CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Solid Waste Collection & Disposal	1201	
Program Description				
This program is responsible for residential and commercial solid waste collection and disposal, along with street cleaning.				
Program Objectives				
a) Newer and more innovative alternative waste management strategies will be necessary going forward. This will include establishing a framework for newer collections operations in the field, as well as distinct strategies to dispose of distinct categories of trash material more efficiently, b) Equity-Based Litter Reduction Strategies: The Department is strategically implementing a focused data-driven approach to addressing litter reduction needs in specific areas of Philadelphia. This impact is being driven by Streets' objective Litter Index assessment methodology which scores the relative litter conditions of each neighborhood area and, combined with stakeholder community input, provides for targeted neighborhood-specific litter reduction plans for those areas. It also ensures racial equity in addressing litter in geographic areas most in need. c) Citywide Mechanical Street Cleaning: A new citywide curb to curb mechanical street cleaning program will be established while adopting this approach. Tailored street cleaning plans will be implemented in specific areas of the City. This will ensure that areas most in need of cleaning will be addressed first.				
Performance Measures				
Description	Fiscal 2020 Year-End	Fiscal 2021 Year-to-Date (Q1 + Q2)	Fiscal 2021 Target	Fiscal 2022 Target
(1)	(2)	(3)	(4)	(5)
On-time collection (by 3 PM): trash	78.0%	54.0%	80.0%	80.0%
Comments:	The COVID-19 epidemic has resulted in significantly higher levels of residential trash tonnage due to people remaining in their homes for extended periods of time thereby generating more disposed trash. In addition, the Department has experienced very high levels of sanitation staff outages which, combined with increased trash levels, significantly delayed on-time collections during Q1 and necessitated the utilization of employees on an overtime basis to collect excess trash.			
Tons of refuse collected and disposed	623,930	391,009	716,000	635,000
Comments:	The COVID-19 epidemic has resulted in significantly higher levels of residential trash tonnage due to people remaining in their homes for extended periods of time thereby generating more disposed trash. In addition, the Department has experienced very high levels of sanitation staff outages which, combined with increased trash levels, significantly delayed on-time collections during Q1 and necessitated the utilization of employees on an overtime basis to collect excess trash.

CITY OF PHILADELPHIA		
FISCAL 2022 OPERATING BUDGET		PERFORMANCE MEASURES AND RACIAL EQUITY
Department	No.	
Streets	12	Responses to Racial Equity Questions
<i>Racial Equity Questions for Existing Budget</i>		
<i>What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity?</i>		
<ul style="list-style-type: none"> · <i>A Safer and More Just Philadelphia</i> · <i>Health Equity for All</i> · <i>Quality Education for All</i> · <i>Inclusive Economy and Thriving Neighborhoods</i> · <i>Diverse, Efficient, and Effective Government</i> 		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Solid Waste Collection and Disposal Program, for example, this approach is being driven by Streets' objective Litter Index assessment methodology which scores the relative litter conditions of each neighborhood area and, combined with stakeholder community input, provides for targeted neighborhood-specific litter reduction plans for those areas, including effective deployment of collection, disposal and street cleaning assets and more practical, tailor-made remediation approaches, particularly in areas with the worst litter conditions in the city.</p>		
<i>Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?</i>		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
<i>How is your department using its budget to create an inclusive, anti-racist workplace?</i>		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Recycling Promotion & Processing Program	1202	
Program Description				
This program maximizes collection and processing of recyclable materials. Diverting these materials from the solid waste stream reduces solid waste tonnage. The Department also develops and coordinates education and outreach programs to bolster recycling rates.				
Program Objectives				
a) Maintain Vitality of City-Wide Recycling Program: City recycling efforts are forcibly challenged on two competing fronts: the ongoing global recycling market's effect on decreasing recycling commodity material value and associated higher costs; and more recently, the economic impact of the COVID-19 epidemic making higher recycling costs budgetarily unsustainable. Municipalities and counties across the country responded to this issue by eliminating or suspending recycling . Streets remains committed to the City's Zero Waste objectives. The Department continues to rely on a vibrant and effective recycling program and to aggressively evaluate and implement measures to reduce recycling contamination rates. At the same time, increasing resident and business participation in recycling behaviors and partnering with recycling material processing contractors. This will enable Streets to focus recycling efforts primarily on higher value recycling commodities and establishing forward looking contract cost structures that enhance the overall index value of recycling commodities. It is important to note that these efforts, combined with significantly more residential trash due to the COVID-19 pandemic, will result in a lower recycling diversion rate yield. However, these measures will effectively sustain the economic viability of the City's recycling program going forward. b) Enhance Grant-Funding Opportunities: The economic impact of the current COVID-19 crisis is also impacting traditional state recycling program grant funding. It is projected that within the next two fiscal years, Streets will be eligible for significantly less state grant recycling funds. As a result, the Department will be investigating additional grant opportunities, particularly from non-profit sources, to support certain recycling initiatives. Several potential recycling education grant funding opportunities are possible. This will be an increasingly significant concern as government-based grant opportunities decline.				
Performance Measures				
Description	Fiscal 2020 Year-End	Fiscal 2021 Year-to-Date (Q1 + Q2)	Fiscal 2021 Target	Fiscal 2022 Target
(1)	(2)	(3)	(4)	(5)
Recycling rate	13.7%	5.7%	10%	10%
<p>The COVID-19 epidemic resulted in significantly higher levels of residential trash tonnage during Q1 and Q2 due to people remaining in their homes for extended periods of time thereby generating more disposed trash. The excess tonnage required significant operational changes that essentially required recycling materials being mixed with the regular trash stream in order to attempt to keep up with area collections schedules.</p> <p>Comments: This resulted in a significant reduction in the amount of recycling materials processed, thereby decreasing the recycling rate. However, there has been an improvement in relation to FY21 Q1, with a 2.7% increase in the recycling rate.</p>				
On-time collection (by 3 PM): recycling	96.0%	67.5%	75%	75%
Comments:				
Tons of recycling collected and disposed	85,520	20,695	80,000	85,000
Comments:

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY
FISCAL 2022 OPERATING BUDGET		
Department Streets	No. 12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget		
What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient, and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Recycling Promotion and Processing Program, for example, this approach is being driven by objective waste and recycling composition studies identifying opportunities to increase participant recycling behavior in specific areas of the city, and develop specific strategies to educate and promote improved recycling activities.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Sanitation Education, Enforcement & Compliance	1203	
Program Description				
The Department monitors commercial and residential areas to enforce compliance with sanitation code and regulations and performs outreach to neighborhoods and their representatives to conduct cleaning and beautification efforts.				
Program Objectives				
a) Expanded Enforcement Capability: Streets plans to augment the enforcement capability of sanitation compliance officers by partnering with the First Judicial District and Department of Licenses and Inspections in obtaining authorization to issue Notice of Violations (NOV) to non-compliant residents and businesses in addition to monetary fines to expand penalties for sanitation code violations and improve overall public compliance. b) Improve Illegal Dumping Surveillance Network: Streets will continue to work with law enforcement and technology partners to create a vast citywide network of illegal trash dump surveillance cameras in strategically targeted areas of the city known for such activity. This includes aggressively pursuing funding opportunities for new and technologically improved cameras with the long-terms objective of network enforcement in all high-volume illegal dumping areas city-wide. c) Strategic Enforcement: The Department will continue to utilize smarter, more efficient, and technology-oriented solutions to curtail litter conditions and improve livability citywide. This will include continued use of smart mobile, hand-held device technology to capture litter field data and a more objective, data-oriented approach to strategic litter reduction and enforcement efforts.				
Performance Measures

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY
FISCAL 2022 OPERATING BUDGET		
Department Streets	No. 12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget		
What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Sanitation Education, Enforcement and Compliance Program, for example, this approach is being driven by Streets' objective Litter Index assessment methodology which scores the relative litter conditions of each neighborhood area and, combined with stakeholder community input, provides for targeted neighborhood-specific litter reduction plans for those areas, including effective surveillance camera enforcement initiatives, particularly in areas with the worst litter conditions in the city.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Paving and Roadway Maintenance and Repair	1204	
Program Description				
This program maintains streets, Americans with Disabilities Act (ADA) ramps, and roadways by repaving and repairing deteriorating road conditions, including potholes. This program also removes snow and ice, and scales back overgrown vegetation that affects traffic flow.				
Program Objectives				
State of Good Repair for City Streets and Roadways: City streets, roadways, and crosswalks must be resurfaced and maintained at optimal life cycle intervals in order to ensure a state of good repair and accessibility. The Department has strategically focused on improving roadway conditions incrementally over the last several years with progressively increased resurfacing from FY17 through FY19 at 56, 77 and 96 miles respectively. 64 miles were resurfaced in FY 20, under unique circumstances, and with a larger share of funds than had been anticipated required for curb ramp upgrades as part of the City's obligations under the Americans with Disabilities Act along resurfacing routes. If approved, the request for an additional \$100 million in Capital funds for resurfacing ensures the Department can continue improving significant amounts of streets, roadways, and crosswalks, while also making any attendant accessibility improvements for several more years going forward. The Department is currently assessing alternate less costly strategies to address ADA ramps, such as the use of City forces for curb ramp design and construction, with the objective of maximizing both roadway resurfacing productivity and accessibility improvements in the long term. The additional funds will support the Department's target of paving 115 miles of streets and crosswalks and upgrading or installing approximately 7,000 curb ramps. Equity-Based Roadway Repair Strategy: The Department continues its emphasis on objective, data-oriented approach towards strategically addressing roadway conditions throughout the City. New GIS and GPS technology and systems are being used and tested along with objective assessment tools to rate and monitor the quality and condition of streets and roadways. These will be used in determining where planned resurfacing and comprehensive repair work is to be performed, focusing work in areas most in need. Winter Event Technology Improvements: Streets is also using GPS technology as part of an informational and tracking system for winter events. GPS technology will allow for the monitoring and efficient deployment of resources to significantly enhance and improve winter storm event response operation. A new "Plow PHL" system is anticipated to be launched within the next fiscal year providing real-time street mapping information of snow removal operations throughout the city and setting the stage for planned, more efficient information and data driven winter event operations going forward.

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA FISCAL 2022 OPERATING BUDGET		PERFORMANCE MEASURES AND RACIAL EQUITY
Department Streets	No. 12	Responses to Racial Equity Questions
<i>Racial Equity Questions for Existing Budget</i>		
<i>What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity?</i> <i>· A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All</i> <i>· Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government</i>		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Paving and Roadway Repair and Maintenance Program, for example, this approach is being driven by objective assessment tools to rate and monitor the quality and condition of streets and roadways. These will be used as a basis in determining where planned resurfacing and comprehensive repair work is to be performed, thereby focusing work in those areas most in need.</p>		
<i>Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?</i>		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
<i>How is your department using its budget to create an inclusive, anti-racist workplace?</i>		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Right of Way Management	1205	
Program Description				
This program ensures the safe movement of traffic, including vehicles, bicycles, and pedestrians, when streets and sidewalks are closed or detoured due to construction work. This program is also responsible for determining the location, time, method, and manner for openings or excavations of City streets for utility construction and repair.				
Program Objectives				
a) Code Enforcement: The Department continues to strategically focus Right-of-Way management efforts within the context of the City's Vision Zero strategy to eliminate all traffic fatalities by 2030, and long term CONNECT transportation plan goals for the safe and efficient movement of traffic, particularly for pedestrians and bicyclists, when roads and sidewalks are closed or obstructed due to these activities. A major focus is right-of-way code enforcement changes authorizing streets to deny permits for construction work negatively impacting the public Right-of-Way beyond encroachments and including construction substantially affecting the safe and efficient egress of multi-modal traffic.				
b) Technology Improvements: Various technological productivity and efficiency improvements will be integral to the efficient review and processing of Right-of-Way design plan activity going forward with the full-scale integration of this process with the City's eClipse System thereby improving the overall coordination and processing of public Right-of-Way design and construction throughout the City.				
Performance Measures

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY
FISCAL 2022 OPERATING BUDGET		
Department Streets	No. 12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Right of Way Management Program, for example, this approach is being driven by technological efficiency improvements integral to the efficient review and processing of right-of-way design plan activity going forward thereby improving the overall coordination and processing of public right-of-way design and construction throughout the city.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing cores services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Traffic Engineering, Maintenance & Management	1206	
Program Description				
This program identifies problematic intersections and develops solutions to ensure traffic safety and efficiency in these areas. This program also oversees the installation and operation of traffic control devices and signage.				
Program Objectives				
a) Vision Zero Initiatives: Streets will continue to focus on Vision Zero strategic objectives, as outlined within the City’s CONNECT Transportation Plan, to establish and operationalize efforts targeted to significantly improve traffic safety, including considerable infrastructure improvements to the city’s street network. Primary attention will be given to the city’s high injury street network, representing 12 percent of the city’s total street corridors that are responsible for 50 percent of all traffic deaths and severe injuries. Concept design solutions will be incorporated to identified high-injury streets, including bump-outs, speed cushions, modern-day roundabouts, pedestrian countdown traffic signals, protected bike lanes and pedestrian trails, safe crosswalks, new medians, as well as other traffic safety improvements. All traffic safety solutions will be driven by the objective assessment of accident and traffic data and applicable, as well as practical, concept considerations. b) Equity-Based Traffic Safety Strategy: The Department will implement traffic calming and safety initiatives based on objective traffic data identifying multi-module high-accident areas, often occurring in highly congested, smaller and low-income minority neighborhood areas, many areas of which correspond to the City’s High-Injury Network. c) Traffic Operations Center: The Department will also continue to enhance and expand the Traffic Operations Center (TOC) to further centralize traffic control and intelligent transportation systems throughout the city. Interconnectivity between the TOC and signalized intersections allows for more real-time signal adjustments to improve driver and pedestrian safety and increase the efficiency of the city’s street system, which is integral to the Department’s overall efforts toward traffic calming efforts.

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY
FISCAL 2022 OPERATING BUDGET		
Department Streets	No. 12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget		
What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Traffic Engineering, Maintenance and Management Program, for example, this approach is being driven by objective traffic data identifying multi-module high-accident areas, often occurring in highly congested, smaller and more impoverished minority neighborhood areas, many areas of which correspond to the City's High-Injury Network.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing cores services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Street Lighting Maintenance & Repair	1207	
Program Description				
This program is responsible for Philadelphia’s 106,000 streetlights. Contractors respond to service complaints, inspect lights that are not working, and replace lamps and photo-controls. PECO powers all streetlights and repairs utility lines. City workers repair downed streetlight poles and broken luminaries and replace obsolete equipment.				
Program Objectives				
a) Citywide LED Lighting Conversion: Streets, partnering with the City’s Office of Sustainability (OOS) and Philadelphia Energy Authority (PEA), continues to move forward on a highly anticipated and ambitious plan to modernize and convert the entire citywide street lighting system to more energy-efficient and effective LED lights through an innovative performance contract with an energy service company (ESCO). The ESCO performance contract will provide for large-scale LED conversions within a several year period, with the energy savings shared between the ESCO and City. These annual operating savings are estimated at \$1.7 million, as lighting maintenance contract activities would no longer be necessary. It is projected that an ESCO contract will be in place by Spring of FY21, with contracted citywide LED conversion activity starting in Winter of FY22.				
b) Equity-Based LED Lighting Strategy: Expanded LED lighting efforts are targeted in high-crime areas to provide greater visibility relative to their incandescent counterparts, an increased sense of safety, and better conditions for residents, pedestrian, and vehicular traffic. Streets will continue to work with the Managing Director’s Office of Public Safety to objectively and equitably identify and plan on LED installation opportunities for those areas most in need of increased visibility to deter crime.				
Performance Measures				
Description	Fiscal 2020 Year-End	Fiscal 2021 Year-to-Date (Q1 + Q2)	Fiscal 2021 Target	Fiscal 2022 Target
(1)	(2)	(3)	(4)	(5)
Average time to repair a street light pole knockdown (days)	49	192	35	40
Comments: Lack of staff due to COVID-19 budget reductions and backlogged work orders have significantly impacted this measure.				
Average time to repair a street light foundation (days)	57	599	45	45
Comments: Lack of staff due to COVID-19 budget reductions and backlogged work orders have significantly impacted this measure.				
Average response time for major street lighting repairs	381	55	30	50
Comments: Lack of staff due to COVID-19 budget reductions and backlogged work orders have significantly impacted this measure.				
Streetlights converted to LED lighting	138	672	2,000	2,000
Comments: The Department expects significantly more LED lights to be installed later in the fiscal year.				
Comments:				

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA		
FISCAL 2022 OPERATING BUDGET		PERFORMANCE MEASURES AND RACIAL EQUITY
Department	No.	
Streets	12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget		
What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Street Lighting Maintenance and Repair Program, for example, this approach is being driven by targeted LED lighting efforts in troubled, high-crime areas, as determined by objective crime data, to provide greater lighting visibility at night relative to their incandescent street lights, thereby deterring crime and providing an increased sense of safety and better conditions for residents in those areas.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	Engineering Design & Construction	1208	
Program Description				
This program coordinates, reviews, and approves private development and roadway, signal, and streetscape projects. Projects are opportunities to develop systemic efficiencies, reduce fuel consumption, and expand bike and pedestrian pathways.				
Program Objectives				
a) Vision Zero-Based Capital Program: The Streets Department continues to maintain a highly effective and successful capital program, coordinating and performing review and approval for multiple and an increasing number of innovative projects within project deadlines and coordinating and performing review and approval for multiple and varied private development and various roadways, bridges, signal and streetscape projects around the city. The Department's Capital Program work is strategically aligned with the City's Vision Zero and CONNECT transportation plan initiatives. Streets is proactively working to restore multi-modal access to neighborhoods and closing the gaps to provide safe egress for pedestrians and bicyclists in key breaks to the city's multi-modal network. b) Equity-Based Capital Program Strategy: The Department will be working closely with the Office of Transportation, Infrastructure and Sustainability (OTIS) to streamline an objective, data-driven capital project prioritization process that aligns with long-term transportation goals and objectively informs the ranking and listing of projects with funding opportunities. This will effectively provide for the establishment of a long-term transportation project plan and a process that focuses on the most critical projects going forward, often located in more disadvantaged, minority-populated areas. c) Project Management System: Streets continues to pursue development of a new, enterprise project management system intended to align project management, coordination of public works grants, and grant-funded deadlines, and reimbursements, to more expeditiously and efficiently complete projects to maximize the available grant funding stream for projects, representing a significant departure from the currently archaic and manual-intensive project management and grant tracking process.				
Performance Measures

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA FISCAL 2022 OPERATING BUDGET		PERFORMANCE MEASURES AND RACIAL EQUITY
Department Streets	No. 12	Responses to Racial Equity Questions
<i>Racial Equity Questions for Existing Budget</i>		
<i>What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity?</i> <i>· A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All</i> <i>· Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government</i>		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the Engineering, Design and Construction Program, for example, this approach is being driven by an objective, data-driven transportation infrastructure project prioritization process that aligns with long-term transportation goals and objectively informs the ranking and listing of projects with funding opportunities. This will effectively provide for the establishment of a long-term transportation project plan and a process that focuses on the most critical projects going forward, often located in more disadvantaged, minority-populated areas.</p>		
<i>Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?</i>		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
<i>How is your department using its budget to create an inclusive, anti-racist workplace?</i>		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
Streets	12	City Street Plans & Surveying	1209	
Program Description				
This program studies and revises the City’s general street system plans while also maintaining maps of land use, the general overall layout of city streets, and street names. This program also maintains street and surveying plans, which are available upon public request.				
Program Objectives				
a) I-95 Project Survey Support: Streets will continue to work closely with PennDOT to survey and redefine property boundaries impacted by the Philadelphia Interstate (I-95) project and redevelopment along the corridor. This includes built surveys to capture hundreds of right-of-way changes initiated by PennDOT and extensive updates to the City Plan, depicting the layout of the entire city street system, to properly reflect redirected and geographically modified state and local streets and roadways. b) Development of State-Licensed Surveyors: A significant shortage of licensed surveyors in the metropolitan Philadelphia area threatens to impact the long-term viability of the Department’s professional surveying operations. As a result, the Department is implementing a comprehensive ten-year, in-house training and development program that will incentivize and train entry-level technical staff to become state-licensed surveyors and expand the candidate population to sufficiently fill skilled and leadership surveying positions. c) Property Records Surveying: The Department is working closely with the Office of Property Assessment (OPA) and Department of Records to coordinate the maintenance of all citywide property data into one combined GIS system, including parcel data clean-up. Streets’ surveying operations are successfully working to ensure property boundary data in the system is accurate, thereby ensuring City data can be effectively used as the legal source for property disputes, as well as chain of title and development plans.				
Performance Measures				
Description	Fiscal 2020 Year-End	Fiscal 2021 Year-to-Date (Q1 + Q2)	Fiscal 2021 Target	Fiscal 2022 Target

71-53EZ (Program Based Budgeting Version)

CITY OF PHILADELPHIA		
FISCAL 2022 OPERATING BUDGET		PERFORMANCE MEASURES AND RACIAL EQUITY
Department STREETS	No. 12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget		
What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>

CITY OF PHILADELPHIA		PERFORMANCE MEASURES AND RACIAL EQUITY		
FISCAL 2022 OPERATING BUDGET				
Department	No.	Program	No.	
STREETS	12	General Administrative Support	1210	
Program Description				
This program is responsible for agency-wide management, including finance, human resources, occupational health and safety, and planning and analysis.				
Program Objectives				
a) Strategic IT Technology Improvements: Streets will continue to partner with the Office of Innovation and Technology (OIT) to take a focused and data-driven approach to strategically plan, manage, and implement work activities and operations, properly aligning these with overall departmental goals and objectives. New technology and data metrics will be further explored and developed and aligned with operational performance measures to evaluate and manage operations and to proactively identify and implement improvements and resource allocation. In addition, this approach will further enhance our efforts to objectively evaluate work and ensure it is primarily focused in an equitable fashion on those areas and services most in need. It is expected that this process will yield significant performance improvements and ensure ongoing alignment with overall Department strategy and goals.				
b) Succession Planning: The Department will continue to improve and develop a succession planning program to address future workforce planning needs in a systemic and structured fashion. The increasing retirement of experienced employees, particularly those in key leadership or essential positions, has resulted in a significant institutional knowledge and experience gap in Streets' workforce. It is essential that a new and comprehensive approach be implemented to ensure newer employees promoted into key positions have the necessary competencies to successfully perform the job. The Department is also exploring a partnership with the Office of Human Resources (OHR) to integrate succession planning for key positions with the civil service assessment and selection process to ensure alignment between succession development and selection of the best candidates for critical jobs.				
c) Diversity Hiring: Streets plans to continue to utilize and develop internship and hiring programs going forward, as well as an anticipated newly developed succession planning process to increase and enhance employee diversity in the department. The engineering-to-intern program, for example has yielded a 50% diversity hiring rate since its inception.				
Performance Measures				
Description	Fiscal 2020 Year-End	Fiscal 2021 Year-to-Date (Q1 + Q2)	Fiscal 2021 Target	Fiscal 2022 Target
(1)	(2)	(3)	(4)	(5)
Number of operating invoices processed	5,001	2,497	5,500	5,500
Comments: The Department expects the number of invoices processed to increase significantly going forward in the fiscal year.				
Average days to process operating invoices	3.1	2.3	3.0	3.0

CITY OF PHILADELPHIA		
FISCAL 2022 OPERATING BUDGET		PERFORMANCE MEASURES AND RACIAL EQUITY
Department STREETS	No. 12	Responses to Racial Equity Questions
Racial Equity Questions for Existing Budget		
What programs or policies does your office administer to improve racial equity in the following areas? What impact have they had on output and outcomes measures related to racial equity? · A Safer and More Just Philadelphia · Health Equity for All · Quality Education for All · Inclusive Economy and Thriving Neighborhoods · Diverse, Efficient, and Effective Government		
<p>The Department has strategically implemented a number of planning measures providing for a focused data-driven approach to addressing core-service operations, supporting the equitable, efficient and effective provision of services throughout the city, including such services as litter reduction, transportation safety, roadway maintenance, street lighting and transportation infrastructure improvements. This has resulted in ensuring services are provided equitably in communities and geographic areas of the city most in need, which are often predominately minority areas. With regard to the General Administrative Support Program, this is being driven by the overall continued exploration of new technology and data metrics used to evaluate and manage operations and to proactively identify and implement equity-based improvements and resource allocation.</p>		
Have you involved internal and external stakeholders, including marginalized communities of color, in your department's budget process and program/policy design?		
<p>Many Streets Department initiatives involve community input from stakeholders. The Department's Zero Waste priorities, for example, were largely derived from stakeholder engagement, including significant representation from area communities. Beyond this, Streets' data-driven and long-term strategic approach in providing core services allows the Department to dedicate the resources necessary to improve transportation safety and reduce litter in objectively identified geographic areas, thereby helping to achieve racial equity in addressing these needs. This also ensures that the Department's work is focused in an equitable fashion, thereby greatly mitigating the possibility of disproportionately benefiting some communities over others.</p>		
How is your department using its budget to create an inclusive, anti-racist workplace?		
<p>Streets plans to continue to utilize and develop training and development going forward as well as internship and hiring programs and an anticipated newly developed succession planning process to increase and enhance employee diversity in the Department. Street's training programs are increasingly incorporating diversity and inclusion modules as an integral part of the training, particularly for leadership and specific professional development programs, and we are planning to expand this effort for all major development-oriented training. The Department will be collaborating with the Office of Human Resources to explore an expansion of the innovative engineering internship-to-hire program. This program uses the internship as part of the civil service assessment process necessary to be placed and hired from a civil service list to other occupational categories. This, as well as the former Future Track Workforce Development Program (which also used the program as a basis for assessment and placement on civil service lists) proved extremely successful in increasing diverse hires and its expansion promises to provide for increased diversity gains. In addition, the Department is establishing a comprehensive and new succession planning program to address future workforce planning needs in a systemic and structured fashion, which will incorporate increased diversity as a major overall objective, especially for senior-level management positions in certain occupational areas that are historically non-diverse.</p>
