| This was supposed a companied that a southern and also calcumuses | | d diverse DMD weddenes by weigh by because green and a | aliana, wan aw iliana a ia t |

This program supports the continued development of a talented and diverse PWD workforce by using human resource planning, recruitment, placement, career development, comprehensive and responsive safety programs, and administrative services that are consistent with and drive the long-term needs of the Department and the City's goals for diversity. This program also manages the building facilities, machine shop, and security services for PWD.

Program Objectives

- Achieve and maintain an average time-to-hire of 45 days for new hires. The current average time-to-hire is 47 days for new employees and 30 days for promotion.
- Revise and consolidate safety policies.
- Implement revised apprentice training curricula.
- Expand diversity, equity, and inclusion training.
- Increase diversity in engineering titles.
- Reassess effective assignment of employees in light-/limited-duty status.
- Establish performance management training.

SECTION 51 21

PERFORMANCE MEASURES

| Department No. | |
|----------------------------|----|
| Department No. Program No. | 0. |
| Water 28 Finance | 07 |

Program Description

This program is charged with overseeing the Department's financial planning, accounting, rate setting, debt issuance, budgetary and grant application activities: achieving an affordable and fair rate structure through a transparent rate-making process; pursuing Federal Financial Assistance to support the Department's robust capital program; and meeting regulatory requirements related to financial disclosure and reporting. In addition, the program processes PWD expenditures.

Program Objectives

- Ensure timely completion of two concurrent rate proceedings by June 30, 2023 for rates effective FY24 and FY25.
- Continue to aggressively pursue Federal Financial assistance for the Department's robust capital program.
- Maintain a balanced PWD Five-Year Plan to ensure financial resiliency and maintain existing credit ratings.

PERFORMANCE MEASURES

| Department | No. | Program | No. |
|------------|-----|------------------------------|-----|
| Water | 28 | Engineering and Construction | 08 |
| | | • | ÷ |

Program Description

This program provides technical support to the Operations Program. It prepares and implements the Capital Budget program which includes design, project control, and construction management for new and existing assets. The program also ensures the renewal and replacement of the PWD's conveyance and collector systems, as well as its treatment facilities.

Program Objectives

- Manage and maintain PWD's renewal and replacement program of the conveyance and collector's system, which delivers drinking water and collects wastewater from customers.
- Optimize and/or maintain the resources required to renew the department's treatment facilities to ensure reliability.

PERFORMANCE MEASURES

| Department | No. | Program | No. |
|------------|-----|------------|-----|
| Water | 28 | Operations | 09 |

Program Description

This program manages integrated water and wastewater services that meet or exceed all state and federal regulatory requirements to protect and preserve Philadelphia's water resources. It operates, maintains, repairs, and improves the water systems necessary to supply dependable potable drinking water while ensuring appropriate quality, pressure and volume. It also operates, maintains, repairs, and improves the wastewater systems necessary to efficiently collect and treat wastewater and stormwater to protect and improve the environment.

Program Objectives

- Continue to comply with all federal and state regulations relating to water and wastewater management.
- Operate, maintain, repair, and improve the water system necessary to supply drinking water at adequate quantities and meet customer demand.
- Operate, maintain, repair, and improve the wastewater and stormwater systems necessary to efficiently collect and treat wastewater and stormwater from the City of Philadelphia and wholesale customers.
- Work cooperatively with Information Systems & Technology (IS&T) to conduct a thorough cybersecurity analysis of process control systems to ensure protection of treatment systems and processes.
- Continue to evaluate and pilot new and different leak detection technologies to continue efforts on reducing non-revenue real losses from the water system.

PERFORMANCE MEASURES

| Department | No. | Program | No. |
|------------|-----|----------------|-----|
| Water | 28 | Public Affairs | 40 |

Program Description This program creates and implements comprehensive communication strategies to inform and educate Philadelphians about PWD, expands

access to PWD's services, and provides residents with critical information in times of breaking news or emergency repairs. In coordination with the Office of the Mayor, this program facilitates media access to PWD, designs and executes a digital strategy to engage residents, and ensures that key information about PWD is available to residents. The work includes management of the Customer Contact Center, which receives customer inquiries regarding water emergencies, requests for customer service, and information about billing and collections. The program also has a special focus on public engagement and community relations, and mediates the needs, expectations,

and concerns of PWD's stakeholders.

Program Objectives

- Establish Government Affairs Unit: A Government Affairs unit will be established within Public Affairs to provide assistance across the department regarding legislative and regulatory issues at the local, state, and federal level.
- Establish Community Engagement Civil Service Positions: For more than a decade, Public Affairs has relied on contracted professional services for community engagement, with a team embedded within the division. Civil Service positions will be established to bring community engagement service in-house. As PWD embarks on simultaneous large investments, including the Water Revitalization Plan and storm flood relief projects, the demand for community engagement has increased significantly.
- Customer Contact Center Workforce Optimization: Review Customer Contact Center work tasks and processes to improve customer service.
- Lead and Copper Rule Communications: Develop communication strategies to comply with the revised Lead and Copper Rule federal requirements.
