank you.	
18	COUNCIL PRESIDENT CLARKE: My kind of	
19	testimony, brief and to the point. I have a	
20	couple questions.	
21	In your testimony, you highlight the plans	
22	to increase the speed of vendor pay. And I	
23	think that's important, because consistently	
24	you hear a lot of individuals, particularly	

1	smaller companies, that contractors, that		
2	may want to do business with the City, but the		
3	whole issue about, you know, getting the		
4	4 invoices reviewed and getting paid at the end		
5	of the day, eliminates or prohibits them from		
6	getting engaged.		
7	What, exactly, are we doing to deal with		
8	that issue, and what's the current speed for a		
9	small contractor or any type of contractor to		
10	get paid?		
11	MS. LOPEZ: Yep. So we've taken, kind of,		
12	a multi-prong approach. We started with		
13	contracts. And we're making processing of		
14	contracts more efficient, because you can't		
15	vendors can't get paid without a conformed		
16	contract, so we launched DocuSign and ePay and		
17	things like that.		
18	We have successfully reduced the contract		
19	conformance time in between 25 and 50 percent,		
20	so that's been the first phase.		
21	We're now moving into the second phase,		
22	which is the invoicing. And I'm going to have		
23	DeWayne Gordon, the First Deputy, who's leading		
24	that contract for the City, talk a little bit		

1 about that.

24

2 COUNCIL PRESIDENT CLARKE: Okay. MR. GORDON: The First Deputy, DeWayne 3 4 Gordon. So we are close to ruling out a pilot 5 to address the slow pace for vendors, and so what we did was took a look across the entire 6 enterprise at the different departments to see 7 how they were individually handling the 8 9 process, as far as processing the invoices. We worked with the departments, Finance, 10 Controller's Office, the Treasury Department, 11 12 to create a process maps as far as current state and future state, because we did not have 13 14 a baseline across the enterprise as far as determining how much time it's going to take to 15 16 pay vendors. With this pilot, we're going to establish 17 a baseline of 60 days. And so we're going to 18 measure that and monitor that. And so once we 19 see progress, we'll decrease it down to 30 20 21 days. 22 And so when this pilot rolls out, we're 23 going to start off with two departments, IT and

Streets Department. And as we see progress,

STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 we'll continue to roll other departments on 2 throughout the year. 3 COUNCIL PRESIDENT CLARKE: Okay. I like 4 that time. 5 MR. GORDON: I appreciate it. I got the 6 memo. 7 COUNCIL PRESIDENT CLARKE: Can you tell me the difference between the Chief Administrative 8 9 Office and the functions of the Human Resources? It kind of seems like there should 10 11 be some overlap. 12 MS. LOPEZ: So there is a lot of overlap. 13 And we work very closely with OHR. And I'm, 14 also, the interim HR Director right now. So we're working even more closely. 15 And so the CAO's Office has HR in Talent. 16 And so that's where recruitment functioning is 17 happening, the interim programs, the career 18 19 empowerment fair and things like that. And then OHR is responsible for all the health and 20 21 welfare benefits, and, obviously, all the civil 22 service hiring. 23 So we've created some synergies between 24 recruitment and civil service hiring, rec

1	leader trained is one of these examples where		
	leader trainee is one of those examples where		
2	we created a project team with HR and T, ORH		
3	and the Department. And we're approaching it		
4	from cradle to grave hiring function. And		
5	we're really seeing some great results with		
6	that.		
7	We've also done it with school crossing		
8	guard. And so these are just the beginning		
9	projects. We're looking to continue to build		
10	them up some more as we continue on this		
11	journey.		
12	COUNCIL PRESIDENT CLARKE: Okay. This is		
13	one from my crew.		
14	In your testimony, you highlight the plans		
15	to increase the speed of hiring employees. And		
16	anecdotally, we have heard of highly-qualified,		
17	non-civil service employees not hearing back		
18	after submitting an application.		
19	And in a lot of instances, these people		
20	are willing to take a pay cut from the private		
21	sector, because they want to work for the City.		
22			
	But eventually, they've taken jobs elsewhere,		
23	But eventually, they've taken jobs elsewhere, because, according to the people that I've		

1	Can you tell me, one, what are we doing to
2	reach out to highly-qualified employees in a
3	timely manner? Or do we feel any obligation to
4	let that person know that that position has
5	been filled or do we just kind of like leave
6	them hanging or what's that process, in
7	terms of follow up.
8	MS. LOPEZ: So generally with exempt
9	positions, we have smart recruiters. And so
10	when those positions are filled, there's,
11	generally, an email response that goes out.
12	And then with civil service, we use
13	another system, PeopleAdmin. And we use a
14	system that, also, sends an electronic
15	notification.
16	Perhaps people are feeling it's
17	impersonal, which I completely appreciate. But
18	there's such a high volume, it's that's
19	about, I think, as best as we can do right now.
20	COUNCIL PRESIDENT CLARKE: So there's too
21	many people that have applied to just let them
22	know, thank you for your inquiry. Position has
23	been filled.
24	MS. LOPEZ: Essentially. I mean, it's a

1 little bit --

2 COUNCIL PRESIDENT CLARKE: But don't we 3 already have the names in the system? 4 MS. LOPEZ: Yes. The system will trigger. 5 So when you make your appointment -- so say I 6 hire Stephanie. Everyone that applied will get an email. And it's generally --7 COUNCIL PRESIDENT CLARKE: Yeah. But T'm 8 9 saying, can't you just like say position has been filled? How long does that take? 10 11 MS. LOPEZ: It takes several months, 12 usually, because most -- for exempt positions, we require diverse hiring slate and a diverse 13 interview panel. So it does take a few months 14 15 to go through the process. COUNCIL PRESIDENT CLARKE: 16 No. I'm not talking about that. So say 100 people apply 17 for a position, maybe more, whatever, so we 18 19 have those people in our system. And as we go through the process, we hire one. 20 21 Those people that are already in the 22 system, how difficult is it to send out a 23 response -- thank you for your inquiry. The 24 position has been filled -- so they can move on

with their life, as opposed to waiting and 1 waiting and waiting? 2 And I hear this, not just in these exempt, 3 4 highly-qualified -- I just hear this generally 5 from people saying, I'm waiting for the City. 6 I say, How long has it been? And they're like Councilman Clarke, can you call me and call 7 8 somebody and make sure I get the job? 9 Obviously, I can't get engaged in civil service, but that doesn't stop them from 10 11 asking. 12 But in the case where there's these particular categories, is it that difficult 13 14 just to send out? MS. LOPEZ: Yeah. So the civil service 15 jobs are a little bit challenging. 16 It's something we're thinking through. 17 18 So the way the civil service reqs read is 19 you're on our eligible list for two years. So we are trying to think through how we can 20 21 increase our engagement to keep people 22 appraised of where we're -- how we're moving 23 through the list. So labor list, for example, 24 you can be number 1,000. And maybe they are up

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 to 250. So we are trying to think through ways 2 through the system to send mass updates to folks, because that list will last for two 3 4 years. 5 COUNCIL PRESIDENT CLARKE: Yeah. I mean, 6 that's --7 MS. LOPEZ: Yeah. That is feedback that we've heard, as well. And we are trying to 8 9 think that through a little bit. 10 COUNCIL PRESIDENT CLARKE: Okay. Thank 11 you. 12 MS. LOPEZ: No, thank you. 13 The Chair recognizes Councilwoman Reynolds 14 Brown. 15 COUNCILWOMAN BROWN: Good morning. 16 MS. LOPEZ: Good morning. 17 COUNCILWOMAN BROWN: Can you share with us 18 what the relationship or interface might be 19 with your office and the office of -- the broader issue. Share with me what your 20 21 engagement might be around diversity and 22 inclusion across government and especially the 23 Free Library. 24 MS. LOPEZ: Yes. So we partner very

1	closely with Nolan Atkinson, the Chief
2	Diversity Officer. So monthly we meet with
3	Nolan and his team to talk through diversity
4	issues. Through that partnership, we've been
5	able to establish some best practices that
б	we've implemented for exempt hiring, the
7	diverse hiring
8	COUNCILWOMAN BROWN: For exempt hiring?
9	MS. LOPEZ: For exempt hiring, yes.
10	COUNCILWOMAN BROWN: Stop right there.
11	That's a lot of information.
12	So once you develop those best practices,
13	I imagine you reduce them to writing. Then
14	and what happens after that? How do those
15	leaders of major departments, including the
16	Free Library, get that information so that they
17	can implement what the Mayor's vision is?
18	MS. LOPEZ: So we created a playbook,
19	actually. And not only did we create a
20	playbook, we also held a training session for
21	all HR leaders across the government. So that
22	included every City agency.
23	COUNCILWOMAN BROWN: So the Free Library
24	has their own HR Department?

Committee of the Whole April 16, 2019

1 MS. LOPEZ: They do. 2 COUNCILWOMAN BROWN: Okay. And do you know if they attended those trainings? 3 4 MS. LOPEZ: I don't know off the top of my 5 head, but I can get that information. 6 COUNCILWOMAN BROWN: If you could, please. And so is that an option or is that a 7 8 requirement of HR professionals across the 9 qovernment? MS. LOPEZ: So I believe that training was 10 11 when Jackie Linton was leading it. And I 12 believe that was mandatory training. 13 COUNCILWOMAN BROWN: Okay. And so what 14 happens after that? 15 MS. LOPEZ: So then we have an expectation that there's always a diverse hiring slate. 16 So the interview shouldn't be scheduled unless 17 18 there's a diverse hiring slate and then a diverse hiring panel. And then we go through 19 the process. 20 21 COUNCILWOMAN BROWN: And that's for each 22 organization in government? 23 MS. LOPEZ: Yes. That's happening for all 24 exempts across government.

1 COUNCILWOMAN BROWN: For all exempts? 2 MS. LOPEZ: Yes. COUNCILWOMAN BROWN: Okay. All right. 3 4 And so at some point over the last couple 5 years, there was discussion that for department 6 heads or those who lead major organization in 7 government, for those who don't get the vision and implement what Mayor Kenney has been trying 8 9 to appoint us with, what happens? So there is a conversation. 10 MS. LOPEZ: Ι mean, I think most of the operating departments 11 12 don't have a lot of exempt appointments. We, 13 you know -- most of them are probably civil service I would think. So that is a little bit 14 15 more challenging. 16 And so what we -- we haven't partnered with the Library yet, but we have been in 17 18 discussions with them for their entry level 19 librarian position. 20 What we've done with rec leader training 21 for example is Katherine -- the Commissioner is 22 very committed to ensuring her work force 23 represents communities that the Recreation 24 Department serves.

	1	 So we've as I mentioned, we did a project plan. And we included Chris Nelson, 			
	2				
	3 who's our talent acquisition manager who, I 4 have to give a shout out. He's amazing. We				
	5	 5 stole him from Drexel and we built a 6 program, because a lot of millennials and Gen 7 Z, they are finding out about job opportunities 			
	б				
	7				
	8	online. So we did a lot of testimonials. We			
	9	posted on LinkedIn and to social media, because			
	10	that's and videos. I mean, that's how			
	11	today's workforce engages.			
	12 COUNCILWOMAN BROWN: We have to meet				
	13	13 prospective employees where they are.			
	14	MS. LOPEZ: Yep. So we're pleased to			
	15	from that work, we were able to increase our			
	16	out of the approved applicants, we were able to			
	17	have half the applicants were diverse. So			
	18	that's never happened before, so we feel like			
	19	that was			
	20	COUNCILWOMAN BROWN: That worked.			
	21	MS. LOPEZ: That worked so. So we're			
	22	looking to engage the Library, who we have been			
	23	in conversation about their entry-level Library			
	24	position to also go through a similar strategy			
	1				

1 with that. 2 COUNCILWOMAN BROWN: How long ago was 3 that? 4 MS. LOPEZ: So it was maybe two months ago 5 we talked to them. We're in the process --6 they have a national conference that they test They'll also be testing in Philadelphia. 7 at. So we're just starting to ramp up those 8 9 conversations now. COUNCILWOMAN BROWN: 10 I see. So as a FYI 11 issue, be advised that President Clarke has 12 requested that the Free Library report back to us at a date I don't remember. 13 And my ask would be that you or members of 14 your team sit with them prior to them reporting 15 back to us so that they can incorporate some of 16 these best practices that you've spoken to, 17 18 since their academic grade for diversity and 19 inclusion would be an F, okay? 20 Yep. We'd be happy to. MS. LOPEZ: We'd 21 be happy to. We have a lot of resources. 22 Chris has identified 10 separate diverse websites that he recruits to. We have a 23 24 monthly community leader outreach strategy. So

Committee of the Whole April 16, 2019

Page 19 1 we've done a lot. And we're happy to leverage 2 his expertise in other areas. 3 COUNCILWOMAN BROWN: Please. Thank you. 4 MS. LOPEZ: Happy to. Thank you. 5 COUNCILWOMAN BROWN: Thank you for the 6 work that you're doing. 7 MS. LOPEZ: Thank you. I appreciate it. COUNCILWOMAN BROWN: Thank you, 8 9 Mr. President. 10 COUNCIL PRESIDENT CLARKE: Thank you, 11 Councilwoman. 12 April the 30th is the date that the Councilwoman referenced. 13 14 MS. LOPEZ: Thank you. COUNCIL PRESIDENT CLARKE: Thank you, 15 Councilwoman. 16 The Chair recognizes Councilman Domb. 17 18 COUNCILMAN DOMB: Thank you, 19 Mr. President. Good morning. 20 MS. LOPEZ: Good morning. 21 COUNCILMAN DOMB: Just a couple questions. 22 I noted in your budget from '18 to this 23 new budget, the budget has gone up about 24 28 percent, 5,894 to 7,588 on Page 3, it looks

1 like roughly, at the top.

2	And what would you say the big increase		
3	is, really, from 19 to 20. What's happening?		
4	Why are we hiring like we have 61 positions		
5	right now. And you're asking for 76. So		
6	you're asking for 15 more, or about 25 percent		
7	7 more positions. What would they do?		
8	MS. LOPEZ: So seven of those positions		
9	are on the Phila.gov project team. They are		
10	funded through Capital, because that's a		
11	capital funded project. We're moving them		
12	under operating. So that's seven of those		
13	positions.		
14	Two of those positions, with the increase		
15	needed for recruitment, Chris Nelson is only		
16	one person. And so he's been doing it,		
17	primarily, for exempts. And we see a need to		
18	do it for civil service. So one of the		
19	assistants is going to be, specifically, for		
20	civil service recruitment. And then another		
21	analyst is going to be supporting our HR team		
22	and all of the project work and all of the		
23	change management going on there.		
24	COUNCILMAN DOMB: What do you think the		

1 average salary is of those positions? 2 MS. LOPEZ: I'm going to ask Stephanie and see if she can help me with that. 3 4 MS. TIPTON: Our average salary is 5 probably around \$60,000. 6 COUNCILMAN DOMB: 60? 7 MS. TIPTON: 60 70,000 I would say. COUNCILMAN DOMB: But keep in mind, I just 8 9 want to make sure you're aware of this, when you hire for \$60,000, you have 88 cents of 10 fringe benefits. And according to the Finance 11 12 Department, 33 cents of overhead. 13 So when you add 33 and 88, that 60 becomes over 120, like 130,000. I'm only saying that 14 so that when you look at these hires, you make 15 sure you say to yourselves, is this worth 16 \$130,000, because that's the hit to the budget. 17 18 MS. LOPEZ: I appreciate that. 19 COUNCILMAN DOMB: The other question, I 20 just have a general question. In '18 under 21 Page 3 of your budget, I guess, you have 22 purchase of services, category 200. It seems 23 to have gone up a lot from '18 to '19. Can you 24 refresh my memory as to why it went up so much?

1 MS. TIPTON: Stephanie, again. We had a 2 temporary increase in our budget to account for the parking amnesty program that our office was 3 4 implementing. It was a \$1.5 million 5 expenditure. And then in FY19, that was 6 reduced back out of our budget. Okay. The other 7 COUNCILMAN DOMB: question I had is your testimony mentions the 8 9 Discover Benefits Project to help residents learn about the various housing-related 10 11 assistance programs. 12 Could you explain those programs and when 13 this project is going to be active? I'm going to let DeWayne 14 MS. LOPEZ: 15 Gordon respond to that. 16 MR. GORDON: DeWayne Gordon, First Deputy. So I think back in 2017, the City was engaged 17 18 in the Bloomberg Challenge. And one of the submissions was the Philly 1 Form Project was 19 going to look at the 32 housing-related 20 21 projects or programs to see if they can create 22 one project. And so the City did not win that, 23 that grant. And so it kind of fizzled out. 24 So when I came on board, I picked it up.

1 And so, of course, we didn't have the \$1.2 2 million. And so we had to change the scope of 3 the project to make it more intergen (ph). 4 And so as a result of that, we are taking 5 a more thoughtfully measured approach to it. 6 And so what we're looking to do is still do the same thing, but we're going to look to include 7 a tech solution for this. 8 9 So with that tech solution, we're thinking 10 that by the summer we should have that in place. And so we should be able to roll out 11 12 something in a pilot-type fashion. COUNCILMAN DOMB: So what would be the 13 benefit to the residents? What's the end game? 14 15 MR. GORDON: So for one, from the citizen's perspective, if you were looking to 16 apply for a housing-related program, you would 17 go and apply for it. If you wanted to try 18 19 another one, you had to resubmit all your information again. So this happens over and 20 21 over and over again. 22 And so what we're saying is that they 23 would only have to submit their information one 24 So it speeds up the process as far as time.

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1	approval. But it also increases efficiency			
2	internally. So at that point, we are able to			
3	process a lot more applications. And so we			
4	should see a reduction in time and a reduction			
5	in expenses, as far as across the entire			
6	program.			
7	But also what this project does is it			
8	allows us to capture metrics across the board			
9	that we're not able to do right now. So we can			
10	look at the programs and understand engagement.			
11	We can look at participation. We can look at			
12	declination. We can look at a lot of different			
13	things, and we can make more intelligent			
14	decisions as far as keeping programs or			
15	introducing new programs.			
16	COUNCILMAN DOMB: So give me two or three			
17	examples of housing-related assistance programs			
18	that this will touch.			
19	MR. GORDON: I think that LOOP is one of			
20	them.			
21	COUNCILMAN DOMB: Is OOPA involved, too?			
22	MR. GORDON: Who?			
23	COUNCILMAN DOMB: OOPA, Owner Occupied			
24	Payment Agreement?			
I				

1 MR. GORDON: I think that's one of them. 2 COUNCILMAN DOMB: And the Senior Program, would that be a part of it? 3 4 MR. GORDON: It will be. 5 COUNCILMAN DOMB: So then my other 6 question is can you also include some of the benefits we have to fill out like EITC forms. 7 8 Can that be added in? 9 MR. GORDON: It could be, possibly. So 10 what we're doing is we're going to explore everything. So we're going to look at all the 11 12 different forms. We're going to look at all 13 the different programs across the City. The reason we're starting with these 14 15 housing-related programs is just because that was what was originally scoped out. So at this 16 point, pretty much everything is on the table 17 18 as we progress through this. 19 COUNCILMAN DOMB: I would give this suggestion. Since we still leave \$100 million 20 21 in Washington that 40,000 residents qualify 22 for, whenever we can get out the word on the 23 earned income tax credit, I would incorporate 24 it as much as you possibly can.

1 MR. GORDON: Absolutely. 2 COUNCILMAN DOMB: Okay. I have another 3 question. Why doesn't the Office of 4 Administrative Review -- or if you ever thought 5 about this -- get involved in handling the 6 property assessment appeals? MR. GORDON: I'll let Melissa Andre, who's 7 the Executive Director for OAR, address that. 8 9 MS. ANDRE: Melissa Andre, Executive Director of Office of Administrative Review. 10 11 Good morning. Per the regulations, the Office of 12 Administrative Review and the Tax Review Board 13 is only allowed to hear interest and penalties 14 for real estate cases. 15 16 We hear the principal for other kinds of tax matters, like refuse or business tax 17 18 matters. 19 But unfortunately, the statutes are very 20 clear about the -- I'm sorry. The statutes are 21 very clear that the Tax Review Board can only 22 hear interest and penalties, and the exclusive 23 jurisdiction for principal matters for the 24 principal resides with the OPA. So

Committee of the Whole April 16, 2019

1 unfortunately, we cannot touch that. 2 COUNCILMAN DOMB: So let me make sure I understand. You handle the interest and 3 4 penalties. OPA handles the principal? MS. ANDRE: 5 Correct. 6 COUNCILMAN DOMB: It might be more 7 efficient if we had one entity handling both, 8 wouldn't it? 9 Well, with all respect -- and MS. ANDRE: I know what that really means -- unfortunately 10 OPA has the ability to look at tax assessments 11 12 as a whole. And they are the ones who are tasked with going out, seeing what the 13 properties look like and looking at the rest of 14 the City in terms of taxes and all the other 15 16 factors that go into it. My office is just charged with allowing 17 people the opportunity to explain themselves 18 19 and request abatements for interest and penalties, especially when we know that -- over 20 21 years, that could be more and almost half as 22 much as the principal that's due. 23 And OPA has a whole set of circumstances and regulations that kind of direct them how to 24

1	come up with the tax assessments. So we try to
2	be as helpful as possible and refer people to
3	OPA all the time. But most of the time,
4	they've already exceeded their appeal period
5	there. And so coming to us is to really come
6	up with a way to pay the taxes that are due.
7	COUNCILMAN DOMB: Okay. Thank you very
8	much. Thank you, Mr. President.
9	COUNCIL PRESIDENT CLARKE: Thank you,
10	Councilman. The Chair recognizes before I
11	do that. Councilman Domb brought up an issue
12	about one of the things that you talked about
13	is highlighting and referencing things
14	online of all the various housing-related
15	programs. I'm going to get into another
16	shameless plug. I take the liberty of doing
17	this.
18	We did this document, City Council,
19	narrowing the gap remember that? And one of
20	the things that we focused on, particularly
21	relating to the social safety net, we talked
22	about the City, essentially, referencing all
23	programs and cross promoting programs, as
24	opposed to going to every agency to find out

1 what benefits people are eligible for and 2 access. So can you all review this, if you haven't 3 4 already done so, that portion of the benefits -- and it includes the things that 5 Councilman Domb referenced -- to see -- make 6 sure that we can have all of these various 7 programs on a one stop shop, because that's 8 9 important. 10 MS. LOPEZ: We'd be happy to. 11 MR. GORDON: Just to add on to that, 12 that's exactly what we're doing. That's part 13 of the entire scope -- is to start with the housing-related programs, but to look across 14 the entire enterprise, whether it's 15 health-related, social services, whatever, and 16 see how they can enroll into this program. 17 18 But more importantly, what this project is 19 going to do is allow us to look at the data and 20 the information more strategically, so that the 21 City can become more proactive as far as 22 engagement. 23 COUNCIL PRESIDENT CLARKE: It's not just 24 City, though. I'm talking about State and

Committee of the Whole April 16, 2019

		Page	30
1	federal. We can do that.		
2	MR. GORDON: Yep.		
3	COUNCIL PRESIDENT CLARKE: Okay. That		
4	would be very helpful. That gets us to a point		
5	where we need to do.		
6	And my assumption that all this		
7	information will be available at the City's		
8	library, so because a big part of the		
9	problem, particularly people in this particular		
10	category, they don't have access to the		
11	internet. So we can make sure, if you guys		
12	will work with not only the library, but the		
13	community schools, because that's a big		
14	component that we're going to be promoting,		
15	that people can go to community schools. They		
16	can go to libraries. And even rec centers, you		
17	know, to access this information. Can we do		
18	that?		
19	MS. LOPEZ: Yep.		
20	COUNCIL PRESIDENT CLARKE: Thank you.		
21	The Chair recognizes Councilwoman		
22	Quiñones-Sanchez.		
23	COUNCILWOMAN SANCHEZ: Thank you. Good		
24	morning, folks.		

1 MS. LOPEZ: Good morning. 2 COUNCILWOMAN SANCHEZ: Just for clarify purpose, you said the performance contracting, 3 4 you had to decrease it by 50 days. So how many 5 days -- because I know, initially, our goal was 6 to get it down from 110. So how many days? 7 MS. LOPEZ: So we've reduced it between 25 and 50 percent. 8 9 So when I first started looking at this, it was about 135 days. We've got it down to 10 about 110, 112. And then --11 12 COUNCILWOMAN SANCHEZ: What's your goal? 13 MS. LOPEZ: It's 90. And then one of the 14 other things that the contracts unit -- led by TJ Williams we just launched -- is an expedited 15 contract process. So we even try to take a 16 look at some set of RFPs, if you will, and 17 reduce the amount of steps to even get it 18 19 processed more expeditiously. 20 COUNCILWOMAN SANCHEZ: Yeah. I'm very 21 concerned about, and, you know, I say this to 22 the commerce and others, we have a lot of 23 nonprofit partners. And these are like annual 24 contracts. This notion that they still have to

1 wait until December to get conformed contracts 2 and payment is a burden sometimes on folks, 3 right? 4 And so these expedited contracts, are 5 those going to be for those kind of annual 6 renewal contracts that we have all over the 7 place? MS. LOPEZ: So as along as there's not a 8 9 change in scope and not a change in the dharma, they do include that. They would qualify. 10 11 And the steps, I mean, I actually, and I 12 know this is a stretch goal, but I, actually, think those contracts could get through the 13 process in seven days. I know it's a stretch 14 goal, but I don't -- it's pretty... 15 16 COUNCILWOMAN SANCHEZ: If we actually force nonprofits to take off loans and stuff, 17 because without a conformed contract, then we 18 get to the invoicing part. It's one of the 19 biggest frustrations I've had. 20 21 Having come from the nonprofit world and 22 having to manage cash flow, and the fact that 23 the City manages -- we manage our cash flow on 24 the backs of small nonprofit vendors.

1 MS. LOPEZ: We're happy -- I mean, we have 2 a great relationship with DHS. We're happy 3 meet with them. They are great partners. 4 COUNCILWOMAN SANCHEZ: No, but I'm talking 5 across the board, because commerce has -- you 6 have the street cleaning and the corridor folks, you know, they don't have conformed 7 contracts until December. 8 9 You know, DHS -- again, those are annual 10 contracts. I don't know why we start July 1st from scratch, and it's September, October for 11 12 people to get a contract, to get it conformed 13 in December, because that's the period during the holidays is when you're getting all the 14 calls of like we have five months of invoices. 15 And we have to get it processed and that kind 16 of stuff. 17 Well, I mean, we'll keep working at 18 Okav. 19 it. And then, real quick, how many, you know, we really have been trying to encourage 20 21 departments and their diversity efforts. How 22 many departments have utilized their frontline 23 staff in creating bilingual positions? What's 24 the utilization rate? What departments --

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

```
1
     anything new on that?
 2
          MS. LOPEZ:
                      So I can -- I don't have the
     list in front of me. I can get the list to
 3
 4
    you.
          There are -- I know in prisons they are
 5
     doing a lot work bilingual positions,
     correctional officers, fire fighter. The fire
 6
    department for fire fighters doing a lot of
 7
    work -- human services. They are the ones who
 8
 9
    are -- yeah, human relations. They are the
10
    departments that are standing out at the top of
11
    my head. We do have a list. I can definitely
12
     get that to you.
13
          COUNCILWOMAN SANCHEZ: Okay. Yeah, if you
14
     could report that to the Chair I'd be
     interested to see which departments are
15
     utilizing it as a way of diversifying.
16
17
          MS. LOPEZ: Yep. The rec leader
     training -- we announced a bilingual specialty.
18
19
    And so we got some nice applicants. And we're
    pretty excited about that list, as well.
20
21
          COUNCILWOMAN SANCHEZ: Okay. All right.
22
     Thank you. Thank you, Mr. President.
23
          COUNCIL PRESIDENT CLARKE:
                                     Thank you,
24
     Councilwoman.
                    The Chair recognizes
```

1 Councilwoman Parker.

COUNCILWOMAN PARKER: Thank you, 2 Mr. President, and hello to each of you. 3 4 Let me just start with a word of 5 encouragement to DeWayne Gordon and Terrance 6 Arthur, who led the Parking Amnesty Initiative, in addition to the PPA meeting we held. 7 Thev also attended several town hall meetings and 8 9 budget briefings throughout the 9th Councilmanic District to help constituents gain 10 access to the program. So I wanted to start by 11 12 thanking them. 13 Can you share with me how the City's 14 wellness program is working. And there's nothing worse than developing a program that we 15 want to benefit the City, but then you learn 16 that it's not being utilized. 17 18 So what has that participation been like? 19 MS. LOPEZ: So I'm going to ask our deputy 20 HR Director Marsha Greene-Jones to come up. 21 COUNCILWOMAN PARKER: And just, if you 22 will, also, give us a 30 second what is the 23 wellness program, because somebody is watching 24 at home and they don't know what in the world

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 we're talking about.

2	MS. JONES: Okay. Hello. Marsha
3	Greene-Jones, Deputy Human Resources Director
4	responsible for health and welfare.
5	Our wellness program actually, the
6	purpose of it is to encourage employees to live
7	a healthy lifestyle. And that's not only just
8	their general, but we believe that if employees
9	are healthy, they actually have a better work
10	life balance.
11	So one of the things we focus upon is
12	employees actually engaging with their personal
13	physicians, by having biometric levels taken on
14	an annual basis, completing a health-risk
15	assessment, and engaging in other wellness
16	activities that are focused upon physical
17	activity and other elements, in terms of making
18	them a whole being, in terms of their wellness
19	life.
20	Our wellness participation, actually,
21	continues to rise. So I have to say the City
22	of Philadelphia, in terms of our employees
23	engaging and really responding to the fact that
24	we want to educate, because if we educate our

Committee of the Whole April 16, 2019

	5
1	employees, they will be more apt participate
2	and engage on a better level.
3	So our participation levels for recently
4	were 49.3 percent in terms of our wellness
5	participation rate. That means not only the
6	employee, but their covered spouse also
7	completed the wellness activities.
8	The national average is 35 percent. So
9	we're exceeding that national norm.
10	COUNCILWOMAN PARKER: The national average
11	is what?
12	MS. JONES: About 35 percent.
13	We also have rolled out wellness for our
14	retirees, who are participating in our health
15	program. Their participation rate is 33.8
16	percent. We rolled this out two years ago. So
17	it's growing over time. And we think that it
18	will actually long term give us some excellent
19	results.
20	So one of the things wellness also does is
21	it manages our cost. So if people
22	COUNCILWOMAN PARKER: And I'm glad you're
23	going there, because we hear wellness. We're
24	higher than the national average. But the

1 question is, how does this economically benefit the bottom line and pocketbook here in the City 2 3 of Philadelphia? 4 MS. JONES: Well, how it affects us, I 5 have to say, is that we have had less employees 6 actually hospitalized in a hospital. We've saved over a million dollars in terms of that. 7 Actually, employees are taking medications. 8 9 Our generic medications, we're at 86.9 percent participation rate in that. 10 11 In terms of our management of our 12 specialty drug program, that is at an all time 13 hiqh. We've also been able to save over a 14 million dollars in our prescription cost, 15 16 because employees are going to the doctors more regularly and it's not people going to the 17 18 emergency room, because they haven't been 19 compliant in terms of what their doctors have 20 asked us to do. 21 So overall, through all of the things that 22 we do, whether it's a wellness program, whether 23 it's a lunch and learn -- we've had 900 24 employees voluntarily participate in the lunch

and learn to learn about their healthcare
 program.

One of the things that the Mayor has -one of his fillers is education. We believe it's important, as well. When we have informed employees, they make informed decisions.

So we have the wellness program. We have
a newsletter that I'm sure you all see on a
regular basis. We also have participated in
some other programs.

11 We recently won an innovation award 12 through the Greater Philadelphia Business 13 Coalition on Health regarding our approach to wellness. And our topic that we actually won 14 the award on was about, actually, learning 15 our -- how adults learn about their wellness 16 programs. So we approach it from that 17 18 perspective, and we won an innovation award as 19 a consequence of that.

20 COUNCILWOMAN PARKER: Well, so thank you 21 for that update. That actually brings me into 22 my next question, which is an update on 23 progress on this efficiency work that's been 24 occurring in OHR.

1	There is nothing more important for us
2	than to see whether or not you know, you get
3	accustomed to doing things the way they've been
4	done, you know, since the beginning of time.
5	And there's sometimes a reluctance in
6	bureaucracy to embrace new strategies.
7	So talk to me about our work relative to
8	efficiency.
9	MS. LOPEZ: So thank you. This is going
10	to be, I think, a longer-term project, but we
11	have seen some immediate results.
12	We've issued a small RFP, because we want
13	to re-brand the City as an employer of choice.
14	We think we have some great opportunities, and
15	this is a great place to work. And we need to
16	tell our story and tell it for folks that are
17	in today's marketplace.
18	So millennials you know, will be our
19	first graduates of generation Z. So they want
20	to find their jobs through social media,
21	generally. So we've done a lot more videos and
22	posting on LinkedIn and things like that.
23	So we want to take that a little bit
24	further, and we want to have a common brand for

1 every single City agency to use when they are marketing their position. 2 The other thing we're doing is we've 3 4 identified an opportunity to really focus on 5 the talent that the departments need, and not 6 focus as much on years of experience at X 7 level. It's more competency based and behavioral based. So you need to be a good 8 9 negotiator and things like that. 10 So we have an RFP on the street right now looking for different types of assessments. 11 12 Perhaps there's video assessments or other ways other than a written multiple choice that we 13 could assess a candidate's capabilities to do 14 15 the job. 16 COUNCILWOMAN PARKER: Versus traditional testing --17 18 MS. LOPEZ: Yes. COUNCILWOMAN PARKER: -- because we all 19 know some people test well on standardized 20 21 tests and some just don't, but that doesn't 22 mean that they are not competent and they don't 23 have the ability to do the work. 24 Exactly. So we're engaging in MS. LOPEZ:

Committee of the Whole April 16, 2019

1 some pilots in that, as well.

2 The other big component, and we're bringing a consultant in to help us, is time to 3 4 hire. So there's a lot of different hands that 5 go into the hiring process. Some are in the 6 central agency, some are in the departments. From a candidate's experience, it doesn't 7 matter. And we shouldn't expect the candidate 8 9 to know where to go. It should just be 10 seamless. 11 So we're trying to map that out, identify 12 the time it takes at each interval, the 13 pinpoints, and then see what we can do to leverage technology and really kind of make 14 this more of a seamless process. 15 16 Just to give you -- I have to talk about the rec leader training, because it was such a 17 fun project. So we totally -- we redesigned 18 19 the spec, the job description. We redesigned 20 the exam --21 COUNCILWOMAN PARKER: Council President 22 Clarke talked about that yesterday during the 23 hearing. Go ahead. 24 MS. LOPEZ: Yeah. It was great. So we

1	communicated. We increased our engagement with
2	our candidates. We overcommunicated so the
3	exam was last week. And we told them when they
4	are going to get the results from the exam
5	about where they rank on the list. And we told
6	them when their interview is going to be
7	scheduled.
8	COUNCILWOMAN PARKER: So they know that
9	already?
10	MS. LOPEZ: They know that already. It's
11	May 13th. And we've worked with the Department
12	to line all that up. And not only do we have
13	the interview scheduled the week of May 13th,
14	we know when they are going to get the offer
15	letters out.
16	So that you know, all of the graders
17	for the exam, they received implicit bias
18	training. So we're really trying to change the
19	engagement and really trying to have a benefit
20	for the City.
21	COUNCILWOMAN PARKER: I know I heard the
22	alarm ring a bell, but when you talk about
23	branding the City as an employer of choice,
24	that has to be about also diversity, because
1	

STREHLOW & ASSOCIATES, INC. (215) 504-4622

Committee of the Whole April 16, 2019

1 you just mentioned that implicit bias training. Talk about that. Welcoming, you know --2 3 we're branded, but we want to welcome diversity 4 and that implicit bias training. 5 Absolutely. So we are MS. LOPEZ: 6 incorporating an inclusive lens on everything we do. 7 So the school crossing guard, you know, 8 9 the recruitment strategy for that was a faith based recruitment strategy and a community 10 engagement. So we got into the schools, and we 11 12 worked through the faith-based network, if you will. 13 Office clerk --14 15 COUNCILWOMAN PARKER: So we've already done this? 16 MS. LOPEZ: We have. 17 18 COUNCILWOMAN PARKER: So it's highly 19 likely, and it's a really good position to think about, because based on the work that 20 21 they do and its value and them being in the 22 elements, I would always like and appreciate it 23 when my crossing guard actually lived in the 24 neighborhood where they worked.

1	So when you did you find that while
2	going directly into the school, themselves,
3	along with faith-based institutions, were you
4	able to pull from the local pool in that
5	neighborhood or ZIP code?
6	MS. LOPEZ: And I also I'm going to ask
7	Val Hosendorf, who's the deputy of our hiring
8	services, who's doing an amazing job leading
9	the change so I just want to ask Val to come
10	up, too.
11	So we don't have the list yet, but we were
12	able to get over 1,400 applications. So that
13	is
14	COUNCILWOMAN PARKER: Is that high?
15	MS. LOPEZ: It's really good. It's really
16	good.
17	MS. HOSENDORF: Good morning. Valerie
18	Hosendorf, Deputy Director of Hiring Services.
19	So thank you for that question. So we're
20	excited about this. And the way the
21	certification process was going with school
22	crossing guard was a little challenging for
22	that department.
23	

with them to be more strategic. So they are
allowed to when the apply for the exam, they
are allowed to say I would like to work in this
district. To your point, it's typically where
they work where they live. And, of course,
sometimes certain districts have more
candidates than others. So the department is a
little challenged.
So we work with them with a strategy to
reach out to folks who may not live exactly in
that district, but nearby so that they can have
an opportunity.
So for this exam, we actually offer the
candidates an opportunity to give us three
places where you might like to work, where it
could be close to you, or maybe you have a car
and you want to go to different places.
Because we want to be able to hire as many
school crossing guards as possible. And so
that's been very helpful and we're getting a
lot of folks coming back. Because the
application that's going on now I think we
just finished, right so we have a large
application pool.

We also wanted to make sure there were no 1 2 barriers, because as we're doing a lot of investigation and research, we find out 3 4 sometimes there's no shows or people who apply 5 and then there's some place where they fall off. 6 So one of the barriers that we thought was 7 that written exam, as you guys mentioned 8 9 before. So we took that away with the 10 agreement with the police. So there's no written exam. It's just ability to read and 11 12 write English. And we're really excited about 13 that, because now almost everyone in those neighborhoods will be eligible to be a school 14 15 crossing guard. COUNCILWOMAN PARKER: Well, listen, thank 16 you for sharing that information, because what 17 that means is that from an assessment 18 19 perspective, we paid attention to a barrier to 20 entry to access to the opportunity to work for 21 the City of Philadelphia in that capacity. 22 We observed it. It was, you know -again, actually, the testing. And just because 23 24 I don't test well, it doesn't mean that I don't

1 have the ability to perform the job. So listen, thank you for sharing that. 2 Ι know my time is up, Madam Chair. And thank you 3 4 so much. 5 COUNCILWOMAN BROWN: Thank you, Madam 6 Chairwoman. Councilman Domb? Thank you, Madam Chair. 7 COUNCILMAN DOMB: Good morning still. A few more questions I 8 9 just wanted to ask. I wanted to follow up on Council President 10 Clarke and Councilwoman Quiñones-Sanchez's 11 12 question. I just would like to know a specific timeframe -- if I apply for a job with the City 13 of Philadelphia today, when will I hear? 14 MS. LOPEZ: So time to hire is a big 15 challenge in the City government right now, 16 which is why we have a consultant coming in to 17 help us with that process. It is very 18 19 juxtaposed. And it goes through many different 20 touch points. 21 And right now, we are not able to collect the true amount of time at every touch point to 22 23 be transparent. 24 So we know labor, because that is the

1 Streets Department does track intimately, that 2 hiring process. We know that for a laborer, 3 it's a little over six months, clearly not 4 acceptable. 5 COUNCILMAN DOMB: When you say laborer --6 what are you referring to when you say laborer? 7 MS. LOPEZ: So if you -- the majority of our laborers work for the Streets Department, 8 9 Sanitation. And so they're our trash --10 COUNCILMAN DOMB: It takes six months? 11 MS. LOPEZ: Yes. And it's not acceptable 12 and we know that, which is why we have some 13 external help coming to help us think that 14 through and to automate some of the processes. It looks like six months and eight days, 15 16 actually. COUNCILMAN DOMB: Did you see the report 17 18 done by the Pew Organization on our hiring 19 process? 20 Yes. We have it. MS. LOPEZ: 21 COUNCILMAN DOMB: Okay. And I mean -- I 22 don't understand how somebody could wait six 23 months for a job. 24 MS. LOPEZ: So we didn't disagree with

1 you, which is why we're completely all in and 2 completely engaged in improving this. The rec leader training, what we just went 3 4 through, it wasn't -- it took us about three 5 months, but our engagement was so high with the 6 candidates, we think the experience is going to feel differently. 7 Some of the teams -- and under Val's 8 9 leadership, they have just really done some 10 awesome work. 11 One of the exams, they actually asked the 12 candidates for their time they want to come and 13 take the exam, would they prefer morning or afternoon. And that resulted in over an 14 80 percent show rate. So we're trying to 15 16 increase the engagement. And this is before we know what the actual process and the pinpoints 17 18 are. COUNCILMAN DOMB: Have we looked at other 19 20 cities similar to us to see what they're doing 21 that we could possibly duplicate? 22 The Pew report did a nice job MS. LOPEZ: at benchmarking. So we have a lot of that 23 24 information. And we do have relationships with

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 other cities that we've been talking to. We're 2 hoping that the consultant can help us with a 3 lot of it, as well. 4 COUNCILMAN DOMB: What is the goal, you 5 think? What's realistic? 6 MS. LOPEZ: I mean, I would love 90 days. That would be awesome. I think the challenge 7 8 that we're going to have to think through is 9 the two year list, and so how do we continue 10 the engagement. Because while maybe we're not going to be 11 12 able to get to number 9,000 on the list, maybe 13 we can realistically can get to 1,500. I mean, that's the thing. We're going to have to be a 14 little bit more strategic about it. 15 16 COUNCILMAN DOMB: I mean, three months sounds long to me. 17 18 MS. LOPEZ: I mean, I've worked in 19 corporate and I don't think three months is that crazy. You know? I mean three months 20 21 is -- it's about the engagement and having the 22 touch points, so the technology right now to do 23 that, so we just --24 I'm just trying to COUNCILMAN DOMB:

1 understand -- what is the hold up in hiring 2 somebody? Like they take a test. I assume you're running credit reports, which are -- you 3 4 can run those in five seconds. Are we running 5 police checks or criminal checks? What else is 6 the hold up here? Interviews with people, that can be done in a week. 7 8 MS. LOPEZ: So scheduling is always a 9 challenge. And indebtedness check, I mean, we 10 started unpacking this process. And the 11 indebtedness check is a big barrier. 12 We're piloting --13 COUNCILMAN DOMB: What was that called? 14 MS. LOPEZ: Indebtedness check. So Do you 15 owe taxes, do you owe parking tickets, things like that. 16 COUNCILMAN DOMB: Yeah. But we have 17 now -- a bill that we passed here that you have 18 19 to have a tax clearance certificate. Wouldn't 20 that be the same type of check? 21 MS. LOPEZ: That is some of the things we're looking at. Exactly. That's exactly 22 23 some of the things we're looking at. 24 COUNCILMAN DOMB: You don't have to wait

1 months for that. 2 MS. LOPEZ: We agree with you. We're in 3 agreement. And we're starting to unpack that 4 now. 5 COUNCILMAN DOMB: I think you got to rip 6 this all apart and just make it simple. It's 7 too complicated. Really. This is insane. I'll sit with you for an hour, and we'll get 8 9 this resolved. It's crazy. MS. LOPEZ: 10 Yeah. 11 COUNCILMAN DOMB: I would like to see us 12 change our goal to 30 days. I don't think it's 13 fair to ask people to wait three months in order to get hired by the City of Philadelphia. 14 I really don't. 15 16 MS. LOPEZ: So when are you starting the three months? Because I'm starting at the time 17 of application. 18 19 COUNCILMAN DOMB: I'm starting mine at 20 time of application. 21 MS. LOPEZ: And you have the exam. 22 COUNCILMAN DOMB: How long does the exam 23 take? 24 The exam process, because you MS. LOPEZ:

1 have to post it for two weeks. That's in the 2 regulations. Then go through -- you have 3 notification. And there's some requirements 4 there, so it's about eight weeks. 5 COUNCILMAN DOMB: Maybe those regulations 6 need to be changed. 7 MS. LOPEZ: That is something we're going to look at. 8 9 COUNCILMAN DOMB: I'm sure any one of us 10 would be happy to introduce those changes, 11 because the process is too cumbersome. 12 MS. LOPEZ: You're not hearing an argument 13 out of any of the HR team. We are all on 14 board. 15 COUNCILMAN DOMB: Because everyone who comes here has trouble filling position, 16 because of the time. We're hurting ourself. 17 18 MS. LOPEZ: Yeah. We agree. 19 COUNCILMAN DOMB: And then the other 20 question is, if I'm a contractor -- I'm going 21 to follow up with what my colleagues have 22 said -- what is my expectation if I finish my 23 job today and I submit a bill to the City of Philadelphia today, April 16th -- is today the 24

16th, yeah -- when will I get paid? 1 2 MR. GORDON: If everything is in order --COUNCILWOMAN BROWN: Please give your name 3 4 for the record. 5 I'm sorry. DeWayne Gordon, MR. GORDON: 6 First Deputy. If everything is in order, the contractor can get paid within 30 days. And we 7 see that, when everything is in order, on a 8 9 consistent basis. 10 It's when there's, you know, missing There are questions. So when that 11 items. 12 happens, the time, as far as payment, it 13 varies. COUNCILMAN DOMB: How do we handle that? 14 Because I will say, I think if you were to pick 15 up the phone and call the vendor or the 16 contractor and say to them, Hey, listen, if you 17 want to get paid, we need to get this resolved. 18 Probably in 24 hours, they'll resolve it 19 20 because they want to get paid. 21 MR. GORDON: Sometimes that works, sometimes it doesn't. 22 23 COUNCILMAN DOMB: What are the issues that 24 are hold up to get vendors paid?

1	MR. GORDON: It varies from where there's
2	some issues or questions around the purchase
3	order. It varies from internal issues where
4	there might be some people out of the office
5	for an extended period of time. It's just all
б	over the place. I mean, it's just sometimes
7	it's with the vendors, and sometimes it's with
8	us, internally.
9	COUNCILMAN DOMB: I think my time's up.
10	COUNCILWOMAN BROWN: Continue with this
11	line of questioning, and then I have some.
12	COUNCILMAN DOMB: Okay. Normally it's 30
13	days, but when there's hiccups, it could be 60
14	days, maybe.
15	MR. GORDON: If everything is in place, it
16	could be paid within 30 days, consistently, but
17	we're not seeing that across the board. So the
18	vast majority, I would say, probably are not
19	paid within 30 days.
20	We don't the City does not have a time
21	standard as far as, you know, we will get it
22	done within 60 or 90 days, whatever. That's
23	the purposes of the vendor payment project.
24	So we're streamlining that process so we

1 can rule it out and have vendors paid within 60 2 days, with the ultimate goal being down to 30 3 days. 4 COUNCILMAN DOMB: Because, you know, if 5 you're a vendor, you know it's going to take 6 longer to get paid, you're going to charge us 7 more money. MR. GORDON: Right. So one of the things 8 9 that we're working on is vendor education. So we have a lot of vendors that -- they just 10 package up their invoices and submit it to 11 12 whatever department that they are friendly 13 with. So our internal staff, it takes them about 14 30 to 35 percent of their time just to sort 15 through all these invoices every single day. 16 And so once that happens, those invoice are 17 then brought to the right department, and then 18 19 that process, you know, takes off from there. But the process actually starts when they 20 21 submit that packet in, right? 22 So when you say, you know, what issues do 23 we have, that's a main issue, right? So we're 24 not only going to address the internal, we're

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

going to look at the vendors and educate them,
 as well.

3 COUNCILMAN DOMB: When someone contracts 4 with the City, do you give them a form or a 5 contract that they sign, that basically says in 6 order to get paid by the City, these are the 7 following items we require?

8 MR. GORDON: So we've created a checklist, 9 a vendor checklist and internal check list. 10 And part of that is listing out exactly what 11 you just said. Everything must be a part of 12 that packet.

And we have -- we're going to implement strict rules that when that's submitted, if one document is not there, it's to be rejected, because that's part of the hold up if something is not there.

18 It goes through the process -- by the time 19 it makes it to Finance to the Controller's 20 Office, it goes all the way back to the 21 beginning, right? 22 And so with the checklist, there's great 23 adherence at that point. And we can actually

24 measure that.

1 COUNCILMAN DOMB: Is this process done by 2 paper moving around the City? MR. GORDON: A lot of it is done by paper. 3 4 There's some vendors that have a level of 5 sophistication where they can do it digitally. 6 So we are moving away from paper and having it 7 done electronically. 8 COUNCILMAN DOMB: Thank you. Thank you, 9 Madam Chairwoman. You're welcome. 10 COUNCILWOMAN BROWN: You're very welcome. The question I put here 11 12 in response to Councilman Domb's line of questioning is technical assistance. 13 So I hear 14 you say you have an internal checklist for 15 vendors? 16 MR. GORDON: Correct. 17 COUNCILWOMAN BROWN: Okay. And so operate on a philosophy, you can't hold people 18 19 responsible for that which they don't know. In what ways are you arming vendors with 20 21 the requisite information they need to meet the criteria at the door? 22 23 MR. GORDON: When we roll this out, we're 24 working with two departments, OIT and The

Committee of the Whole April 16, 2019

1 Streets Department. And so part of that is going to be the communication to the vendor. 2 3 COUNCILWOMAN BROWN: How does that happen? 4 MR. GORDON: So we would email the information to the vendor. 5 6 COUNCILWOMAN BROWN: T see. MR. GORDON: And so we have individuals 7 that have agreed to work with us in the Streets 8 9 Department and within OIT to work with those vendors to get them acclimated to this new way. 10 And so we will measure that as far as 11 12 adherence and so forth. And then that way, we 13 can take corrective actions when need. 14 COUNCILWOMAN BROWN: How long have you 15 been on board? 16 MR. GORDON: About a year and a half. 17 COUNCILWOMAN BROWN: I see. To the Chief 18 Officer for -- Chief Administrative Officer, 19 you've spoken well to the diversity and inclusion trainings that you're having across 20 21 the government. 22 Update us, if you will on the mandatory 23 sexual harassment training, which was authored 24 by my office.

1	MS. LOPEZ: Yep. So I think I'm going to
2	ask Tracey Bryant to come up and speak a little
3	bit about that. Tracy's from the HR and Talent
4	Team. And we're partnering with the Mayor's
5	Office of Labor Relations. And she's leading
6	the sexual harassment training.
7	COUNCILWOMAN BROWN: Okay.
8	MS. BRYANT: Hello. Tracey Bryant, Deputy
9	Director of Talent Management in HR and Talent.
10	So we're we've been working with the
11	Mayor's Office of Labor Relations and pretty
12	much getting them set up for the training for
13	sexual harassment prevention with the City.
14	And how we set it up, we divided the
15	training into employee groups. So we have a
16	plan for how we'll deal with new hires, then
17	how we deal with the executive training, and
18	then how we train the HR managers, the managers
19	and supervisors. And then also the rest of the
20	employees with eLearning. So
21	COUNCILWOMAN BROWN: How far down the road
22	are we?
23	MS. BRYANT: We're actually on schedule.
24	And we have established new hire training with

1	our centralized wording program. We also have
2	trained the entire Executive Leadership Team,
3	including the Mayor, himself. We've also
4	completed our HR managers and professionals
5	training. They received training on conducting
6	investigations.
7	And then now we are moving towards
8	managers and supervisors, training them. And
9	then next up will be the eLearning.
10	COUNCILWOMAN BROWN: Okay. I might add
11	parenthetically that the Mayor was very pleased
12	that he just completed his training last week
13	on the same day that we celebrated Teal Day,
14	which is a celebration of domestic violence
15	month. So thank you for that.
16	How do you share that information with the
17	City Controller's Office and the work, the
18	monitoring work, that they do in this area?
19	MS. LOPEZ: So we periodically meet with
20	the City Controller's office. The sexual
21	harassment prevention is being led by the
22	Mayor's Office of Labor Relations. So
23	generally, they are the contact. And then
24	we're supporting them through the training

1 work.

I'm curious 2 COUNCILWOMAN BROWN: I see. to know if during MED Week, when the focus is 3 4 MBE, WBEs for the region, has your office ever 5 offered a workshop on what Councilman Domb has 6 spoken to, how the City's strategies, the City's methodology for payment to vendors? 7 Have you ever had a chance to participate in 8 9 that way so you can arm these MBE, WBEs of what 10 our system are, then they know how to approach 11 dealing with our government? 12 MS. LOPEZ: So we are very active with MED 13 Week. We partner with IOLA. We host the Open 14 for Business event. 15 COUNCILWOMAN BROWN: Is that the one at 16 the Airport? Nope. That's the one at the 17 MS. LOPEZ: Horticultural Center. So OEO does the opening 18 19 ceremonies. And then we -- you go into the next room, Open for Business. That's the CAO's 20 21 office that does that in partnership with OEO. 22 And the Procurement Department also hosts a 23 workshop. 24 But I think your idea about DeWayne

1	hosting a workshop on vendor payment is a great
2	idea, for this year in October.
3	MR. GORDON: So one of the things that we
4	did this past engagement was we actually had
5	focus groups. And so we were in the middle of
6	when we were formulating this project. So we
7	actually invited several vendors out to get
8	their thoughts, concerns, paying points, gaps
9	as far as with the process. We got a lot of
10	great information.
11	COUNCILWOMAN BROWN: I bet.
12	MR. GORDON: And that's what helped us
13	build out this project even more.
14	So we'll continue to engage the eminent
15	focus group-type sections. And we'll utilize
16	MED Week to do that, as well.
17	COUNCILWOMAN BROWN: Okay then. My last
18	question, back to the one issue I care about
19	more than anything else, besides arts and
20	culture and hospitality and tourism, diversity
21	and inclusion, how far down the road are we
22	with the training that you're offering to
23	department heads? And then what is the method
24	by which you monitor to see how well department

1 heads are doing with what the Mayor has articulated? 2 3 MS. LOPEZ: So that work is being led by 4 Nolan Atkinson. 5 COUNCILWOMAN BROWN: Okay. What's the 6 interface between what he does and what your office does? 7 MS. LOPEZ: So, you know, Nolan is such a 8 9 thought leader in this space. I think we also like -- we work for him, which is awesome, 10 11 right? 12 So we're doing a lot of work on diversity 13 inclusion training so part of the eLearning, we're trying to incorporate some of that from 14 an eLearning platform and that's about reached. 15 But also, the implicit bias training, we have a 16 lot of social equity grant work that we're 17 doing, both in HR as well as in contracts. 18 So 19 a lot of the work is organic, and it's project 20 work. 21 COUNCILWOMAN BROWN: Is it still too early to have a measuring stick to see -- because 22 23 training is important. Training is necessary. 24 Training has value. At some point, you have to

hold leaders accountable for not honoring and 1 implementing what training provides for them. 2 MS. LOPEZ: So Nolan meets with us 3 4 quarterly. And as part of our quarterly 5 meetings, we go over our progress. And we talk 6 through strategies about --7 COUNCILWOMAN BROWN: Which departments don't get it? Do you talk about that? 8 9 MS. LOPEZ: We do not talk about that, because Nolan meets with individual 10 departments, so I can speak to my meeting with 11 12 Nolan. 13 What strategies do we work on that could possibly be leveraged in other departments, and 14 then where we're having challenges and asking 15 16 Nolan for some ideas and some potential strategies about how we can do a better job. 17 18 And Nolan meets every quarter with every 19 single department head. 20 COUNCILWOMAN BROWN: So then is it fair to 21 say that he is the arbiter, if you will, of 22 those departments that have figured it out, and 23 those departments that are moving like snails? MS. LOPEZ: I think Nolan does a really 24

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1	good job at holding us all accountable. Again,
2	I can only speak for me personally. But he's
3	very committed. And he's really pushed on CAO
4	to come up with strategies and ideas. I mean
5	the 10 recruitment list, the playbook, the best
6	practice research we did to get us where we
7	were, that was really Nolan driving that.
8	And so that's the sexual harassment, I
9	mean, Nolan really keeps us engaged and holds
10	us accountable.
11	COUNCILWOMAN BROWN: Very well. Thank you
12	all very, very much for your testimony.
13	MS. LOPEZ: Thank you.
14	COUNCILWOMAN BROWN: Forgive me.
15	Councilman Domb may have another question.
16	COUNCILMAN DOMB: Thank you, Madam Chair.
17	A few more questions, not too many more.
18	MS. LOPEZ: Okay.
19	COUNCILMAN DOMB: Just curious these
20	are just minor questions the time between
21	notification of the hearing date varies. Like
22	red light camera tickets is five weeks in your
23	report, and all other types is four months.
24	Any way to speed up that four months?

MS. LOPEZ: I'm going to ask Melissa
 Andre.

MS. ANDRE: Hello, again. Melissa Andre,
Executive Director, Office of Administrative
Review.

6 So the difference between the red light camera and the Tax Review Board is that they 7 are being run by different departments. 8 The 9 Tax Review Board is an internal on-site, where petitioners come in. They can email, they can, 10 literally, physically, hand in petitions. And 11 12 we process them on site on our system and then we schedule them. 13

The earliest we can do is actually three 14 to four months, because we've already 15 scheduled -- for instance, today we scheduled 16 for June already. So if you were to come in, 17 you wouldn't be able to have a hearing until 18 19 July at the earliest. And we take them as they 20 come. So if people have come before that, 21 they'll probably get an August hearing. 22 So when I first started back in July of 23 2017, that timeframe was closer to seven 24 months. So I was able to get that down to we

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 schedule any -- additionally, we, also, started to put out our schedule a little bit earlier. 2 This gives people more times. This also gives 3 4 the Department of Revenue and the Law 5 Department more time to reach out to 6 petitioners to come up with settlements, so that way the hearings don't take forever. A 7 8 lot of these matters have been settled before 9 they actually come to the hearing. 10 COUNCILMAN DOMB: So it's the backlog that's creating the delay? 11 12 MS. ANDRE: At this moment, there is no 13 backlog. At this moment, if you were to come in, you'd probably get a July or August 14 hearing, because that's the earliest hearing 15 16 you could get. Because again, we've already scheduled for 17 So I can't put you on the June schedule. 18 June. 19 And so you'd probably get right in, in July. 20 It's just a process. We've scheduled June 21 already. COUNCILMAN DOMB: But if we were to --22 23 then means it's a backlog. Because if June 24 wasn't scheduled, I could get scheduled in

1	June.
2	MS. ANDRE: True. But we try to schedule
3	at least six weeks out, as well. And that's,
4	again, because we want to be able to have a
5	schedule out. We don't want to notify people a
6	week before the hearing. We want to give
7	people time to get prepared.
8	COUNCILMAN DOMB: But right now, it's four
9	months out.
10	MS. ANDRE: Yes. Three to four months.
11	It's generally three months, actually.
12	COUNCILMAN DOMB: Is this an issue of more
13	people applying more people that could help
14	us clear out the backlog? What is the issue
15	that I have to wait until July or August now to
16	get a hearing?
17	MR. GORDON: I think part of the issue is
18	just, number one, the amount of people who come
19	in, and the different types of hearings that we
20	have. We have limited space. We have two
21	hearing rooms.
22	And then on top of that, we can only I
23	mean, based on our Hearing Master schedules and
24	when the departments can come. For instance,

L&I can only come on Tuesday -- I'm sorry, can 1 2 only come on Thursdays, because they already have hearings on Tuesdays. 3 4 So I mean, it's a issue of scheduling. We 5 do run a lot of hearings each week. Monday and 6 Fridays we run four different types of 7 hearings. The actual Tax Review Board, they meet 8 9 only on Tuesdays and Thursdays, so that is, 10 also, quite limiting in time. But we try to have at least 15 cases on every docket. And we 11 12 try to see people as soon as we can. But 13 unfortunately, three months to four months is 14 probably the fastest we'll ever be able to do it. 15 And in comparison with the red light 16 camera component, red light camera is actually 17 the initial, you know, ticketing, reviewing the 18 19 video, issuing the ticket to the person, having the person come -- identifying who the person 20 21 is, and then sending them the notification of 22 the ticket. That in itself, is a PPA process. 23 So once the person gets the ticket, we can 24 schedule them for a hearing between four and

And I think that's as fast as 1 five weeks. 2 probably we --3 COUNCILMAN DOMB: No. I'm okay with that. 4 My bigger concern is the four months for 5 everything else. 6 MS. ANDRE: Yeah. But unfortunately, when you're dealing with taxes and that sort of 7 thing, we do want to give people time to get 8 9 their paperwork in order. Oftentimes they come in after going to the 10 Department of Revenue, finding out that they 11 even owe this amount of tax, and then coming to 12 us wanting to resolve it. 13 So unfortunately, that's just the 14 parameters that we're working with. 15 16 Okay. Thank you. COUNCILMAN DOMB: Ι have another question now. 17 18 I will say this, I think from my 19 perspective, those who work in your department probably know the best ways to resolve this. 20 21 Because someone on the outside has no idea to 22 resolve it. But people that work for you know 23 what the roadblocks are. 24 And we should enlist them to help us make

ourselves more efficient. That's what I'm 1 2 suggesting. Because you know better than anyone else, because you're doing the systems. 3 4 And if you have recommendations, you should let 5 us know, let Christine know, and we should 6 implement them. Because the best resources come from the people who work for us. 7 8 MS. ANDRE: I think that we work really 9 hard on trying to bring our ideas forward. 10 COUNCILMAN DOMB: Okay. Thank you. 11 COUNCILWOMAN BROWN: You're welcome. Т 12 have a follow up. Administrative Officer, your quote was 13 14 that Nolan Atkinson holds departments accountable. Site examples and how that's 15 reflected, given irregularity of equity across 16 the -- the leadership tier of government. 17 18 MS. LOPEZ: So let me see. My first -when we first started, you know, Nolan wanted 19 20 some structure around exempt hiring. There 21 wasn't any structure. And so he wanted 22 structure through a D and I lens. 23 COUNCILWOMAN BROWN: He wanted 24 structure...

1 MS. LOPEZ: Through a D and I lens, 2 diversity inclusion lens. So we -- Jackie Linton was the person 3 4 leading HR and Talent. And I was the CAO of it 5 at the time. And that's where we leaned in, 6 and we wanted to be more prescriptive with 7 departments. And we created the policies that departments have to have a diverse hiring 8 9 slate. And that departments -- I'm sorry. Yeah. A candidate slate, and a diverse 10 11 interview panel. 12 And, you know, we constantly solicit 13 feedback. And when we weren't sure, and that 14 the engagement wasn't where we wanted to be, then we took it up a notch and we said, Okay, 15 we want diverse folks to review the 16 application. 17 18 So it's very iterative. And when there's 19 been an issue, Nolan has had one-on-one conversations with departments. Or posting, 20 21 for example, we want to make sure all the jobs 22 are posted. 23 So when I first got here, not all the 24 departments were using smart recruiters. Now I

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

Committee of the Whole April 16, 2019

Page 75 1 can say that all the departments are posting as 2 smart recruiters. And that's really been how 3 we've been able to support Nolan in moving ... 4 COUNCILWOMAN BROWN: The needle on diversity and inclusion. 5 6 MS. LOPEZ: The needle, yeah. 7 COUNCILWOMAN BROWN: Okay. All right then. I thank you very, very much. Sit with 8 9 the Free Library. MS. LOPEZ: I will. I made a note. 10 Ι will definitely meet with them. Thank you. 11 12 COUNCILWOMAN BROWN: I won't repeat the 13 obvious. 14 MS. LOPEZ: Yeah. We'll spend some time with them. 15 16 COUNCILWOMAN BROWN: Before April 30th. MS. LOPEZ: Yes. 17 18 COUNCILWOMAN BROWN: Okay. Thank you very 19 much. 20 MS. LOPEZ: I will definitely make it a 21 point. COUNCILWOMAN BROWN: Thank you all. 22 23 MS. LOPEZ: Thank you. 24 COUNCILWOMAN BROWN: Don't go anywhere.

Page 76 Councilman Domb? 1 2 COUNCILMAN DOMB: Thank you, Madam Chair. 3 I had a few more questions that I wanted to 4 ask. 5 Two years ago, your testimony mentioned a 6 new internal management process called Performance Ability. Has that program been 7 8 implemented? 9 MS. LOPEZ: So that function, the 10 performance management function was moved to the Managing Director's office last fiscal 11 12 year. COUNCILMAN DOMB: Have they implemented 13 14 it? Do you know? 15 MS. LOPEZ: I would really refer to Angelina, who's leading it. I'm not familiar 16 17 with it to be honest with you. 18 COUNCILMAN DOMB: And how many departments 19 right now are using the E Procurement System? 20 MS. LOPEZ: All. 21 COUNCILMAN DOMB: All? 22 MS. LOPEZ: The whole City. 23 COUNCILMAN DOMB: That's great. Good job. 24 That's great.

1 Page 13 of your budget detail, you list a request for 1.398 million in Class 200 for 2 sweep and alarm. Any idea what that might be? 3 4 MS. TIPTON: On Page 13? 5 COUNCILMAN DOMB: It's Page 13 of the 6 Budget Detail. 7 MS. TIPTON: Stephanie Tipton, Chief of Staff. That is for a contract with Conduit 8 9 State and Local Solutions. They help us to 10 process the violations and the money that comes 11 in for those. So that's for that contract. 12 COUNCILMAN DOMB: It's called sweep and 13 alarm? 14 MS. TIPTON: I think those are the types of violations. 15 16 COUNCILMAN DOMB: That's okay. That's 17 fine. 18 MS. TIPTON: Yeah. Those are the types of 19 violations. But we can be more descriptive in 20 there. 21 COUNCILMAN DOMB: One last question. Ι actually really like your mission statement. 22 23 It says, Improve the efficiency and 24 effectiveness of City services.

1	Does the prison system fall under you at
2	all?
3	MS. LOPEZ: It does not, but we work a lot
4	with Commissioner Carney. A lot of the work
5	we're doing with her is in HR.
6	And then, obviously, Mark Wheeler, our
7	CIO, works a lot with the prisons on their
8	tech.
9	COUNCILMAN DOMB: And does the wellness
10	program, could that be in any way shared with
11	the prison system?
12	MS. LOPEZ: Absolutely. The majority of
13	the employees at the prison system are
14	represented, who do not fall under our wellness
15	program.
16	COUNCILMAN DOMB: I understand that.
17	MS. LOPEZ: Yeah. But for the employees
18	that do fall under our wellness program, they
19	are part of it.
20	COUNCILMAN DOMB: I'm only saying it
21	because we are paying the medical. And the
22	medical four years ago with 8,900 people on
23	State Road was 46 million, or about 7,000 per.
24	And now with I'm sorry. With 8,900 people

there. Now there's 4,600, a 47 percent 1 reduction, and the medical went up to 49 2 million or 14,000. 3 4 MS. LOPEZ: For the employees or for 5 the -- okay. The medical cost to 6 COUNCILMAN DOMB: 7 Corizon. And I don't understand how we have a 8 47 percent reduction in the prison population. 9 This goes to the efficiency and effectiveness 10 of City services. And yet our cost went up. MS. LOPEZ: Are you talking about the 11 12 employees or the inmates? 13 COUNCILMAN DOMB: Corizon, inmates. 14 MS. LOPEZ: Corizon. The inmates. Okay. So, I mean, we certainly could reach out and 15 see if there's any opportunity there. 16 17 COUNCILMAN DOMB: That would be great if you could. 18 19 MS. LOPEZ: Yeah. Sure. Happy to. COUNCILMAN DOMB: One last question, in 20 21 improving the efficiency and effectiveness, does it also include cost savings? 22 23 MS. LOPEZ: I mean, if there's an 24 opportunity to reduce cost, sure.

Committee of the Whole April 16, 2019

1	COUNCILMAN DOMB: You don't have the tell
2	us today, but could you identify five to 10
3	areas of our government where you could
4	identify the top I'm going to say 10 most
5	dollar productive cost savings?
6	MS. LOPEZ: We'll get back to you.
7	COUNCILMAN DOMB: You don't have to do it
8	today. You can get back to us.
9	Last comment, I know that our office, I
10	think, brought you this negotiations course.
11	MS. LOPEZ: Yes.
12	COUNCILMAN DOMB: So tell us when is that
13	starting? How many people enrolled? Give me a
14	little background.
15	MS. LOPEZ: Okay. I'll turn that over to
16	DeWayne.
17	MR. GORDON: So we actually got that
18	confirmed this week.
19	COUNCILMAN DOMB: Oh, great.
20	MR. GORDON: So we'll roll that out June
21	5th and June 12th. We broke it up to two
22	parts, because we wanted to we were
23	cognizant of everyone's schedule and prior
24	commitments.

Committee of the Whole April 16, 2019

Page 81 And so we have somewhere between 40 to 45 1 2 persons enrolled into this training. And so we 3 are looking at senior management level and 4 higher, so we have managers, chief of staffs, 5 deputy directors, and I think that's it. 6 COUNCILMAN DOMB: And it's a negotiations 7 course? 8 MR. GORDON: Yes. 9 COUNCILMAN DOMB: I love that. That's 10 great. 11 MS. LOPEZ: We're looking forward to it. 12 COUNCILMAN DOMB: All right. Well, thank 13 you very much. You're all doing a very good 14 job. And thank you for being here. Thank you, 15 Madam Chair. 16 MS. LOPEZ: Thank you. 17 COUNCILWOMAN BROWN: Ditto. 18 MS. LOPEZ: Thank you very much. 19 COUNCIL PRESIDENT CLARKE: Next up, OIT. 20 Good morning. 21 MR. WHEELER: Good afternoon. Good 22 morning, Council President Clarke and Members 23 of City Council. I'm Mark Wheeler, Chief 24 Information Officer. Joining me today are

1	Sandra Carter, Chief Operating Officer, and
2	Chris Donato, Chief Financial Officer. I'm
3	pleased to provide testimony on the Office of
4	Innovation and Technology's Fiscal Year 2020
5	operating budget.
6	In brief, our OIT's general fund budget
7	totals \$112,133,625. In brief, also, this
8	breaks down to 23.8 million in Class 100. 68.7
9	million in Class 200. And 19.5 million in
10	Classes three and 400.
11	Before I open it up to questions for
12	Council, I just want to take a moment to
13	highlight three accomplishments of OIT in the
14	last year.
15	First, OIT's Deputy CIO for public safety
16	team successfully secured a \$5.5 million grant
17	from the Commonwealth to build a redundant
18	fiberoptic network dedicated to emergency 911
19	messaging. And this will replace outdated
20	copper wire technology.
21	Second, OIT launched our SmartCityPHL
22	roadmap. And under an executive order from the
23	Mayor, we now have a diverse advisory committee
24	to assist us in its roll out.
I	

1 And finally, OIT City geo team spoke about our data driven mapping and open data tools 2 available on Phila.gov to nearly 900 attendees 3 4 of different presentations and workshops 5 including Tangled Title workshops at the Free 6 Library, the PA CDC conference, several meetings of West Philadelphia Promise Zoned 7 8 Civic Associations, civic tech meet ups, our 9 City's civic engagement academy, and a course for the City's Planning Institute. 10 11 And with that, I'm happy to take any 12 questions you have about OIT's FY20 budget. 13 COUNCIL PRESIDENT CLARKE: Thank you. Ι got a couple quick questions. 14 So let me cut to the chase. City Council, 15 we've been experiencing an unusual amount of 16 down time particularly related to email and 17 18 internet. I'm sure you may know about it or 19 maybe you don't. 20 MR. WHEELER: Yes. We were made aware of 21 it. 22 COUNCIL PRESIDENT CLARKE: Can you tell me 23 what in the world is going on? I mean, all I 24 do is get complaints from staffers, colleagues,

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 everybody about our systems. And it seems like 2 the people -- we actually should probably have our own little division of tech support, just 3 4 housed in City Council, because -- nice people, 5 but they are always here. Like what's going 6 on? MR. WHEELER: From what I understand, it 7 stems from a change that we had to make to the 8 9 WiFi that's open internet for the public to use, the City Council WiFi. 10 11 So if you're using a City-issued device 12 and attempting to do any type of emailing out on the device, just using that Wi-Fi, there's a 13 difficulty there, because over a year ago, we 14 experienced a problem with some spamming on a 15 16 device is City Council. And the ISP that we engage for the City 17 had shut off the circuit. And in order to 18 19 remediate, we had to make some changes around 20 that. 21 The changes that affected Council Members and any of your constituents using the Wi-Fi 22 23 just wasn't effectively communicated at all, as 24 to what the work around can be.

COUNCIL PRESIDENT CLARKE: Wasn't
effectively communicated to?
MR. WHEELER: To your City Council vendor
staff, and then to staff, themselves. So they
knew about it. Everyone in their Council at
Large or District Council offices would
understand, what the work around would be.
So we're going to work with your City
Council tech team to make sure they clearly
understand what the steps are and how we get
around the problem by just working with the
City net Wi-Fi if you want to use that on the
City-issued devices or your personal devices,
just on the City Council open internet Wi-Fi.
COUNCIL PRESIDENT CLARKE: So who is not
effectively communicating?
MR. WHEELER: So I think it's OIT
effectively having a conversation on change
management with the IT team for City Council.
COUNCIL PRESIDENT CLARKE: Your vendor?
MR. WHEELER: Yes.
COUNCIL PRESIDENT CLARKE: All right. I
just want the make sure we're not doing
anything.

1 MR. WHEELER: And that's something that 2 I'm working on. We've been working on changing the level of communication that we're having 3 4 with the departments overall. And this is just 5 another example of where we need to do better. 6 COUNCIL PRESIDENT CLARKE: Okay. All 7 right. So you're relatively new in this position or... 8 9 Since January 2018. MR. WHEELER: I was 10 interim, and then appointed in September of 2018. 11 12 COUNCIL PRESIDENT CLARKE: All right. So 13 I know, like, in the past there were conversations about hiring specialized 14 positions. And it talked about the salary and 15 16 the office environment are the largest hurdles of hiring. 17 18 But, you know, of course we talk to people and residents and constituents. And people who 19 have skill sets seem to match the 20 21 opportunities. And basically, they've applied 22 and they haven't heard back in some time. 23 Is there a process, and I asked a similar 24 question to the Chief Administration Officer,

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 in terms of follow up as I relates to hiring, can you kind of tell me how this process works? 2 So we do get direction from MR. WHEELER: 3 4 OHR on following both the civil service process 5 and the exempt. 6 So with replies to folks to have applied, and I'll be looking for guidance on how we need 7 to improve and change that process. 8 9 We recognize internally for ourselves that hiring exempt staff has taken an inordinate 10 amount of time. And our chief of staff and our 11 12 director of our innovation management program 13 got together to revamp that. And they've gotten it down just through a trial on three 14 different positions around five weeks, from the 15 time that we start reviewing the applicants, do 16 our screening, telephone interviews and then 17 have our diverse panel of on-site interviews in 18 19 making an offer to hire. 20 So we need to institutionalize that. Ι 21 want to hire a recruitment officer that will 22 focus on recruitment, especially recruitment in 23 diversity hiring, focusing on inclusion that 24 way and keeping that process streamlined as

1	possible.
2	So the other piece of that is that we have
3	to let people know who do apply. It just
4	doesn't fall into a black hole. And they know
5	that we received it, but for whatever reason,
6	we've gone with other candidates that better
7	fit the position.
8	COUNCIL PRESIDENT CLARKE: Okay. In
9	terms of your contract, you show a stark
10	increase in contract participation in '18 and
11	'19.
12	Can you kind of walk me through that, the
13	basis for that. And in terms of the contracts
14	that you have entered into, what's the
15	participation rate for those contracts?
16	MR. WHEELER: So just to make a point
17	about FY18, the contract for the One Philly
18	Operation, which was done by Cyber, that really
19	bumped up our number. They have a very they
20	had a significant MWDBE component.
21	And in '19, the increases are through more
22	hiring on our staff for selective projects that
23	have a short-term nature.
24	And our the unitary contract for the

Committee of the Whole April 16, 2019

1 staff, we've gotten good representation there. 2 COUNCIL PRESIDENT CLARKE: Say that again. So for contract that we MR. WHEELER: 3 reach out to for staff augmentation, we're 4 5 getting good representation as we reach out to 6 different vendors on that contract for staffing. 7 COUNCIL PRESIDENT CLARKE: Okay. 8 The 9 Chair recognize Councilman Domb. 10 COUNCILMAN DOMB: Thank you, Mr. President, just a couple questions. 11 12 In your opinion, what do you think the 13 five biggest IT needs are for the City right now? 14 15 MR. WHEELER: I think the biggest need isn't actually in IT. It's in change and 16 process management. 17 18 We have -- all organization, whether it's 19 the public sector or private sector institutions, are going to have difficulty with 20 21 change on multiple levels. And with very large 22 projects that can take multiple years, we need 23 to start at the very beginning with the 24 departments on building their capacity to just

Committee of the Whole April 16, 2019

1 engage on something that monumental. 2 And I think we -- typically, you go into this thinking that people wanted the solution 3 4 for so long they must be ready. That's just 5 not true. 6 And as you move through the process, 7 instead of pushing back on the vendor to overly customize or overly configure, I think we have 8 9 opportunities to work with the departments on where they can make very good change 10 management, just optimize some work flow and 11 12 process. Rather than make the IT solution even more complicated to maintain in the end. 13 So we're working on getting our project 14 management office and then other managers, and 15 even reaching out in our departments with some 16 of the IT directors and key staff to engage in 17 a training program around change management and 18 19 where we need to both hire the right vendors and know where to cross the project timeline. 20 21 We need to be doing as much as we can to have 22 the departments focus on that process change. 23 Do you have anybody in COUNCILMAN DOMB: 24 your department that is focused on looking at

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 technology and implementing it as a way of 2 saving us money, specifically? Like looking at 3 different areas of the departments of the City 4 and saying, You know what? If we implemented 5 this technology here, we could save X dollars 6 that will only cost us Y. MR. WHEELER: I think that we look at 7 needs and departments when we have 8 9 conversations around what type of inefficiencies that they have or whenever they 10 want to do an upgrade to an existing technology 11 12 solution, what other benefits can we get out of 13 that. And many of these benefits, because we're service-oriented in nature, just come 14 down to a lot of process efficiencies. 15 And I can give you some examples of that, if you'd 16 17 like. But as a dedicated resource, I would say 18 19 no. It's just a process of the engagement, and both in operations with Sandra Carter and with 20 21 our project management office with Nick Susi. 22 That's just something we want to have a 23 conversation about or include in the 24 conversation.

1	COUNCILMAN DOMB: I only bring it up
2	because I always thought the goal of technology
3	is to make the processes more efficient,
4	deliver better customer to the residents to the
5	City, and eventually save money by doing the
6	first two.
7	MR. WHEELER: I would agree with that.
8	That's 100 percent the goals.
9	More importantly, though, coming back to
10	that change management, we have to be ready to
11	use it well and make sure it was designed well
12	to meet or needs.
13	And with the cost savings, I do think that
14	it's important to look for that, but since our
15	missions are around the public health and
16	public safety, there are some things that we
17	just need and we want to be more efficient in,
18	rather than more efficient and if the cost
19	savings comes along, that's great. I'm not
20	sure it's always the driver.
21	You know, for example, the work that our
22	public safety team is doing with SEPTA to
23	create interoperable radio equipment so they
24	can use it below ground in the concourses of

1 the subways. Obviously, an obvious public benefit there and efficiency there. 2 And thankfully, the City's costs were covered by 3 4 the Act 12 E911 systems. 5 But if you look at Cashiering Project, 6 which we completed, there were definitely benefits to the public and to operations. 7 They -- with the new system, they were able to 8 9 add debit and credit transactions at three locations that I believe only took cash before. 10 11 There was a risk in the support model on 12 the old system for the daily payment and 13 posting in the funds deposit, because it was It took a lot of effort 14 such an old operation. 15 to make any type of needed change or rectify any issues. So with the new system, much, much 16 more efficient. 17 18 And then they were able to go from paper 19 check deposits to electronic. So you have a lot of efficiencies where people can move for 20 21 these routine low touch or routine complicated 22 problems to something that could deliver 23 greater benefits --24 COUNCILMAN DOMB: Do we have any

1	continuing education for City employees around
2	having them become more efficient with the use
3	of technology?
4	MR. WHEELER: No. We don't have
5	continuing education. We do some outreach
6	around better use of data and data standards
7	with our what we call our geo exchange group
8	and we have a developer exchange group. But
9	that's not on the executive level. That tends
10	to be on the operating level, itself.
11	COUNCILMAN DOMB: I only bring that up
12	because you heard earlier, probably, that we're
13	bringing a negotiation course to the City and
14	44 to 48 people signed up. And I think that's
15	great.
16	But maybe we should look at that for
17	technology. And I think you would gain it
18	would make it easier to implement new
19	technology if we had the current work force
20	more tuned into the technology.
21	MR. WHEELER: I think that's a great idea.
22	We have opportunities right now with our
23	Innovation Academy that folks go through.
24	We're on we just completed our sixth cohort

STREHLOW & ASSOCIATES, INC. (215) 504-4622

Then we've done about 70 individual 1 of that. workshops with our Innovation Team. 2 And that type of capacity building or how you work 3 4 better as a team to work through ideas, I think 5 we could definitely introduce components around 6 technology there. I think our first goal 7 COUNCILMAN DOMB: as a City should be -- before we start hiring 8 9 more people, the first goal is how do we make the current people we have more efficient? And 10 how do we bring them into tomorrow and today's 11 12 standards for efficiency and technology. 13 And what we used to do 20 years ago in 14 eight hours, we probably can do today in two hours, because of technology. 15 So my goal would be, how do we make 16 that -- for everyone working in the City, how 17 do we improve their skill set, basically. 18 19 I have another question. It might not be for you, though. I'm just curious. 20 In the 21 budget, in 2018, I think the total budget for 22 OIT, it looks to me that it was 138 million. 23 And in 2019, it went to 192 million. I'm just 24 wondering why there was like a 40 percent jump

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 that year? It had to be -- something happened, 2 Section 21 Page 3. 3 MR. WHEELER: We can get back to you on 4 that. I'm looking at the difference. 5 COUNCIL PRESIDENT CLARKE: Thank you, 6 Mr. President. I'll come back on the next 7 round. Thank you. Oh there's no more rounds? Okay. Just one other -- two other questions. 8 9 I think I asked you this before, but I 10 can't remember. CAMA System, do you have any oversight with the CAMA System being used by 11 12 the OPA? 13 MR. WHEELER: So I'm on the Steering 14 Committee for that. And the technology does run through our budget. But the management is 15 under finance. And I believe that we have 16 representatives here to take any questions that 17 vou need answered. 18 19 COUNCILMAN DOMB: I think the more you can be involved in it, the better it would be. 20 Ι 21 think it's going to be a brand new system. 22 We're going to have to educate a lot of people 23 at OPA about it. 24 And I think that -- I have confidence that

1 OIT can help them do it. So the more you can be involved, I think the better it will be to 2 3 make sure that implementation occurs. 4 MR. WHEELER: I do sit in on the Steering 5 Committee meetings. We go through a full 6 reporting of what's happening. I do ask a lot 7 of questions. And I'm happy to say that things 8 look good there. 9 And in fact, the effort on change 10 management is very good. They just did a project stat for our entire executive team and 11 12 all of our project managers earlier this year. And I think there was a lot for our team to 13 learn about how they are approaching some of 14 the change management, which is going to be 15 16 challenging for them. 17 COUNCILMAN DOMB: Last question. Our accounting system, I've heard we're addressing 18 19 that, the current accounting system for the City; is that true? 20 21 MR. WHEELER: I'm sorry? The accounting 22 system? 23 The accounting system, COUNCILMAN DOMB: 24 the financial accounting system.

1 MR. WHEELER: Yes. That is programmed for 2 replacement starting this year. COUNCILMAN DOMB: What will the new system 3 4 be called? What will it look like? 5 MR. WHEELER: I can't say to that, because 6 we're in the planning and scoping stage. So it's going to take our general ledger system, 7 also, with the existing ASIS and ADPICS. 8 So 9 it's a mix of a numbered systems that have been run separately and into one project for 10 11 replacement modernization. 12 The one thing that I can say about that is 13 starting this past summer, we engaged with a group of outside stakeholders. We pulled 14 together what we call a go agile advisory 15 16 committee. So this is a diverse group of individuals who are tech leaders in their own 17 18 companies, whatever that might be, from construction to manufacturing, as well as just 19 outright tech, to help us think through how 20 21 large projects of this scale get decompressed or modularized. 22 23 So you can roll out a piece of the time, 24 get the change management rolling in even

1	faster, and make sure that we're building upon
2	our the data that we own and our integration
3	model, rather than doing the old school
4	practice, what they call water fall, where you
5	do a lot of requirements gathering.
6	The team goes off. They spend a lot of
7	time building a prototype. A few years, they
8	come back, the entire team that helped them
9	with the requirements is now gone and
10	different. And you constantly run into a
11	number of change orders and delays, because
12	you're kind of working a very close fashion.
13	We want to do it more iteratively, more
14	durations, greater training, but that also puts
15	a lot of onus on the change management side,
16	again.
17	COUNCILMAN DOMB: So the people involved
18	in this change, I guess, is the Finance
19	Department?
20	MR. WHEELER: So the Finance Department
21	and the CAO are the executive sponsors for it.
22	And it's under OIT's budget. So we're working
23	collaboratively on setting up the project
24	management for that now.

1 COUNCILMAN DOMB: Is the Council technical staff involved, also? 2 3 MR. WHEELER: Not that I'm aware of. 4 COUNCILMAN DOMB: It might be helpful, 5 because we have some pretty smart people 6 working in Council technical staff. So I would include them. We all want the best product 7 8 possible. 9 And we thank you. I heard from my office 10 that you guys are doing a very good job. I haven't been personally involved, but I thank 11 12 you for your work. And keep up the good work. 13 Thank you, Mr. President. 14 COUNCIL PRESIDENT CLARKE: Thank you, Councilman. One quick question. 15 16 I heard that we may -- Council, speaking of Council, because I've been hearing, we may 17 18 have to change all of our computers within the 19 next year. Is that a rumor? Because of the support systems that will be available, Windows 20 21 7. I'm kind of like a technophobe. I'm like a 22 little, baby dinosaur in a lot of this. That's 23 why I have these young smart people around me. 24 MS. CARTER: Sandra Carter, Chief

1 Operating Officer. What you're referring to is 2 the operating system software. It is going out 3 of support in January. And so yes, we are 4 working with various -- the service are going 5 out of support in January and computers shortly 6 thereafter. We're working with the various different 7 departments to identify the PCs that have to be 8 9 replaced. 10 COUNCIL PRESIDENT CLARKE: Okay. And did we foresee this, or is this something that -- I 11 12 mean, what's the time line on our PCs? I mean, 13 didn't we just get --MS. CARTER: We've been talking about it 14 for a while. I actually have to get the -- I 15 don't have the date with me for each 16 department. The servers are our main concern, 17 18 and the PCs come after. We do have some time 19 for the PCs. We have about a year and a half, I believe, for the PCs. 20 21 COUNCIL PRESIDENT CLARKE: What's the 22 traditional lifetime of our -- I'm looking at, 23 you know -- I'm trying the make sure the 24 taxpayer's dollars are being protected.

1 MS. CARTER: Understood, sir. We are 2 actually about six to eight years. We would prefer to be a shorter time span but due to 3 4 resources, financial and labor, we're about six 5 to eight years turn over. 6 COUNCIL PRESIDENT CLARKE: Okay. Thank 7 you. There appears to be no additional questions. I want to thank you very much. 8 9 As always, always be prepared to be called back. It's getting a little closer to crunch 10 time, you know, we tend to call folks back when 11 12 we have to make the ultimate decisions. Thank 13 you. Thank you for your testimony. I 14 appreciate it. 15 Next up, we have Procurement. Good afternoon. 16 MS. JOYNER: Good afternoon, Council 17 18 President Clarke and members of City Council. 19 COUNCIL PRESIDENT CLARKE: Move the mic a 20 little closer to you. 21 MS. JOYNER: Okay. I am Monique 22 Nesmith-Joyner, Interim Commissioner of the 23 Procurement Department. I'm here to present 24 for your consideration the Procurement

Department's Fiscal Year 2020 budget request. 1 2 With me today is Purchasing Director, Janira Barroso and Director of Administration, 3 4 LaShawnda Tompkins. 5 The Department is requesting a total, 6 general fund appropriation of \$5,074,563 for Fiscal 20. The proposed allocation represents 7 an increase of \$60,376 with FY19 estimated 8 9 obligations. The increases attributed to DC 33 pay increase of 3 percent, and DC 47 pay 10 11 increase of 3 percent. 12 43 percent or \$2,190,955 of Procurement's 13 general fund is -- excuse me, fund request is designated for City-wide charter mandated 14 advertising expenses. 15 16 The Procurement Department continues to enhance their quarter engagement through 17 18 improved operation systems and outreach. 19 We seek to ensure the City's Procurement processes are fair and open to all business. 20 21 We are steadfast to market City contracting opportunities to small, diverse and local 22 23 businesses. Our Department offers three 24 monthly vendor workshops, and participates in

1 monthly doing business with the City workshops, sponsored by the Office of Economic 2 3 Opportunity. 4 This concludes my remarks for the budget 5 hearing. And my staff and I are happy to 6 answer any questions. COUNCIL PRESIDENT CLARKE: All right. 7 Great testimony, straight and to the point. 8 Ι 9 appreciate that. Couple of questions. As you know, we're always interested in 10 outreach. And one of the things that we talked 11 12 about over a period of time, and I don't know if there's some restrictions or prohibitions 13 that don't get us where we actually would love 14 to be is improving local vendors. 15 I know that there's some issue with 16 respect to the interstate commerce clause in 17 terms of ensuring that we get all local 18 19 people -- we'd like to be in a position to hire or contract with only Philadelphians. 20 They 21 tell me that that's not necessarily legal. What are we doing, though? I mean, the 22 23 bottom line is people would like the see the 24 best possible standards or, I guess, in terms

of scoring, something in place that leans
 towards a local vendor.

I know there were a couple of proposals that were put out there about local purchasing, and it would essentially not only buy the City of Philadelphia, but we talked to universities. We're trying to get them on board with local purchasing. They don't have, necessarily, the same regs that we have in limitations.

10 What are we in the City doing to improve 11 it best possible, our ability for local hiring? 12 I know there's this big issue going on now 13 about one of the issues about the contracts 14 around servicing and maintaining municipal 15 buildings. That's a big thing that's coming 16 up.

Just generally, what are we going to do or what are we doing to encourage or best ensure -- I guess we can't ensure -- but create an environment where a local vendor has the best opportunity? MS. JOYNER: Okay. For our Public Works Initiative, there is a local preference. They

24 can receive a discount from their overall price

STREHLOW & ASSOCIATES, INC. (215) 504-4622

structure to make them the lowest bidder and 1 2 possibly make a local business placed higher or 3 rank higher than --COUNCIL PRESIDENT CLARKE: What kind of 4 discount? 5 6 MS. JOYNER: It's 5 percent. 7 MS. BARROSO: Janira Barroso, Director of Purchasing. So there's local preference, which 8 9 is 5 percent, anything over a million, and 10 percent under a million. 10 11 COUNCIL PRESIDENT CLARKE: 5? 12 MS. BARROSO: So let's say someone from 13 New Jersey submits the same pricing as someone from Philadelphia at a million dollars, the 14 local vendor will win out by the 10 percent 15 differential that's placed on their lowest bid, 16 making them the higher bidder or the winning 17 18 bidder of the contract. 19 COUNCIL PRESIDENT CLARKE: Are we stuck at 5 percent, or is that something we think we 20 21 will not be challenged in court? 22 I think it's, you know, it's MS. BARROSO: 23 guided by an ordinance, of course, but we don't 24 have to be held to 5 percent unless you guys

decide to change that for us, of course, if we
introduce it. But it's between 5 and
10 percent at this time. So 10 percent
anything under a million and, of course,
anything above is 5 percent.
COUNCIL PRESIDENT CLARKE: Okay. What
about minority participation MBE, WBEs, is
there discount for that given
MS. BARROSO: Minority preference. So we
do have ranges that are set on all of our
projects individual with public works. They
range between 20 and 30 percent, you know,
overall in general.
However, they are reviewed individually by
the Office of Economic Opportunity. And of
course departments engage whether or not that
can be improved upon and, of course, you know,
the Procurement Department. If we receive
ranges or goals that can be higher with our
City wide bids, we would encourage a higher
range as far as, you know, having a general
contractor have some subcontracting
opportunity. That's a little bit more robust.
COUNCIL PRESIDENT CLARKE: All right.

1 Sometimes, you know, if we don't get push back, it tells us we're not pushing the envelope 2 3 enough. So I get encouraged when I get push 4 back when I'm doing something for what I 5 believe to be the right thing. I say, Oh, I'm 6 hitting the button. But if people are just 7 like, Oh, okay. I'm not really doing anything. So are we getting any push back for what 8 9 we're currently doing, in terms of local slash 10 disadvantage? 11 MS. BARROSO: I haven't seen as of late. 12 I would have to say the Procurement Department has become more forward facing with vendor 13 engagement workshops, where we bring vendors in 14 to learn our process. So we are educating the 15 16 vendor community. A lot of our participants that come out 17 are local. So they're, I quess, getting an 18 19 upper hand in seeing, you know, people that are doing the work, that understand the contracting 20 21 process of City government. And they are 22 coming in and they are taking advantage of 23 learning how to do business with us. That's an 24 advantage that local companies do have.

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 Also with getting a leg in with small 2 order purchases, so anything under 44,000, we are actually encouraging departments to look at 3 4 minority women vendors and small business vendors first to solicit those vendors first. 5 And then, you know, if they can't receive 6 7 responses back from that community, of course they have to go to the open market. 8 9 However, departments are highly encouraged to solicit minority women vendors first for 10 small order purchases. 11 12 COUNCIL PRESIDENT CLARKE: Only for small? 13 MS. BARROSO: At this time, yes. Anything 14 over 34 has to go to the open market. 15 COUNCIL PRESIDENT CLARKE: Really? 16 MS. BARROSO: Yes. 17 COUNCIL PRESIDENT CLARKE: Okay. Well, you know how that goes when it's competitive 18 19 with folks that have traditionally been kept out of the market continue to be kept out of 20 21 the market, that's why we're looking at 22 possibly doing something outside of the box, so 23 to speak. So the issue of competitive bidding 24 seems always to favor the folks that have

Committee of the Whole April 16, 2019

1 always gotten all the contracts. 2 So until we do something different, maybe let the Courts figure it out, you know, it's 3 4 going to continue to go along the same path. 5 We had -- last night in the public 6 testimony, there was a former employee of the 7 City, a consumer affairs advocate Mr. Habor, actually. And he wanted us to check on our 8 9 labor standards, are they expected for 10 procurement contract, i.e. when we procure in selective person or company for a contract. Do 11 12 we look at the labor standards of the 13 individuals, how do they pay, have they complied with all issues around labor-related 14 issues. Do we have an inspection process 15 related to that? 16 MS. BARROSO: So the City does have a 17 Labor Standards Unit that oversees the 18 19 compliance of prevailing wage, if they being paid, and if they are compliant in paying those 20 21 wages. COUNCIL PRESIDENT CLARKE: 22 Is that Perry, 23 Perry's shop? 24 MS. BARROSO: Perry DiVirgilio, Perritti

Page 111 1 DiVirgilio is the person that's the Director of the Labor Standards Unit. 2 COUNCIL PRESIDENT CLARKE: All right. 3 So 4 we actually expanded his role, well, the Department's role, recently in legislation, 5 6 that they were, also, supposed to do on-site inspections for certain jobs that we've 7 8 contracted with that would also include 9 compliance with goals set forth. And it's a 10 part of the EOP. Are you all part of that 11 process? 12 MS. BARROSO: I know that there are 13 departments. I, actually, prior to joining Procurement, I worked for the Water Department. 14 And I actually went out with LSU, Labor 15 16 Standards Unit, to the Water Department projects to do on-site compliance checks. So I 17 18 can speak to that. 19 COUNCIL PRESIDENT CLARKE: Not only wages, but also DBE? 20 21 MS. BARROSO: Yes. And again, that's at 22 the Department level. Procurement, per se, does not execute. However, the buyers do 23 24 engage with departments to ensure that they're

Committee of the Whole April 16, 2019

1 meeting the contract requirements. Have we ever 2 COUNCIL PRESIDENT CLARKE: gone to like -- say, for instance, we contract 3 4 with an entity that says in their work force 5 off site plan, wherever, that they are in 6 compliance with their plain as it relates to participation in their work force. 7 Have we ever like gone to a work site, 8 9 kind of like unannounced, and said, Oh, let's see what's really going on here? 10 11 I know LSU does do spot MS. BARROSO: 12 checks. So Labor Standards does do spot 13 checks. However, I'm not sure if LSU would be testifying, but they can speak more to that. 14 And we do have a special services unit for 15 vendors that we spot check to ensure that they 16 are actually operating in the City of 17 Philadelphia, especially with our local 18 19 business entity. There is a certification where vendors can register to become a local 20 21 business entity. 22 Our special services unit does go out to 23 do site inspections to make sure, one, that 24 they operate out of the City of Philadelphia,

1	that they are actually having materials on the
2	site, and that they have people that are hired
3	and live out of Philadelphia.
4	COUNCIL PRESIDENT CLARKE: All right.
5	Okay. Thank you.
6	The Chair recognizes Councilman Domb.
7	COUNCILMAN DOMB: Thank you,
8	Mr. President. I have a couple questions for
9	you. Good morning, well, actually, good
10	afternoon.
11	(All respond good afternoon.)
12	COUNCILMAN DOMB: There was a team clean
13	contract for public property. I'm just
14	wondering and this is kind of what Council
15	President was talking about.
16	We were hiring a company from Florida and
17	not a local minority owned company. And I know
18	there were a few people who reached out to me,
19	I think others where does that stand right
20	now?
21	MS. JOYNER: We'll have to defer to Public
22	Property. They are managing that contract
23	process.
24	COUNCILMAN DOMB: Has that contract been
1	

1 procured or is it still not procured yet? 2 MS. JOYNER: It is not procured yet. Okay. And the next COUNCILMAN DOMB: 3 4 question I have is the reverse auction 5 procurement is an approach in which vendors bid and then rebid until the lowest price is 6 reached. 7 And it was told to us it was going to 8 9 refute savings for tax payers compared to the current system, where companies bid only once. 10 I think the CAO issued an RFP in 2016 a to 11 12 develop a reverse auction tool. Has this been accomplished and are we utilizing this method? 13 It has been 14 MS. JOYNER: Yes. accomplished. We are utilizing the method. 15 We do have a vendor, for which we contract with, 16 17 for a reverse auction. 18 We have run three reverse auctions so for 19 Fiscal 19. One has yielded a 25 percent savings, another has yielded a 12 percent 20 21 saving. One, we did not award because there 22 was a lack of response for, but we do have four 23 commodities that we're looking at right now and 24 discussing with the vendor, actually, just

1 yesterday to possibly complete before end of Fiscal. 2 3 COUNCILMAN DOMB: That's good. So you're 4 using that and it's saving us money. MS. JOYNER: 5 Yes. 6 COUNCILMAN DOMB: Are there other areas 7 where you can expand at, or you're looking at 8 every area right now? 9 MS. JOYNER: Every year we're looking at 10 contracts that are coming due to expire, existing contracts that are coming due to 11 12 expire, and identifying commodities that could 13 potentially benefit from the process, yes. This other question is 14 COUNCILMAN DOMB: kind of a follow-up to the Council President's 15 question, that is -- I don't know if you know 16 this or not, or you can tell us what portion of 17 18 the City's procurement comes from local vendors based inside the City of Philadelphia. And if 19 you could tell us the percentage in dollar 20 21 amount of those figures. I don't know if you have them today or you can get them to us. 22 23 MS. JOYNER: Yeah. I can get the 24 particular dollar amount back to you, yes.

1 COUNCILMAN DOMB: Okay. And in your 2 opinion, is there anything that we can do to increase the level of utilizing our local 3 4 providers? 5 MS. JOYNER: Right now, we participate in a number of outreach efforts. We have three of 6 our own on a monthly basis to encourage local 7 vendors to come in and learn about the process. 8 9 We participate with OEO on a monthly basis, as well as their annual MED Week. 10 We also do outreach on a quarterly basis with a 11 12 number of chambers, as well as the Philadelphia Gas Works and a few other entities to encourage 13 14 local business and engagement. 15 COUNCILMAN DOMB: Maybe it was a few years ago -- or maybe it was recently, I don't 16 remember -- I think it was either the 17 18 Controller's office or maybe the Economy League 19 under Jeff Hornstein where they talked about the nonprofits trying to get them to buy more 20 21 of their goods and services locally versus out 22 of Philadelphia. 23 Have you met with them and tried to work 24 together to figure out how we can make that

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 happen? 2 MS. JOYNER: I've been in the seat for 3 three months, so I have not had an opportunity, 4 no. 5 COUNCILMAN DOMB: Okay. I would put that 6 on your to-do list, though, Jeff Hornstein at the Economy League. We would love the see the 7 8 EDs and MEDs and the non-profits by more of the 9 services of the City versus going outside to other areas, especially -- it will benefit our 10 11 residents. 12 But they had a whole program. There was a 13 lot of money that was purchased outside of the City that could come to people within the City. 14 It was a lot. Thank you. Thank you very much. 15 Thank you, Mr. President. 16 MS. JOYNER: Thank you. 17 COUNCIL PRESIDENT CLARKE: 18 Thank you, Councilman. 19 20 The Chair recognizes Councilwoman Reynolds 21 Brown. 22 COUNCILWOMAN BROWN: Yes. I want to make 23 sure I heard you correctly in response to 24 Councilman Domb's question. So the contract he

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1	referenced, you said has not been procured yet?
2	MS. JOYNER: I would need to defer to
3	Public Property. It's running through
4	Professional Services, if I'm not mistaken, and
5	that's not under Procurement.
6	COUNCILWOMAN BROWN: The other observation
7	made regarding that is in questioning the
8	Commissioner for Public Property, she punted
9	the ball to OEO. And in hearing from OEO so
10	we're trying to figure out where does the
11	responsibility lie with regards to that. So
12	that's the background that you should be aware
13	of, okay?
13 14	of, okay? MS. JOYNER: Okay.
14	MS. JOYNER: Okay.
14 15	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the
14 15 16	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the benefit of listening to the Administrative
14 15 16 17	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the benefit of listening to the Administrative Officer where there was a lot of queries
14 15 16 17 18	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the benefit of listening to the Administrative Officer where there was a lot of queries regarding paying vendors on time.
14 15 16 17 18 19	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the benefit of listening to the Administrative Officer where there was a lot of queries regarding paying vendors on time. And so what is your role in that process?
14 15 16 17 18 19 20	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the benefit of listening to the Administrative Officer where there was a lot of queries regarding paying vendors on time. And so what is your role in that process? Because that continues to be a complaint. Just
14 15 16 17 18 19 20 21	MS. JOYNER: Okay. COUNCILWOMAN BROWN: You may have had the benefit of listening to the Administrative Officer where there was a lot of queries regarding paying vendors on time. And so what is your role in that process? Because that continues to be a complaint. Just speak to what your role is in helping vendors

COUNCILWOMAN BROWN: Pull the mic closer,
 please.

One of the things that 3 MS. JOYNER: Sure. 4 our office engaged in is changing the contract 5 language to indicate that we are moving to ACH 6 payment come July 1st, and engaging with any 7 questions that vendors may have. So any new contract that has come out, I believe, from 8 9 January on, has the language in it to alert vendors that we're moving to ACH. 10

But in terms of the project planning and initiative, Procurement has not been directly involved with vendor, vendor pay.

14 COUNCILWOMAN BROWN: Okay. And then one 15 of your colleagues there mentioned that the 16 responsibility at the department level, just to 17 follow up to President Clarke's question 18 regarding the Water Department.

MS. BARROSO: So with regards to like Public Works, compliance on a project ensuring that the goals are being met on their project plan. Of course, they will work together with OEO, the Department, to make sure that the compliance is met. I'm just speaking from

experience from when I was with the Water
 Department.

They set up -- at that point, I was the 3 4 director of participation to ensure that all of 5 the economic opportunity plans that were in 6 place for that department -- in meeting with contractors on a monthly basis, having them 7 report on subcontractor payments, having them 8 9 report on how the work force diversity was 10 ongoing, and receiving reports from those 11 contractors. 12 So they still have that position there.

13 COUNCILWOMAN BROWN: They is?14 MS. BARROSO: The Water Department still

15 has that position available there.

16 So again, it's at the department level 17 with their willingness to meet with that 18 compliance.

19 COUNCILWOMAN BROWN: Okay. Who ultimately 20 has the responsibility to implement a 21 prohibition from a contractor doing future 22 business with the City of Philadelphia? Who 23 ultimately has that -- has, should or is 24 responsible for using that hammer?

1 MS. BARROSO: Are you speaking to the debarment? 2 3 COUNCILWOMAN BROWN: Yes. That's 4 precisely what I'm speaking to. 5 MS. BARROSO: I know the department can 6 recommend debarment. However, I believe the 7 Procurement Commissioner upholds the debarment 8 process. 9 COUNCILWOMAN BROWN: Okay. Repeat that 10 answer. 11 MS. BARROSO: The Procurement Department 12 has the ability to debar a company from doing business with the City of Philadelphia. 13 Okay. So if not now, 14 COUNCILWOMAN BROWN: and a number of us are curious to know, what 15 the number is from last year. I can't remember 16 what other department was sitting at the table, 17 18 but we got -- without any data, the impression that there's been no debarment. And we know 19 that there are companies that are not in 20 21 compliance, but somehow they end up being added 22 back to or put on a list or not taken off list 23 and then end up getting future work with the 24 City of Philadelphia, which is totally

1	unacceptable.
2	So we'd be curious to know what is the
3	number of those who are in a less than
4	satisfactory status with the City, because of
5	their lack of compliance?
6	MS. JOYNER: Having been in the seat for
7	three months, I can say that over the past
8	three months there are two businesses that have
9	been debarred.
10	We are in collaboration with the IG as
11	well as the Controller's Office regarding other
12	matters with other vendors that could
13	potentially be in an unsatisfactory status with
14	the City.
15	COUNCILWOMAN BROWN: Okay. All right
16	then. Thank you very much. Thank you,
17	Mr. President.
18	COUNCIL PRESIDENT CLARKE: Thank you very
19	much. Moving right along, there appear to be
20	no additional questions. I want to thank you
21	very much for your testimony.
22	(All reply thank you.)
23	COUNCIL PRESIDENT CLARKE: Please be
24	prepared to come back when we have call backs.

1 Thank you. And next we have Human Services -- Human 2 3 Resources, I'm sorry. 4 MS. LOPEZ: Good afternoon. COUNCIL PRESIDENT CLARKE: You're back. 5 6 MS. LOPEZ: I'm back. COUNCIL PRESIDENT CLARKE: So -- all 7 right. That calls me to go back to this 8 9 question. When I was asking you about overlap, the 10 difference between Chief Administrative Office 11 12 and Human Resources, you told me that there was a difference, but now you're here testify. 13 MS. LOPEZ: I'm just filling in. 14 The job is -- the HR Director for the City is posted. 15 And so the Civil Service Commission --16 COUNCIL PRESIDENT CLARKE: So this is an 17 interim. There will be somebody? 18 Yeah. The job is posted. A 19 MS. LOPEZ: recruitment firm has been retained. And so 20 21 once a HR director is found, the Commission 22 will appoint them permanently. COUNCIL PRESIDENT CLARKE: How long have 23 24 you been doing both jobs?

Committee of the Whole April 16, 2019

Page 124

1 MS. LOPEZ: Maybe October. 2 COUNCIL PRESIDENT CLARKE: October? MS. LOPEZ: I believe it's been October, 3 4 maybe November. 5 COUNCIL PRESIDENT CLARKE: So why do we 6 need both? MS. LOPEZ: Well, I don't know if it's an 7 ideal situation. I don't know if it's 8 9 sustainable. But, I mean, it's a great team. 10 The HR Department, the deputies are great. And they, you know -- it's been a lot of fun. 11 Ι 12 mean, for me, at least, personally. I don't 13 know if they feel the same way, but it's be fun for me. HR is my passion, so it's been a fun 14 15 project. COUNCIL PRESIDENT CLARKE: Okay. I mean, 16 I know that. But I mean, Chief Administrative 17 18 Officer was something that's relatively new? 19 MS. LOPEZ: It's very new. Yep. 20 COUNCIL PRESIDENT CLARKE: And we were 21 actually asking why are we creating another 22 department, because there's always an issue 23 about redundancy and government. A lot of 24 people -- the general population think that

1 there's quote, unquote fat in the government. 2 And we don't agree, because we're all here and we know. But it does kind of lend a little 3 4 weight to the argument. 5 MS. LOPEZ: It is interesting. There's a 6 movement in HR right now, where a lot of organizations are combining IT and HR. 7 Ι probably shouldn't say this, but the State is 8 9 doing that, the Commonwealth of Pennsylvania. And there is a shift in the marketplace 10 11 where they are combining those two functions 12 and leveraging tech in recruiting talent. 13 COUNCIL PRESIDENT CLARKE: I mean, we're supposed to be about the business of 14 efficiencies, and, you know -- I don't like to 15 use the term downsizing, because that means 16 eliminating employees, and I'm a strong 17 18 supporter of municipal employees. But if there's a way to be more efficient, 19 similar to what we've done with the 20 21 consolidation of planning, zoning, development. 22 And understand that they finally got their 23 contract in place, and they are moving towards 24 consolidating the agencies, I'd like to see

1 that practice across the Board. Because again, 2 we are responsible to the taxpayers. 3 MS. LOPEZ: Right. Yep. No, I understand. 4 5 COUNCIL PRESIDENT CLARKE: I'm sorry. Ι 6 disrupted you. Were you going to testify? MS. LOPEZ: I have a very short testimony, 7 and then we're open for any questions. 8 9 COUNCIL PRESIDENT CLARKE: All right. I'm sorry. Go ahead. Initially, when you came 10 back up I was like -- I mean, we're cool and 11 12 all that. I don't mind you coming up, it's 13 just you know. 14 MS. LOPEZ: It's a very appropriate question. So I'll be brief. 15 Good afternoon, President Clarke and 16 Members of City Council. I'm Christine 17 18 Derenick-Lopez, Chief Administrative Officer and Interim Human Resources Director. 19 20 Joining me today is Marsha Greene-Jones 21 and Valerie Hosendorf, both of whom are Deputy Human Resource Directors. 22 23 I'm pleased to provide testimony on the 24 Office of Human Resources Fiscal Year 2020

1 operating budget.

2	In Fiscal Year 2020, the Office of Human
3	Resources is focusing on creating an approach
4	that enables the City to attract and retain a
5	high quality and diverse work force that
6	provides quality services to our residents.
7	Additionally, the Office of Human
8	Resources will continue to focus upon the
9	wellbeing of our employees.
10	You have my full written testimony. My
11	team and I are happy to answer any questions
12	you may have.
13	COUNCIL PRESIDENT CLARKE: Man, that was
14	quick. Real quick, the Model Employer
15	Initiative I know this came up in some of
16	the earlier testimony can you talk to me
17	about how does Human Resources fit into that
18	initiative?
19	MS. LOPEZ: Yep. So we partner a lot with
20	the Office of Work Force Development. And
21	Zakiyyah Ali leads the City's Model Employer
22	Program.
23	So we have a couple projects going on now.
24	We partnered with them on the hospitality

STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 careers at the Airport. So another opportunity to build a bridge for custodial workers at the 2 Airport. That's one project we supported. 3 4 And right now, we have two projects that 5 we're looking to launch in the beginning of the 6 next fiscal year. One is with 311 operators. It's actually, physically, going into the 7 prison with women, and teaching them the skill 8 9 sets to be a 311 operator, and then building a bridge class for when they are returning 10 11 citizens and bring them into our employment. 12 The other project is with fleet 13 management. Where we're looking at partnering 14 with current inmates. And through a work release program, building a bridge program. 15 Where on work release, they will be trained in 16 the fleet maintenance facilities. And after a 17 18 certain period of time, we're thinking six 19 months, they will be transitioned to full-time 20 employment. So those are the two projects that 21 we have going on right now that we're looking 22 to launch in July. COUNCIL PRESIDENT CLARKE: 23 Okay. 24 Healthcare, healthcare cost, always a challenge

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 for everyone, particularly, as it relates to 2 government, maintaining cost. Have we -- and I know we don't have any 3 4 ability to impact it, at least not this 5 particular year, maybe next year when there's a federal election -- but have we looked at the 6 possibility of the elimination of the ACA or 7 any changes as it relates to -- I guess, at 8 9 all, depending on who becomes the President or Congress, and all the other things associated 10 11 with dictating. 12 But have we looked at the potential 13 options and how we can ensure that we maximize and optimize our best practice, as it relates 14 to maintaining healthcare costs for our 15 employees? I know that's kind of like a 16 crystal ball thing, because we don't know 17 18 what's going to happen, but probably something 19 is going to happen one way or another. 20 MS. LOPEZ: I'm going to let Marsha answer 21 that. 22 MS. JONES: One of the things I have to 23 say to you -- Marsha Greene-Jones, Deputy Human 24 Resources Director.

1 One of the things that you've alluded to is the fact that there's a bit of uncertainty. 2 And it's uncertainty, I think, across the board 3 4 with consultants, with the healthcare 5 community. I think one of the things we've seen is the Cadillac tax, how that's been 6 pushed back for a number of years. And that 7 tax, actually, has not come to fruition, nor do 8 9 I think it will ever come to fruition to be 10 quite honest. 11 What I -- it's difficult to speculate on 12 what will happen, I have to say. All things being equal, I think that the landscape will 13 pretty much be normalized, the way it is today, 14 because we don't see any pending legislation 15 that would rear its head at this point to say 16 that there are going to be any changes, because 17 18 change would take a very long time to 19 implement. 20 So at this stage of the game, I don't 21 foresee any changes in the next few years. 22 COUNCIL PRESIDENT CLARKE: Okav. You 23 should be working as a political consultant on 24 the side. What's your position, again?

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 MS. JONES: I'm the Deputy Human Resources Director responsible for health and welfare. 2 3 COUNCIL PRESIDENT CLARKE: Deputy for 4 Human Resources, and -- okay. 5 MS. JONES: Employee benefits. 6 COUNCIL PRESIDENT CLARKE: Okay. Thank 7 you. 8 The Chair recognizes Councilman Domb. 9 COUNCILMAN DOMB: Thank you, Council President. Good afternoon. 10 11 Question on City employees that currently 12 get flex credits for waiving their medical coverage. Have we done away with this benefit 13 for those who claim but yet are covered under 14 the City benefits plan by way of spouse or 15 16 parent? MS. JONES: No, we have not done away from 17 this benefit. We've continued to look at this 18 19 benefit over the last several years. And one of the things that, actually, is interesting 20 21 about this benefit is recently DC 47 negotiated 22 this flex credit for their membership. 23 So they, actually, have implemented a 24 program for medical only, whereas all the other

1 opt out programs in the City, actually, require 2 an employee to opt out of all benefits. 3 COUNCILMAN DOMB: Okay. And this goes, I 4 think, with kind of what we've been talking about and the Council President talked about. 5 The fringe benefit cost for all 6 departments is averaging 87, 88, 89 cents, 7 roughly, for dollar of labor we pay. 8 9 And so, for reference, the private world, it's like 30 to 32 cents for fringe benefits. 10 And I realize that a portion of that, a good 11 12 portion, has to do with the pension liability, 13 okay? But the rest of it, are we doing anything to look at those numbers to see how we 14 could reduce those costs? 15 16 MS. JONES: We continually, Marsha Greene-Jones, Deputy Human Resources Director. 17 We continue to look at opportunities to save 18 19 cost. 20 So one of the things that I think I've spoken about before is the fact that we focus 21 22 on a step therapy for generic, for any brand 23 name drug. So before an employee can actually 24 receive a brand name drug, they have to go

1	through step therapy, which indicates the
2	doctor has to demonstrate that the person has
3	tried several other drugs before they can
4	actually receive the name brand drug.
5	In addition to that, from a prescription
б	perspective, we've actually managed to reduce
7	our cost by a million dollars I indicated.
8	First of all, one of the ways that we've
9	done that is through management of our
10	specialty drug program. We have been able to
11	have a they have to have a pre-authorization
12	to receive specialty drugs. So we continue to
13	look at avenues on an ongoing basis to actually
14	manage our costs.
15	So we do that not only in that way, the
16	plan design, but also through our educational
17	processes.
18	So one of the things that's really
19	important right now is mental health. Let's
20	talk a little bit about mental health.
21	So we have mental health, as we know,
22	is also something that involves employees who
23	have chronic diseases.
24	So one of the things Independence Blue

Cross is going to be doing in the next couple
of months, is they are going to be rolling out
a telephonic mental health program with
Magellan. We think this will break barriers in
terms of people kind of there's that old
shadow over people who want to go speak to a
professional.
So this will take away some of the
stigmatism associated with mental health. And
we know that mental health is something that
crosses all barriers, all socioeconomic levels.
So that's one of the things that we're actually
going to be doing.
COUNCILMAN DOMB: I'm going to ask you
this question. Do we know as a City we
have, what, 29,000 employees? What do we pay
for medical costs for those 29,000 people?
MS. JONES: I can't speak to what we pay
for the other groups, because I'm only
responsible for the health and welfare plan for
the cap employees. So those are the employees
who are non-represented or union people who opt
into our program.
So each union, actually, negotiates their

Committee of the Whole April 16, 2019

1 own programs. They have different benefits 2 they offer, just as we do. 3 COUNCILMAN DOMB: Let's just stay with 4 your program for a minute. How many people 5 does your program cover and what is the medical 6 cost of that? 7 MS. JONES: We cover over 12,000 members. And our cost is \$89.3 million. And that 8 9 includes all benefits. 10 COUNCILMAN DOMB: How much is that coming out to roughly per person? Do you have any 11 12 idea? 13 MS. JONES: It's roughly about \$1,050 per 14 member per month. 15 COUNCILMAN DOMB: So it's 12,000 a year? 16 MS. JONES: Yes. COUNCILMAN DOMB: Have we had anyone look 17 at that program to try to determine how we can 18 19 save money with that? 20 MS. JONES: We're constantly looking at 21 the program. We negotiate the contract every four years. And every year, we look at ways to 22 23 minimize our cost. We rank ourselves against 24 our peer group, other governmental agencies, to

1 understand where we fit in with regard to our 2 copays, with regard to our per member per month 3 costs, with regards to prescription costs, et 4 cetera. And I have to -- I'm pleased to report 5 6 that we actually rank very, very well compared 7 to our other businesses -- not businesses, other governmental agencies within this group. 8 9 COUNCILMAN DOMB: Who negotiates that 10 contract? 11 MS. JONES: Pardon? 12 COUNCILMAN DOMB: Who's the negotiator of 13 that contract? Who negotiates it? 14 MS. JONES: We negotiate the contract. So 15 the City of Philadelphia does. We negotiate our own contracts with our vendors. We put out 16 an RFP. We're responsible for negotiating 17 18 those contracts with the Law Department. COUNCILMAN DOMB: So when I do the math --19 tell me what I'm doing wrong -- \$89 million for 20 21 medical, 12,000 people covered comes out to 22 \$7,400 a year, which is cheaper than what 23 you're saying. Did I do something wrong? 24 MS. JONES: I don't know if you did

1 something wrong, why don't I come back to you 2 and talk to you about that, because it's probably just taking into account the 3 4 medical -- it's taking in the basic fringe benefits as opposed to the other ancillary 5 6 benefits. COUNCILMAN DOMB: Well, this is better 7 than what you told me. I mean, I'm happy that 8 9 we're paying --10 MS. JONES: Well, all things being equal it probably doesn't -- remember, we cover the 11 12 unions in certain benefits, which I haven't alluded to. So that cost that I'm taking about 13 probably is not including all the unions plans, 14 such as life insurance. We cover all the union 15 members with life insurance, retiree, life 16 insurance for all those individuals. 17 18 COUNCILMAN DOMB: So maybe you can come 19 back to us with a breakdown. 20 MS. JONES: I can come back to you with a 21 breakdown. 22 COUNCILMAN DOMB: And maybe you can maybe 23 enlist some of the people who are taking the 24 negotiation class to help us negotiate the

Committee of the Whole April 16, 2019

Page 138 1 contract. Thank you for being here today. Thank you, Mr. President. 2 3 COUNCIL PRESIDENT CLARKE: Thank you, 4 Councilman. 5 The Chair recognizes Councilwoman Reynolds 6 Brown COUNCILWOMAN BROWN: Good afternoon, 7 8 ladies. 9 I want to -- I'm referencing a 2018 Pew Report that talks about the rule of two. 10 The 11 research for this report found that some of 12 Philadelphia's civil service regulations offer hiring managers less latitude than their 13 counterparts in other municipalities. 14 One example is the so-called rule of two, 15 which limits a hiring manager in Philadelphia 16 to considering only the two candidates who 17 place highest on the eligibility for this 18 19 position. With each applicant given a precise numerical rating based on exam scores and other 20 21 factors. 22 Bad news, among the Nation's 30 largest 23 cities, 29 others all give managers more 24 options, LA gives the rule of five.

1 And so, how does your office -- or has your office recently considered the impact of 2 the rule of two, one? How does the rule of two 3 4 impact your ability at the City to hire diverse 5 candidates for jobs? 6 And again, for me, the aggravating factor is the Philadelphia Free Library. I'm being 7 redundant, but I need to make a point. 8 9 Does the rule of two have an impact on 10 small businesses? Speak to where you all --11 how you deal with that reality for us. 12 MS. LOPEZ: So the Pew report really -the research they did really was helpful to us. 13 And Philadelphia is in the minority when it 14 comes to our ability to give managers more 15 options in selecting talent. The rule of two 16 is pretty restrictive in comparison to other 17 18 cities. That is true. 19 I'm going to quote my Deputy, Val Hosendorf, here, because she said something 20 21 about the project work we're doing, and really 22 about finding better ways to attract talent 23 and, also, as I mentioned, always having an 24 inclusive lens on that. So we think that we

1	have a lot of opportunity with the current
2	project work. And Val said, You know, if we do
3	a great job at getting these great candidates
4	on the list, is it so horrible that people have
5	to pick two great candidates? Is that a
6	horrible problem to have?
7	And so that's the approach we're starting
8	with. We know that it's promotional exams
9	where we're seeing the rule of two having an
10	impact. And it's really having an impact on
11	diversity and inclusion. That's where we're
12	seeing it, given the research we've done.
13	COUNCILWOMAN BROWN: So if we know that
14	that's a major barrier, in fact, some will
15	argue it's a blocker. And if we're serious
16	about wanting to change the paradigm, then how
17	much time are you giving for this new
18	initiative to reveal it's hopeful and desirable
19	outcomes?
20	MS. LOPEZ: So we started it. And we've
21	already made some great progress.
22	COUNCILWOMAN BROWN: Started it when?
23	MS. LOPEZ: I would say November we
24	started launching. We changed some regulations

STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 and policies. We removed some barriers, how 2 we're approaching our engagements --COUNCILWOMAN BROWN: So it's not a year 3 4 old yet? 5 MS. LOPEZ: It's not a year old yet, no. 6 I would say we started in November. But at 7 some point, probably a year from now, we're probably going to have to have the rule of two 8 9 conversation. 10 COUNCILWOMAN BROWN: Repeat that last --MS. LOPEZ: I think probably a year from 11 12 now, we're probably going to have start having 13 the rule of two conversation, what we're going to have to do. It is a Charter change. 14 That is something, specifically, stated in the 15 16 Charter. COUNCILWOMAN BROWN: And so if leaders are 17 serious about changing the paradigm, and we 18 19 know that it requires a Charter change, than whatever it takes to fix the paradigm, let's 20 21 just do it. 22 MS. LOPEZ: We're open to the discussion. 23 We're absolutely open to the discussion. Right 24 now, we feel like the project work is where we

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 need to be. 2 COUNCILWOMAN BROWN: Step in that direction, first. 3 4 MS. LOPEZ: Yes. And it's yielding the results that we're looking for. It's getting 5 6 us -- it's meeting our goals. COUNCILWOMAN BROWN: Okay. I will share 7 with you that I've spoken with our Airport 8 9 leader. And she had, too, indicated how the rule of two has been and is an impediment to 10 her achieving the diversity goal she's trying 11 12 to do out there. So you should be aware of 13 that. 14 MS. LOPEZ: Thank you. COUNCILWOMAN BROWN: So now I'm looking at 15 Page 9 of your testimony, which indicates staff 16 demographics as of November 2018. 17 18 As it reads, there are 38 full-time 19 African American female staffers, and 13 full-time white female staffers. However, the 20 21 numbers indicate that on an average, the African American female full-time staffer 22 23 salary is approximately \$10,000 less than their 24 white female counter parts.

In addition, there are 11 full-time 1 African American male staffers, and seven white 2 full-time male staffers. Once you look at the 3 4 numbers and analyze the numbers, as my staff and I seek to do, the numbers indicate that on 5 average, the African American male full-time 6 staffer salary is approximately \$16,000 less 7 than their white male counter parts. 8 9 Help us understand how we can get the equity, when that kind of pay in equity exists. 10 So we have -- there are four 11 MS. LOPEZ: 12 exempt positions in the Office of Human 13 Resources. And I would say the majority -- I mean, they are all female. And the majority 14 are diverse. So the rest of the workforce is 15 civil service. 16 So most of our staff -- we have 17 professionals who work in Hiring Services and 18 19 Benefits, and then the remainder of the staff are predominantly administrative. 20 21 And so from my perspective, both are 22 diverse. We have folks representing all type 23 of ethnic groups. But obviously, the 24 administrative positions are compensated less

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

1 than --2 COUNCILWOMAN BROWN: And is that because they are exempt? Help me to understand. 3 4 MS. LOPEZ: They are all civil service. 5 COUNCILWOMAN BROWN: They are all civil 6 service? Yeah. 7 MS. LOPEZ: We only have four exempts. And three of them -- and two of them 8 9 are sitting here with me. We have three African American women, and one who is 10 11 non-diverse. 12 So everyone else is civil service. And so 13 it's just -- all the pay, as you're aware, the pay rates are what they are based on the title. 14 COUNCILWOMAN BROWN: So then where is 15 the -- I hate to point the finger, because I'm 16 sure it has nothing to do with the existing 17 professionals, because this has to go back to 18 pay scales when they were hired. Would that be 19 20 fair to say? 21 MS. LOPEZ: Yeah. And also the positions 22 they were hired in. 23 COUNCILWOMAN BROWN: And also the 24 positions they were hired in.

MS. LOPEZ: Yeah. Because the 1 2 professionals, they need a bachelor's degree. And they are HR professionals. So they are all 3 4 paid -- depending on your tenure, they are all 5 paid the same. 6 And then the administrative staff, they 7 are also all paid the same. It depends on the job and the level of complexity of the job and 8 9 then time. 10 COUNCILWOMAN BROWN: That's helpful, very helpful. One last question related to that, 11 12 Mr. President. There's the ask for an additional 178,000 in Class 100 funds; is that 13 14 accurate? MS. LOPEZ: Let me look just give me one 15 minute. In 100? 16 COUNCILWOMAN BROWN: Class 100 funds. 17 The 18 subsequent question is --19 MS. LOPEZ: I'm sorry. Yes. They are for 20 the pay raises, the Collective Bargaining 21 Agreement. 22 COUNCILWOMAN BROWN: Okay. Very well. 23 Okay then. Thank you very much, and thank you 24 for the explanation.

1 COUNCIL PRESIDENT CLARKE: Thank you, Councilwoman. 2 The Chair recognizes Councilman 3 4 Taubenberger. 5 COUNCILMAN TAUBENBERGER: Thank you, 6 Mr. President. 7 Just a quick thank you, Ms. Lopez. Your staff has always been very, very open to us and 8 9 helpful. And I appreciate it, having meetings and asking about other things and getting 10 11 advance. 12 My question is very simple. Is there 13 anything that we can do in the Council over Whether it's -- obviously, not 14 time? necessarily for the budget, itself, but over 15 time that we can do to help you make your job 16 better, something you find onerous, something 17 18 that maybe we should take a closer look at? 19 MS. LOPEZ: So thank you. That's very 20 generous. 21 COUNCILMAN TAUBENBERGER: It's true. People that are helpful, I want to make sure 22 23 other people know about their helpfulness. 24 MS. LOPEZ: Thank you. I mean, we are

> STREHLOW & ASSOCIATES, INC. (215) 504-4622

Page 146

1 really excited about the project work. And,
2 you know, Val leads hiring services. And she
3 has just -- through her leadership, has just
4 done amazing work in a very short period of
5 time. And so we're pretty excited about that
6 work continuing.

7 And we're not exactly sure where the road 8 will take us in the next six to 12 months. But 9 depending on what we find, you know, we would 10 love to continue to meet with you and see if 11 there's any opportunities to legislatively make 12 some changes or whatever that may reveal.

We hired a consultant, so we're just engaging in a lot of the work. I mean, we're doing a lot of work that we can control. But we're looking for some consulting work, as well.

18 COUNCILMAN TAUBENBERGER: Well, I would 19 take you up on that in meeting you over a 20 period of time, because I really think that's 21 how things, in the long run, get done for the 22 betterment of all of Philadelphia. And that's, 23 really, why we're here. So I thank you. And 24 thank you very much. Mr. President, thank you

> STREHLOW & ASSOCIATES, INC. (215) 504-4622
