"N/A" is included for periods where the actual fees are not yet finalized & for the sake of accuracy.
 The FY25 estimate of 32% is the most conservative and that percentage is likely to be consistent with most recent fiscal years.
 However, because Pensions cannot be sure due to anticipated market volatility, we include the most conservative estimate.

****Starting in FY21, Finance's participation dropped for two reasons: 1) Finance began to administered the PeopleShare contract that is used to assist the City Commissioners' Office with elections staffing, but was not responsible for the soliciting the opportunity, 2) Finance has \$350,000 in contracts with vendors who are minority or women owned, but they will not register with OEO, claiming the process is too difficult.**

<p>*DFS has only one large professional services contract to report for FY22. This contract does not have any Minority, Woman, And Disabled-Owned business (M/W/DSBE) participation. The department is committed to supporting the Administration’s goal for M/W/DSBE participation in City contracting. Many of our contracts are technical due to the specificity of our requirements and specifications, particularly around the purchases of heavy equipment, vehicles, and other related parts and equipment. There are limited M/W/DSBE vendors for such contracts. We continue to review our contracts and always look for more opportunities as they arise.</p>
